EXECUTIVE SUMMARY

The Mountain-Valley EMS Agency (MVEMSA) was formed through a joint powers agreement in 1981 and currently serves the counties of Alpine, Amador, Calaveras, Mariposa, and Stanislaus. The MVEMSA's primary responsibility is to plan, implement, and evaluate an emergency medical services (EMS) system which meets the minimum standards developed by the California EMS Authority.

State law requires EMS agencies to develop plans for the delivery of emergency medical services (paramedic treatment, ambulance transport, trauma services, etc.) to the victims of sudden illness or injury within the geographic area served by the EMS agency. These plans must be consistent with state standards and address the following components: manpower and training, communications, transportation, assessment of hospitals and critical care centers, system organization and management, data collection and evaluation, public information and education, and disaster response.

Major changes have taken place in the EMS system since the MVEMSA first adopted an EMS plan in 1985. Among these changes are: the availability of advanced life support (paramedic) and 9-1-1 services in all parts of the EMS system, the development of specialized policies and services for critically ill and injured children, the creation of an EMS database management system, the formation of exclusive operating areas (EOAs) for ambulance service in Amador, Calaveras, and Stanislaus Counties, the adoption of a regional Policy and Procedure Manual, and the designation of a formal trauma care system designed to triage and transport major trauma victims to designated trauma care hospitals. The process of assessing system needs and developing plan objectives revealed that although major improvements have been made in EMS system since 1985, several components of the EMS system still remain underdeveloped. As an example, despite improvements in communications technology, the communications system (the series of mountain top repeaters and radio frequencies used to dispatch ambulances to emergencies and for paramedics to contact base hospital physicians for medical advice) still is in need of updating and modification.

The Mountain-Valley EMS system currently meets or exceeds 97 of the State's 121 minimum standards and recommended guidelines.

SUMMARY OF SYSTEM STATUS

TABLE 1: CHANGES MADE ON A STANDARD

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
1.1	Special Populations	√			In conjunction with our public health partners, we are addressing special populations on an on-going basis. Interpreters are available at the PSAP's. The local Latino Emergency Response Counsel is included and actively participates in Event and Incident planning and activations.	Continue to ensure that specialized population groups (elderly, handicapped, and non-English speaking), other than EMS for children, know how to access and utilize the EMS System.
1.22	Reporting of Abuse				Currently receiving reports via our incident reporting process. Have not had staff time resources to develop policies.	Specific policy, including definitions of abuse, need to be developed. Currently there is insufficient resource and staff to dedicate to this project.
2.05	First Responder Training	√			A certification process (voluntary) for First Responders has been established. In compliance with State regulation, it is our understanding that each non-transporting first responding unit has at least one person who is trained to administer first aid and CPR.	Continue to encourage non-transporting first response units to require certification of first responding personnel and encourage adherence to the guidelines established by this agency.
2.06	Response	√			This is an on-going responsibility and this agency continues to monitor all system participants for conformance to assigned roles and responsibilities.	Continue to monitor and coordinate participation of Public Safety and industrial First Aid Teams in the EMS System.

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
2.07	Medical Control	√			<p>The EMS Agency encourages utilization of First Response Treatment Guidelines by the following methods.</p> <ul style="list-style-type: none"> - Establishing a certification process (voluntary) for First Responders. - In compliance with State regulation, encouraging each non-transporting first responding agency to have at least one person who is trained to administer first aid and CPR. Currently there are 55 First Responding Agencies and 120 First Responders Certified by this agency. Many of these agencies also have Certified EMT-1s affiliated with their services. Other First Responders are certified through the CSFM. To the best of our knowledge and authority these agencies utilize agency First Response Treatment EMS Agency Guidelines. 	Continue to encourage all non-transporting EMS First Responders to operate under the first responder treatment guidelines.

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
4.05	Response Time Standards			√	<p>Stanislaus County - CAD to CAD advisory committee established by PSAP, SPSAP, and Agency with directive to establish procedure to accomplish objectives. Calaveras County - No Progress. Communications infrastructure limitations and a recent catastrophic event caused the ability for the PSAP to provide data to temporarily stop. Agency continues to monitor response time, obtaining data from provider PCRs. Amador County - Discussions regarding agreement between Sheriff's Office and Agency that will include language to meet objectives. Alpine County - No Progress. Response data difficult to obtain due to numerous PSAP's in County, SPSAP information comes from providers outside of this agency's jurisdiction. Mariposa County - Currently receiving data from both PSAP and SPSAP. No linkage. Receiving separate reports.</p>	Need to create a mechanism, based on current activity, to measure response times from each county PSAP to arrival on scene.
4.11	Specialty Vehicles	√			This agency does not maintain a listing of specialty vehicles. This is the responsibility of the Fire and Law Enforcement agencies in each county.	There is no plan for this agency to compile and maintain a listing of specialty vehicles.

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
5.06	Hospital Evacuation	√			On-going education on OES Region IV MCI plan and participate in facilitated discussions on coordination of Hospital Internal Evacuation Plans is provided. Technical assistance during HICS and HERT training is provided.	Continue to encourage hospitals to develop, adopt, and implement a standardized hospital evacuation plan
5.13	Specialty System Design	√			Agency continues to monitor and evaluate the trauma system and specialty care facilities through the CQI process.	Ensure the on-going availability of trauma services for critically injured patients.
6.11	Trauma Center Data	√			Currently data on trauma patients who are treated at non-trauma center hospitals is collected via the Local Quality Improvement process. Data includes number and type of patients treated, the number transferred to trauma centers, and the number that should have been transported directly to a trauma center.	Continue to monitor non-trauma center hospitals and provide education to pre-hospital providers and non-trauma center hospitals to ensure appropriate utilization of the trauma system.
8.07	Disaster Communications		√	√	Calaveras County: County-wide interoperability project in progress. Stanislaus County: Purchased cache of portable radios. Continued working with local communications groups to integrate medical communications priorities with overall county planning.	Continue to work with local Fire, OES, and Public Health toward an integrated/interoperable communications system.

