Continuing Education

PROGRAM OBJECTIVES:

At the completion of Trauma 2017, the attendee will be able to:

- List program areas as part of the State Trauma System including plans for development and improvement.
- Explain the difference in the role of a Pediatric Trauma Center and the Adult Trauma Center caring for children.
- List the components of a Second Trauma Program.
- Describe how palliative care is provided to critically injured patients..
- List the areas needed for study when determining the need for additional Trauma Centers in a given geographic area.
- List the pros and cons for the use of air transport with critically injured patients.
- List medical issues associated with marijuana use seen in the emergency department.
- Explain the use of a Performance Improvement Dashboard.
- Explain the integration of civilian and military trauma systems.
