

JUNE 6-8, 2018

USAR/CAL-MAT

FIELD TRAINING

EXERCISE

Mountain View, CA – Moffett Federal Airfield

In the aftermath of a 7.9 earthquake, what happens to our critically injured citizens when hospitals are overflowing or not fully functional? How do we communicate in critical situations when lines are down and our backup plans have never been tested? Don't wait until it happens to find out – come work on those vital skills now!

CALIFORNIA EMERGENCY MEDICAL SERVICES AUTHORITY

Focus on Unified Command Coordination, Interoperable Communications, and Disaster Field Patient Care

Build community partnerships to support delivery of healthcare services