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
8.09	DMAT Teams	√			In accordance with internal directive, any inquiry regarding DMAT teams from members of the public or EMS participants is referred to the Sacramento DMAT.	Continue to refer any inquiry to Sacramento DMAT.
8.1	Mutual Aid Agreements	√			Objective beyond the purview of this agency. Staff is working with RDHMC/S on the Region IV MCI plan, which includes the Mutual Aid Agreements.	Continue to work with RDMHC/S, EMSA, and EMSAAC to establish statewide medical mutual aid agreement.
8.11	CCP Designations	√			This objective is the purview of each individual county health service agency. Stanislaus County has established Alternate Care Sites and CCP sub-committees under the direction of the Healthcare Emergency Preparedness Council. Calaveras County has established plans for activation and staffing of ACS and CPP under the direction of Calaveras Public Health. Amador County has developed standards under the direction of Amador County OES and Public Health. Mariposa County is coordinating their efforts between JC Freemont Hospital and Mariposa Public Health.	Continue to work with HPP Groups and Public Health Depts to identify and designate facilities for use as an ACS and CCP.

Standard	EMSA objective	Meets Minimum Req.	Short Range (one year or less)	Long Range (more than one year)	Progress	Objective
8.12	Establish CCPs	√			<p>This objective is the purview of the individual county health service agencies. Stanislaus County has established Alternate Care Site and CCP sub-committees under the direction of the Healthcare Emergency Preparedness Council. Calaveras County has established plans for activation and staffing of ACS and CPP under the direction of Calaveras Public Health. Amador County has developed standards under the direction of Amador County OES and Public Health. Mariposa County is coordinating their efforts between JC Freemont Hospital and Mariposa Public Health.</p>	<p>Continue to work with HPP Groups and Public Health Depts to identify and designate facilities for use as an ACS and CCP.</p>

SUMMARY OF CHANGES

This section summarizes the progress made to the State's minimum standards and recommended guidelines since FY 2005/2006.

§This Agency is addressing special populations on an on-going basis.

§This Agency has established a voluntary certification process for First Responders.

§This Agency has established and encourages the use of First Response Treatment Guidelines

§This Agency continues to monitor all system participants for conformance to assigned roles and responsibilities

§This Agency provides on-going education on OES Region IV MCI plan to hospitals.

§This Agency is participating in facilitated discussions on Hospital Internal Evacuation Plans

§This Agency continues to monitor and evaluate the trauma system and specialty care facilities.

§This Agency maintains a database of trauma patients that are treated at non-trauma center hospitals.

§This Agency has developed internal directives regarding DMAT Team inquiry from members of the public or EMS participants.

Some of the continuing objectives of the MVEMSA EMS Systems Plan include:

§Determining the feasibility of establishing county-wide exclusive operating areas for ambulance providers and non-transporting paramedic providers.

§Developing agreements with cities and fire districts regarding ambulance response zones in their areas.

§Developing standardized first response agreements

§Updating and repairing the communications system

§Identifying the optimal roles and responsibilities of EMS system participants

§Establishing a single system-wide on-line medical control point

§Developing a process to identify preventable morbidity and mortality

§Developing a mechanism for reporting child abuse, elder abuse, and suspected SIDS deaths.

§Developing a mechanism to measure response times from each county PSAP to arrival on scene.

§Continue to work with local Fire, OES, and Public Health agencies toward an integrated/interoperable communications system.

The following personnel and provider changes have occurred in the MVEMS System since the last update.

In October of 2007, Douglass Sisk resigned his position as the Agency's Deputy Director. Jim Worobe was promoted to Interim Deputy Director to fill the position and, following a recruitment process, Richard Murdock was hired to fill Jim Worobe's vacant Field Liaison position for Amador, Calaveras and Stanislaus Counties. In February of 2008, Jim Worobe was promoted to Deputy Director. The part-time Mariposa Liaison contract position was filled through a .20 FTE contract with Patrick Murphy. The Agency still maintains two staff vacancies which we were unable to fill due to fiscal constraints.

In May of 2008, Hughson Professional Ambulance Service relinquished control of the non-exclusive area of Waterford to Oak Valley Hospital District Ambulance.

In June of 2008, Pro-Transport One Ambulance was approved to provide service as an ALS 911 responder within Hughson Zone C.

Attempts to make progress on State General Fund augmentation for EMS regions in California during the year have again yielded no additional funding. The EMS Agency is looking at establishing a budget for next fiscal year which will have a deficit of well over \$100,000 for the third straight year in a row. The 10% cut to the State General Fund Grant has increased the deficit an additional \$34,000 reducing operating reserves to a near critical level, and requiring a reprioritization and probable reduction of services provided by the Agency for next fiscal year.

TABLE 2: SYSTEM RESOURCES AND OPERATIONS

System Organization and Management

EMS System: Mountain-Valley EMS Agency
Reporting Year: 2008

NOTE: Number (1) below is to be completed for each county. The balance of Table 2 refers to each agency.

1. Percentage of population served by each level of care by county:
(Identify for the maximum level of service offered; the total of a, b, and c should equal 100%.)

County: Alpine

A. Basic Life Support (BLS)	100 %
B. Limited Advanced Life Support (LALS)	0 %
C. Advanced Life Support (ALS)	0 %

1. Percentage of population served by each level of care by county:
(Identify for the maximum level of service offered; the total of a, b, and c should equal 100%.)

