

PREHOSPITAL TRAUMA LIFE SUPPORT PROVIDER COURSE

“PHTLS is recognized around the world as the leading Continuing Education program for prehospital emergency trauma care.”

- The National Association of Emergency Medical Technicians

Help your patients. Help yourself.

The Prehospital Trauma Life Support (PHTLS) course was created in recognition of the real need in EMS education for additional training in the handling of **trauma patients**.

Developed by the National Association of Emergency Medical Technicians in cooperation with the Committee on Trauma of the American College of Surgeons, the course promotes critical thinking and shares trauma care techniques in an *innovative* format.

This **16-hour course** is designed to *enhance* the knowledge and skill of first responders, EMTs, paramedics, physicians, nurses, and other licensed health care professionals. It is an ideal course for those who have some experience delivering care in the prehospital environment.

The course delivers the latest standards in prehospital trauma care using didactic lectures and *dynamic* hands-on skill sessions such as rapid extrication, pediatric immobilization and more.

So further your education and help improve the quality of trauma care for your patients. **Sign up for this course today!**
