EMS Plan UPDATE - 2013

Summary

This EMS Plan update outlines the many changes that have occurred over the past year. The EMS System has been challenged with the on-going struggles of a declining economy, which impacts reimbursement and revenues to sustain available resources and programs. Fortunately, the EMS system is strong and robust. EMS providers and hospitals continue to excel in the provision of quality services while the volume of patients being transported by ambulance and seen in local emergency departments exceeds historic levels. This trend will continue and the EMS system needs to be prepared.

The EMS Agency has reviewed its priorities and continues to direct its efforts to those priorities that meet the absolute needs of the four-county EMS region. While the EMS Agency and system providers struggle with budget challenges, there is significant activity that continues to occur throughout the EMS region. A brief summary of these changes are as follows:

1.10	<p>Each local EMS agency shall identify population groups served by the EMS system which require specialized services</p> <p>Recommended: Each local EMS agency should develop services, as appropriate, for special population groups served by EMS system which require specialized services</p>	☑	☑	☐	<p>The metropolitan area of Fresno County has been overwhelmed with homeless individuals. A critical issue that needed to be addressed by the EMS agency was the over use and abuse of the ambulance and hospital system. The EMS agency implemented policy and process on handling frequent users.</p>	<p>Continue to improve and enhance the EMS system wherever possible.</p>
1.11	<p>Each EMS Agency shall identify the optimal roles and responsibilities of system participants.</p> <p>Assure that system participants conform with their assigned EMS roles and through mechanisms such as written agreements, facility designations, and exclusive operating areas.</p>	☑	☑	☐	<p>Over the past few years, the Fresno Fire Department has stopped providing first responder services when large fire incidents occur and the department's resources become limited. This issue is due to cuts in fire department resources over the last few years. The EMS agency has worked with the exclusive ambulance provider to provide first responder services to priority one incidents during these periods.</p>	<p>Continue to improve and enhance the EMS system wherever possible.</p>

Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
1.12 / 1.13	Each local EMS agency shall provide for review and monitoring of EMS system operations.	☑	☑	☑	This year, the EMS agency replaced and upgraded its reporting software for performance monitoring and compliance reporting. Implementation of MCI policies to field, hospital and dispatch. 9. Implementation of Fireline Paramedic policy 10. Update of dispatch policies 	Continue to update and modify policies and procedures to assure consistency with modern practices and to also assure the most rapid transport of patient to a medical facility.

Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
1.23	<p>The local EMS medical director shall establish policies and protocols for scope of practice of prehospital medical personnel during interfacility transfers.</p>	✓	✓		<p>The EMS Medical Director continues to develop policy for the implementation of the Critical Care Paramedic. Unfortunately, ambulance providers feel regulatory changes are too costly and time intensive and have chosen to pursue other alternatives.</p>	<p>Continue to find alternative methods to provide the highest level of care for inter-facility transfer patients.</p>
1.24	<p>Advanced life support services shall be provided only as an approved part of a local EMS system and all ALS providers shall have written agreements with the local EMS agency.</p> <p>Each local EMS agency, based on state approval, should, when appropriate, develop exclusive operating areas for ALS providers</p>	✓	✓		<p>In 2013, ALS provider agreements were approved by the Fresno County Board of Supervisors.</p>	<p>Continue to assure ALS ambulance coverage throughout the EMS region and assure all ALS providers maintain up-to-date performance agreements.</p>

The group is reviewing EMS-C and other ideas to prepare and equip hospitals that normally do not have to treat peds.</p>	<p>Develop and implement a plan to care for sick and injured children.</p>

Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
2.01	The local EMS agency shall routinely assess personnel and training needs	☑	☑	☑	This year marks the 4th year that the EMS Agency has provided 2 primary paramedic training courses per year. An entity providing paramedic courses discontinued this training and this increased the demand on the Fresno County EMS Agency course. Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
2.04	Public safety answering point (PSAP) operators with medical responsibility shall have emergency medical orientation and all medical dispatch personnel (both public and private) shall receive emergency medical dispatch training in accordance with the EMS Authority's Emergency Medical Dispatch Guidelines.	☑	☑	☐	The EMS Agency implemented EMS policy for management of medical 9-1-1 calls. To date, the only areas that continue to fail to follow the EMS policy is the City of Reedley and the California Highway Patrol dispatch center in Fresno. We continue to work with these agencies for compliance.	Continue to provide direction and improve/enhance the skills and knowledge of PSAP operators and dispatchers throughout the 4-county EMS region on medical 9-1-1 calls
2.05	<p>At least one person on each non-transporting EMS first response unit shall have been trained to administer first aid and CPR within the previous 3 years.</p> <p>At least one person on each unit should be currently certified and equipped to provide defibrillation.</p> <p>At least one person on each non-transporting EMS first response unit should be currently certified and equipped as an EMT.</p>	☑	☑	☑	<p>All first responder units in the EMS region are equipped and able to provide all BLS level of care, which includes CPR and defibrillation.</p> <p>Unfortunately, the goal of having an EMT on each first response unit has been resisted due to the State's increase in costs for EMT certification and costs for testing requirements. At this point first responders are considering changing EMT status' to first responders to save in costs and process.</p>	Continue to strengthen and improve performance standards through-out the EMS system.

Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective

3.05	<p>All hospitals within the local EMS system shall (where physically possible) have the ability to communicate with each other by two-way radio.</p> <p>All hospitals should have direct communications access to relevant services in other hospitals within the system (e.g., poison information, pediatric and trauma consultation).</p>	☑	☑	☑	<p>While the EMS system has a robust hospital-to-hospital communications system (Status-Net), it still has a limited functioning two-way communications capability. With the assistance of the Hospital Preparedness Program, the many small/rural hospitals have replaced HEAR radios and Med radios, which allows for two-way communications.</p>	<p>Continue to assure the integrity of the hospital communications system.</p>
3.06 / 8.07	<p>The local EMS agency shall review communications linkages among providers (prehospital and hospital) in its jurisdiction for their capability to provide service in the event of multi-casualty incidents and disasters.</p>	☑	☑	☑	<p>Included with the implementation of EMS policies related to MCI responses, the EMS dispatch centers provide specific frequency and channel assignments for command and tactical channels on larger incidents. This change augments the work completed in the CALSEIC group and interoperability.</p> <p>In addition, training and reference to the State Emergency Operations Manual has been considered in these policy changes.</p>	<p>Develop plans to initiate and maintain communications with allied agencies and services in order to coordinate an event.</p>

Standard	EMSA Requirement	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
4.07	The local EMS agency shall integrate qualified EMS first responder agencies (including public safety agencies and industrial first aid teams) into the system	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	The EMS region maintains excellent first responder agencies. There are periods during large fire incidents when the Fresno City Fire Department discontinues responding as first responders to medical incidents.