County: Amador

A. Basic Life Support (BLS)	0 %
B. Limited Advanced Life Support (LALS)	0 %
C. Advanced Life Support (ALS)	100 %

1. Percentage of population served by each level of care by county:
(Identify for the maximum level of service offered; the total of a, b, and c should equal 100%.)

County: Calaveras

A. Basic Life Support (BLS)	0 %
B. Limited Advanced Life Support (LALS)	0 %
C. Advanced Life Support (ALS)	100 %

1. Percentage of population served by each level of care by county:
(Identify for the maximum level of service offered; the total of a, b, and c should equal 100%.)

County: Mariposa

A. Basic Life Support (BLS)	0 %
B. Limited Advanced Life Support (LALS)	0 %
C. Advanced Life Support (ALS)	100 %

1. Percentage of population served by each level of care by county:
(Identify for the maximum level of service offered; the total of a, b, and c should equal 100%.)

County: Stanislaus

- A. Basic Life Support (BLS) 0 %
- B. Limited Advanced Life Support (LALS) 0 %
- C. Advanced Life Support (ALS) 100 %

2. Type of agency d
- a - Public Health Department
 - b - County Health Services Agency
 - c - Other (non-health) County Department
 - d - Joint Powers Agency
 - e - Private Non-Profit Entity
 - f - Other: _____

3. The person responsible for day-to-day activities of the EMS agency reports to c
- a - Public Health Officer
 - b - Health Services Agency Director/Administrator
 - c - Board of Directors
 - d - Other: _____

4. Indicate the non-required functions which are performed by the agency:

- Implementation of exclusive operating areas (ambulance franchising) X
- Designation of trauma centers/trauma care system planning X
- Designation/approval of pediatric facilities X
- Designation of other critical care centers X
- Development of transfer agreements X
- Enforcement of local ambulance ordinance X
- Enforcement of ambulance service contracts X
- Operation of ambulance service

Other fees: <u>Workshops/Misc</u>	<u>22,450</u>
Other (specify): <u>Pass Thru</u>	<u>20,000</u>
Other (specify): <u>Fund Interest</u>	<u>19,000</u>
TOTAL REVENUE	\$ <u>863,643</u>

*TOTAL REVENUE SHOULD EQUAL TOTAL EXPENSES.
IF THEY DON'T, PLEASE EXPLAIN BELOW.*

Net Income

\$ (207,525)

Due to the 10% reduction in the State General Fund contribution and rising operational costs, the deficit between revenue and expenses in the Fiscal Year 2008/2009 budget will be covered through a one time draw down of operational reserves in the amount of \$207,525.

The operational reserve is utilized to cover operation expenses for the first six months of the fiscal year since State and most county contribution funds are not received until December or January.

The reduction in the operational reserve of \$207,525 will severely reduce the amount of this fund to a critical level. With this reduction, it is anticipated that the Agency will be unable to meet operating expense obligations during the second quarter of Fiscal Year 2009/2010 unless an augmentation to existing finding sources is identified.

3. Number of dispatch centers directly dispatching ambulances 1
4. Number of designated dispatch centers for EMS Aircraft 1
5. Do you have an operational area disaster communication system? Yes No
a. Radio primary frequency: 467.975 and 154.145
b. Other methods: RACES
c. Can all medical response units communicate on the same disaster communications system?
Yes No
d. Do you participate in OASIS? Yes No
e. Do you have a plan to utilize RACES as a back-up communication system?
Yes No
 - 1) Within the operational area? Yes No
 - 2) Between the operational area and the region and/or state? Yes No
6. Who is your primary dispatch agency for day-to-day emergencies? LifeCom Fire/EMS Dispatch
7. Who is your primary dispatch agency for a disaster? LifeCom Fire/EMS Dispatch

Early defibrillation responder				
Advanced life support responder				
Transport Ambulance	7:30	12:14/13:51	22:04	7:54

TABLE 6: SYSTEM RESOURCES AND OPERATIONS - Facilities/Critical Care

EMS System: Mountain-Valley EMS Agency

Reporting Year: 2007/2008

NOTE: Table 6 is to be reported by agency.

Trauma

Trauma patients:

a) Number of patients meeting trauma triage criteria	<u>1847</u>
b) Number of major trauma victims transported directly to a trauma center by ambulance	<u>1691</u>
c) Number of major trauma patients transferred to a trauma center	<u>118</u>
d) Number of patients meeting triage criteria who weren't treated at a trauma center	<u>Unknown</u>

Emergency Departments

Total number of emergency departments	<u>7</u>
a) Number of referral emergency services	<u>0</u>
b) Number of standby emergency services	<u>1</u>
c) Number of basic emergency services	<u>6</u>
d) Number of comprehensive emergency services	

Receiving Hospitals

1. Number of receiving hospitals with written agreements	<u>0</u>
2. Number of base hospitals with written agreements	<u>7</u>

TABLE 7: SYSTEM RESOURCES AND OPERATIONS -- Disaster Medical

EMS System: Mountain-Valley EMS Agency

County: Alpine

Reporting Year: 07/08

NOTE: Table 7 is to be answered for each county.

SYSTEM RESOURCES

- 1. Casualty Collections Points (CCP)
 - a. Where are your CCPs located? N/A
 - b. How are they staffed? N/A
 - c. Do you have a supply system for supporting them for 72 hours? yes ___ no X

- 2. CISD
 - Do you have a CISD provider with 24 hour capability? yes ___ no X

- 3. Medical Response Team
 - a. Do you have any team medical response capability? yes ___ no X
 - b. For each team, are they incorporated into your local response plan? yes X no ___
 - c. Are they available for statewide response? yes ___ no X
 - d. Are they part of a formal out-of-state response system? yes ___ no X

- 4. Hazardous Materials
 - a. Do you have any HazMat trained medical response teams? yes ___ no X
 - b. At what HazMat level are they trained? N/A
 - c. Do you have the ability to do decontamination in an emergency room? yes ___ no X
 - d. Do you have the ability to do decontamination in the field? yes X no ___

OPERATIONS

- 1. Are you using a Standardized Emergency Management System (SEMS) that incorporates a form of Incident Command System (ICS) structure? yes X no ___

- 2. What is the maximum number of local jurisdiction EOCs you will need to interact with in a disaster? 1

3. Have you tested your MCI Plan this year in a:
a. real event? yes ____ no X
b. exercise? yes X no ____
4. List all counties with which you have a written medical mutual aid agreement.
El Dorado, Douglas County, NV
5. Do you have formal agreements with hospitals in your operational area to participate in disaster planning and response? yes ____ no X
6. Do you have a formal agreements with community clinics in your operational areas to participate in disaster planning and response? yes ____ no X
7. Are you part of a multi-county EMS system for disaster response? yes X no ____
8. Are you a separate department or agency? yes X no ____
9. If not, to whom do you report? _____
8. If your agency is not in the Health Department, do you have a plan to coordinate public health and environmental health issues with the Health Department? yes X no ____

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Alpine County

Area or subarea (Zone) Name or Title:

Alpine County

Name of Current Provider(s):

Alpine County continues to depend upon mutual aid response for ALS ambulance services. ALS ambulances are dispatched from surrounding counties and either rendezvous with the Alpine County EMS BLS ambulance on the eastern slope of the County, arrive on scene, or be canceled. Currently Lake Valley Fire District based in El Dorado County or East Fork Fire Department based in Minden, Nevada provide ALS ambulance service into the eastern slope of the County. Ebbetts Pass Fire District provides ALS ambulance service into the western portion of Alpine County.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

There is no ALS or emergency ambulance service exclusivity in Alpine County.

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

None

Method to achieve Exclusivity, if applicable (HS1797.224):

Not applicable.

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Amador County

Area or subarea (Zone) Name or Title:

Amador County

Name of Current Provider(s):

The current provider of emergency ground ambulance services in this zone is American Legion Ambulance Service. This provider has provided emergency ambulance services without interruption since 1929.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

The ambulance provider agreement between the LEMSA and American Legion Ambulance Service specifies that American Legion Ambulance Service is the exclusive operator of ALS ground ambulance and emergency ground ambulance services for that County.

Type of Exclusivity, “Emergency Ambulance”, “ALS”, or “LALS” (HS1797.85):

All emergency ground ambulance services and Advanced Life Support ground ambulance services. “Emergency ground ambulance services” shall mean all services originating in Amador County that require the use of an ambulance, including but not limited to interfacility transfers or scene calls whether Advanced Life Support, Basic Life Support, or Critical Care Transports as defined in the Amador County Ambulance Ordinance. The term “emergency ground ambulance services” is used to differentiate between air and ground ambulance services, and its meaning is equivalent to “emergency ambulance services” as found in the Health and Safety Code, Division 2.5, Section 1797.85.

Method to achieve Exclusivity, if applicable (HS1797.224):

American Legion Ambulance was "Grandfathered" into Amador County as the sole provider of ALS and emergency ground ambulance services due to no changes in manner and scope of service to the area other than upgrading to LALS and then ALS services in the early 1990s. In November, 1999, the Amador County Board of Supervisors approved a county ambulance ordinance that further defined “emergency ground ambulance services” to reflect the maximum level of exclusivity allowed according recent court decisions. These court cases, “Schaefer v. San Bernadino County” and “Redwood Empire v Sonoma County” define “emergency ambulance services” as found in the Health and Safety Code, Division 2.5, Section 1797.85, to include all ambulance services.

AMADOR COUNTY AMBULANCE GRID MAP

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Calaveras County

Area or subarea (Zone) Name or Title:

South Zone

Name of Current Provider(s):

American Legion Post Number 108 began providing service in the South Zone on July 1, 2005, after winning a competitive bid process.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

The Mountain-Valley EMS Agency has adopted exclusive operating areas for ambulance services as defined below. Approval was received from the State of California EMS Authority in 2004 to establish EOAs in Calaveras County.

Type of Exclusivity, “Emergency Ambulance”, “ALS”, or “LALS” (HS1797.85):

Definition of Terms

“All Ambulance Services” is defined as the activity, business or service; for hire, profit, or otherwise; of transporting one or more persons by ambulance on or in any of the streets, roads, highways, alleys, or any public ways or places in Calaveras County. This definition adopts the premise that Ambulance Services are considered to be “emergency ambulance services” as defined in Section 1797.85, Division 2.5 of the Health and Safety Code. Ambulance Services include all services requiring the use of a ground Ambulance in Calaveras County during any of the following circumstances: (1) All requests for ambulance services transmitted through the Authorized EMS Dispatch Center; (2) Requests for Ambulance Service made directly to the ambulance service from a seven digit telephone call without going through an authorized 9-1-1/PSAP; (3) All ground Interfacility Transfers requiring the services of an ALS, BLS, or Critical Care Transport (CCT) ambulance; or (4) Any other request for service requiring a ground ambulance response, including Basic Life Support, Advanced Life Support, or Critical Care Transport. This definition shall not apply to Ambulance Services that transport patients to or through Calaveras County from an area outside Calaveras County.

“Interfacility Transfer” is defined as all ambulance transports originating from an Acute Care Facility in Calaveras County.

“Scene Call” is defined as All Ambulance Services originating within Calaveras County not defined as Interfacility Transfers.

Types of Exclusivity Adopted for Calaveras County EOAs

1. Interfacility Transfers - The right to provide All Ambulance Services for all types of Interfacility Transfers originating from the Acute Care Facility (or any future Acute Care Facility) in Calaveras County is a right that is shared amongst the providers awarded exclusive rights to provide Ambulance Services within a Zone or Zones within Calaveras County. This shared right is independent of the Ambulance Zone within which the Acute Care Facility is geographically located.
2. Scene Calls - The right to provide All Ambulance Services for scene calls is awarded to providers for a specific

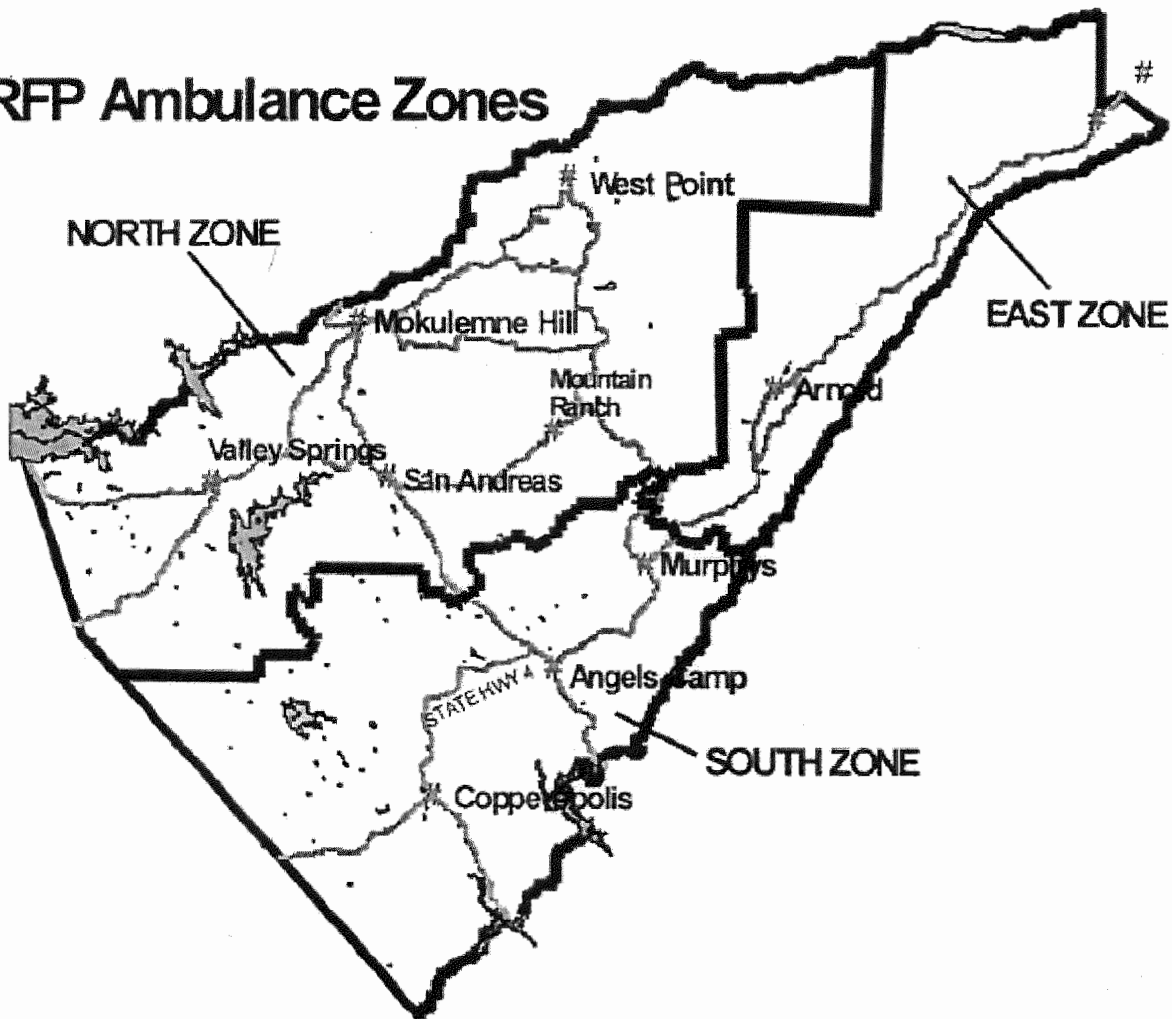

Ambulance Zone. Exceptions to this exclusivity include air ambulance services; the conditions specified in the AGENCY Special Events Policy #570.71; and during declared disasters, or events requiring Medical Mutual Aid Coordination authorized by the Authorized EMS Dispatch Center, MHOAC, or AGENCY, with the exception of Interfacility Transfers within their respective zones. The second level of exclusivity is for all Authorized Ambulance Providers to be eligible to share Interfacility Transfers originating from Mark Twain St. Joseph's Hospital.

Method to achieve Exclusivity, if applicable (HS1797.224):

Competitive Bid Process

CALAVERAS COUNTY

RFP Ambulance Zones

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Calaveras County

Area or subarea (Zone) Name or Title:

East Zone

Name of Current Provider(s):

As of July 1, 2005, the provider of ALS service in the east zone is Ebbetts Pass Fire District. They earned the right to provide service through a competitive bid process.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

The Mountain-Valley EMS Agency has adopted exclusive operating areas for ambulance services as defined below. Approval was received from the State of California EMS Authority in 2004 to establish EOAs in Calaveras County

Type of Exclusivity, “Emergency Ambulance”, “ALS”, or “LALS” (HS1797.85):

Definition of Terms

“All Ambulance Services” is defined as the activity, business or service; for hire, profit, or otherwise; of transporting one or more persons by ambulance on or in any of the streets, roads, highways, alleys, or any public ways or places in Calaveras County. This definition adopts the premise that Ambulance Services are considered to be “emergency ambulance services” as defined in Section 1797.85, Division 2.5 of the Health and Safety Code. Ambulance Services include all services requiring the use of a ground Ambulance in Calaveras County during any of the following circumstances: (1) All requests for ambulance services transmitted through the Authorized EMS Dispatch Center; (2) Requests for Ambulance Service made directly to the ambulance service from a seven digit telephone call without going through an authorized 9-1-1/PSAP; (3) All ground Interfacility Transfers requiring the services of an ALS, BLS, or Critical Care Transport (CCT) ambulance; or (4) Any other request for service requiring a ground ambulance response, including Basic Life Support, Advanced Life Support, or Critical Care Transport. This definition shall not apply to Ambulance Services that transport patients to or through Calaveras County from an area outside Calaveras County.

“Interfacility Transfer” is defined as all ambulance transports originating from an Acute Care Facility in Calaveras County.

“Scene Call” is defined as All Ambulance Services originating within Calaveras County not defined as Interfacility Transfers.

Types of Exclusivity Adopted for Calaveras County EOAs

1. Interfacility Transfers - The right to provide All Ambulance Services for all types of Interfacility Transfers originating from the Acute Care Facility (or any future Acute Care Facility) in Calaveras County is a right that is shared amongst the providers awarded exclusive rights to provide Ambulance Services within a Zone or Zones within Calaveras County. This shared right is independent of the Ambulance Zone within which the Acute Care Facility is geographically located.

2. Scene Calls - The right to provide All Ambulance Services for scene calls is awarded to providers for a specific Ambulance Zone. Exceptions to this exclusivity include air ambulance services; the conditions specified in the AGENCY Special Events Policy #570.71; and during declared disasters, or events requiring Medical Mutual Aid

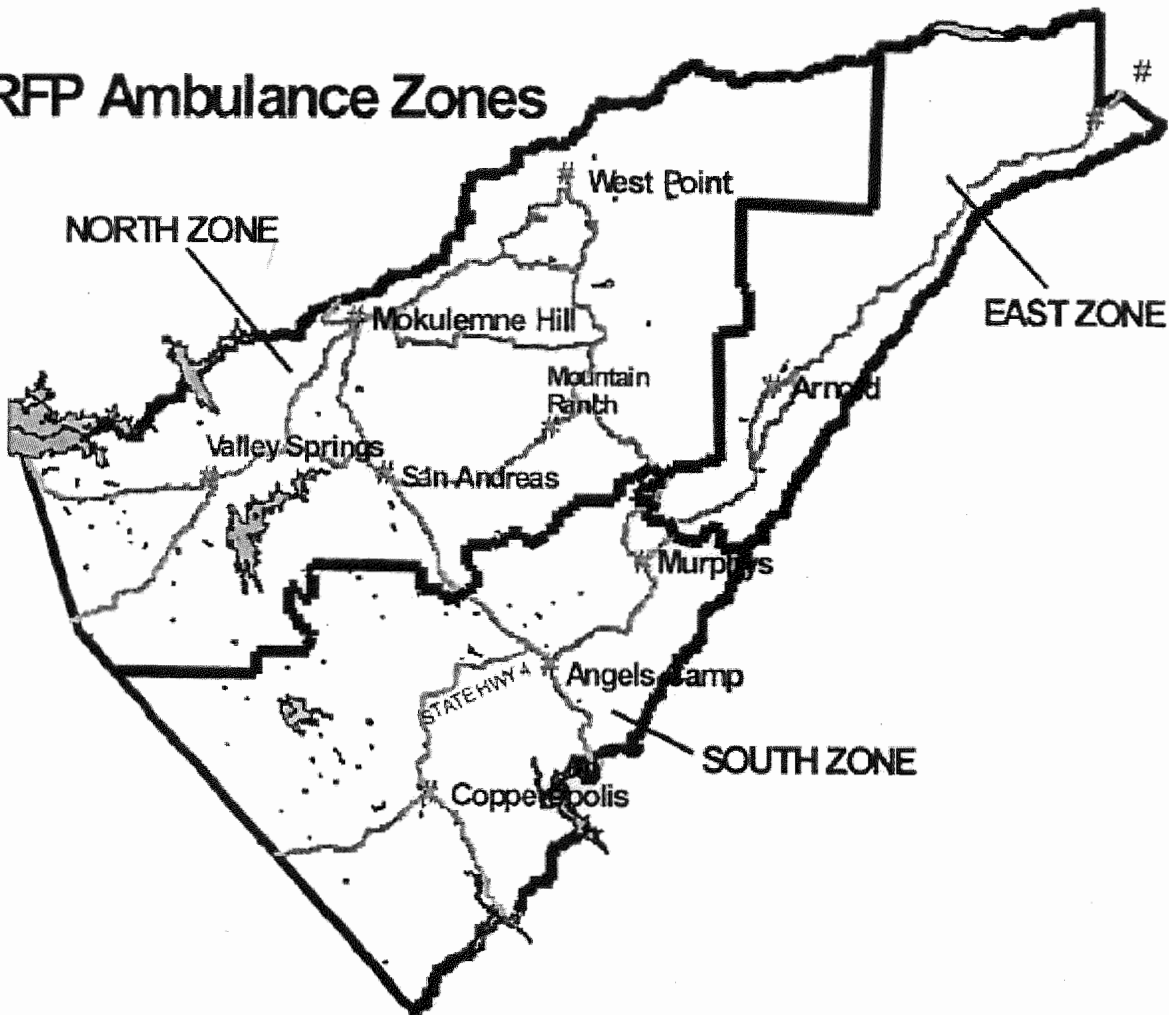

Coordination authorized by the Authorized EMS Dispatch Center, MHOAC, or AGENCY, with the exception of Interfacility Transfers within their respective zones. The second level of exclusivity is for all Authorized Ambulance Providers to be eligible to share Interfacility Transfers originating from Mark Twain St. Joseph's Hospital.

Method to achieve Exclusivity, if applicable (HS1797.224):

Competitive bid process.

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Mariposa County

Area or subarea (Zone) Name or Title:

All of Mariposa County.

Name of Current Provider(s):

The current provider of emergency ground ambulance services and Advanced Life Support Services in Mariposa County is Mercy Medical Transport (MMT). MMT has provided ambulance services in Mariposa County since January 1, 1994.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

There is no ALS or emergency ambulance service exclusivity in Mariposa County.

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

None

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Stanislaus County

Area or subarea (Zone) Name or Title:

Zone One

Zone 1 is in north central Stanislaus County encircling the City of Modesto. It is depicted on the map attached and is specifically described as follows:

Commencing at a point directly north of Oakdale Road on the border of Stanislaus County adjacent to San Joaquin County northwest of the City of Riverbank, the line proceeds west southwesterly along the county line to the confluence of the San Joaquin River and the Tuolumne River; southeasterly along the Tuolumne River and continuing east northeasterly along the Tuolumne River to a point south of Goodwin Road; northerly to Yosemite Blvd; westerly along Yosemite Blvd to Wellsford Road; northerly along Wellsford Road to Milnes Road; northwesterly along the Santa Fe tracks to Clarabel Road; westerly along Clarabel Road to Oakdale Road; then northerly along Oakdale Road to the Stanislaus County Line adjacent to San Joaquin County northwest of the City of Riverbank at a point directly north of Oakdale Road.

Name of Current Provider(s):

The current provider of emergency ground ambulance services in this zone is American Medical Response, Inc. 911 Emergency Medical Services, Inc provided emergency ambulance services without interruption from 1958 through 1994. American Medical Response became the controlling corporation of 911 Emergency Medical Services Inc. pursuant to a reverse merger which left 911 Emergency Medical Services Inc. technically intact but with American Medical Response as the lead company.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

On October 23, 1990, the Stanislaus County Ambulance Ordinance (C.S. 410) was enacted. Section 6.70.030, B. of this ordinance states, "The number and boundaries of ambulance response zones in Stanislaus County, and their designations as exclusive and non-exclusive operating areas, will be determined by the Board of Supervisors of Stanislaus county at the time of the enactment of this ordinance." Pursuant to this ordinance, the Stanislaus County Board of Supervisors designated the entire County to be exclusive operating areas divided into zones shown on the attached map entitled "Ambulance Response Zones." The Board also specified the areas that were to be "grandfathered" into exclusive operating areas and those that were to be developed only through a competitive bid process (as shown on the same map).

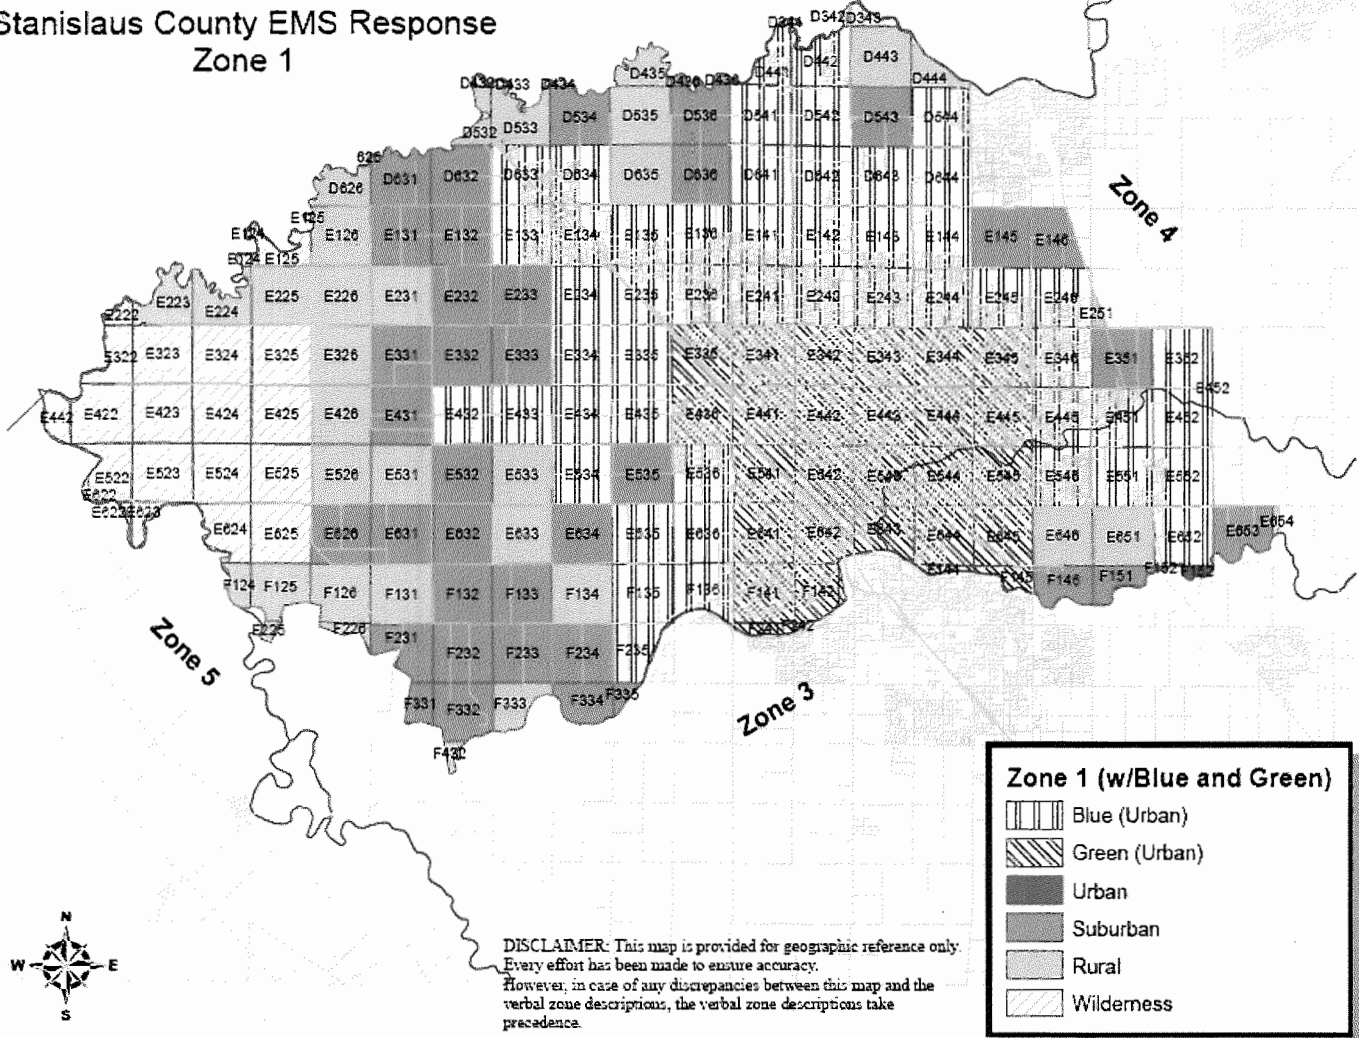

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

All emergency ground ambulance and Advanced Life Support ground ambulance requests.

Method to achieve Exclusivity, if applicable (HS1797.224):

911 Emergency Medical Services, Inc. and Doctors Ambulance of Modesto were "Grandfathered" into Zone One as providers of emergency ground ambulance services pursuant to a shared ambulance provider agreement for Zone One with an agreement start date of July 1, 1992. 911 Emergency Medical Services, Inc. has provided uninterrupted emergency ground ambulance services in this zone since 1958. The company provided Advanced Life Support ambulance services from 1973 to the present. Doctors Ambulance Company of Modesto began providing emergency ground ambulance service in Zone One in 1970 and began providing ALS ambulance services in 1973. Doctors Ambulance Company was dissolved as a corporate entity in July of 1995 and pursuant to the Zone One ambulance agreement, that agreement reverted entirely to American Medical Response. American Medical Response absorbed the corporate entity, "911 Emergency Medical Services, Inc.," in September, 1994, and has provided ALS ambulance services in Zone One through the present.

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Stanislaus County

Area or subarea (Zone) Name or Title:

Zone Five

Zone 5 is in northwestern Stanislaus County encircling the City of Patterson. It is depicted on the map attached and is specifically described as follows:

Commencing on the border of Stanislaus County adjacent to San Joaquin County at the San Joaquin River, the line proceeds southwesterly along the county line; then southerly along the county line approximately 3 miles southeast of the point where Del Puerto Canyon Road leaves the county; then easterly to a point on Highway 33 at Anderson Road; then northwesterly along Highway 33 to J.T. Crow Road; then northeasterly along J.T. Crow Road/L.B. Crow Road to the San Joaquin River; then northerly along the San Joaquin River to Carpenter Road; then northerly along Carpenter Road to Monte Vista Avenue; then westerly along Monte Vista Avenue to Jennings Road; southerly along Jennings Road to West Main; westerly along West Main to the San Joaquin River; northerly along the San Joaquin River to Del Puerto Creek; from Del Puerto Creek to the juncture of Keyes Road and Laird Road; northerly along Laird Road to Grayson Road; westerly on Grayson Road to a point west of Broyle Road; northerly to the Tuolumne River; northwesterly along the Tuolumne River to its confluence with the San Joaquin River; then northwesterly along the San Joaquin River to the County line.

Name of Current Provider(s):

Del Puerto Health Care District has provided EMT-P level emergency ground ambulance services from 1978 to the present.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

On October 23, 1990, the Stanislaus County Ambulance Ordinance (C.S. 410) was enacted. Section 6.70.030, B. of this ordinance states, "The number and boundaries of ambulance response zones in Stanislaus County, and their designations as exclusive and non-exclusive operating areas, will be determined by the Board of Supervisors of Stanislaus county at the time of the enactment of this ordinance." Pursuant to this ordinance, the Stanislaus County Board of Supervisors designated the entire County to be exclusive operating areas divided into zones shown on the attached map entitled "Ambulance Response Zones." The Board also specified the areas that were to be "grandfathered" into exclusive operating areas and those that were to be developed only through a competitive bid process (as shown on the same map).

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

Include type of exclusivity (Emergency Ambulance, ALS, LALS, or combination) and operational definition of exclusivity (i.e., 911 calls only, all emergencies, all calls requiring emergency Ambulance service, etc.)

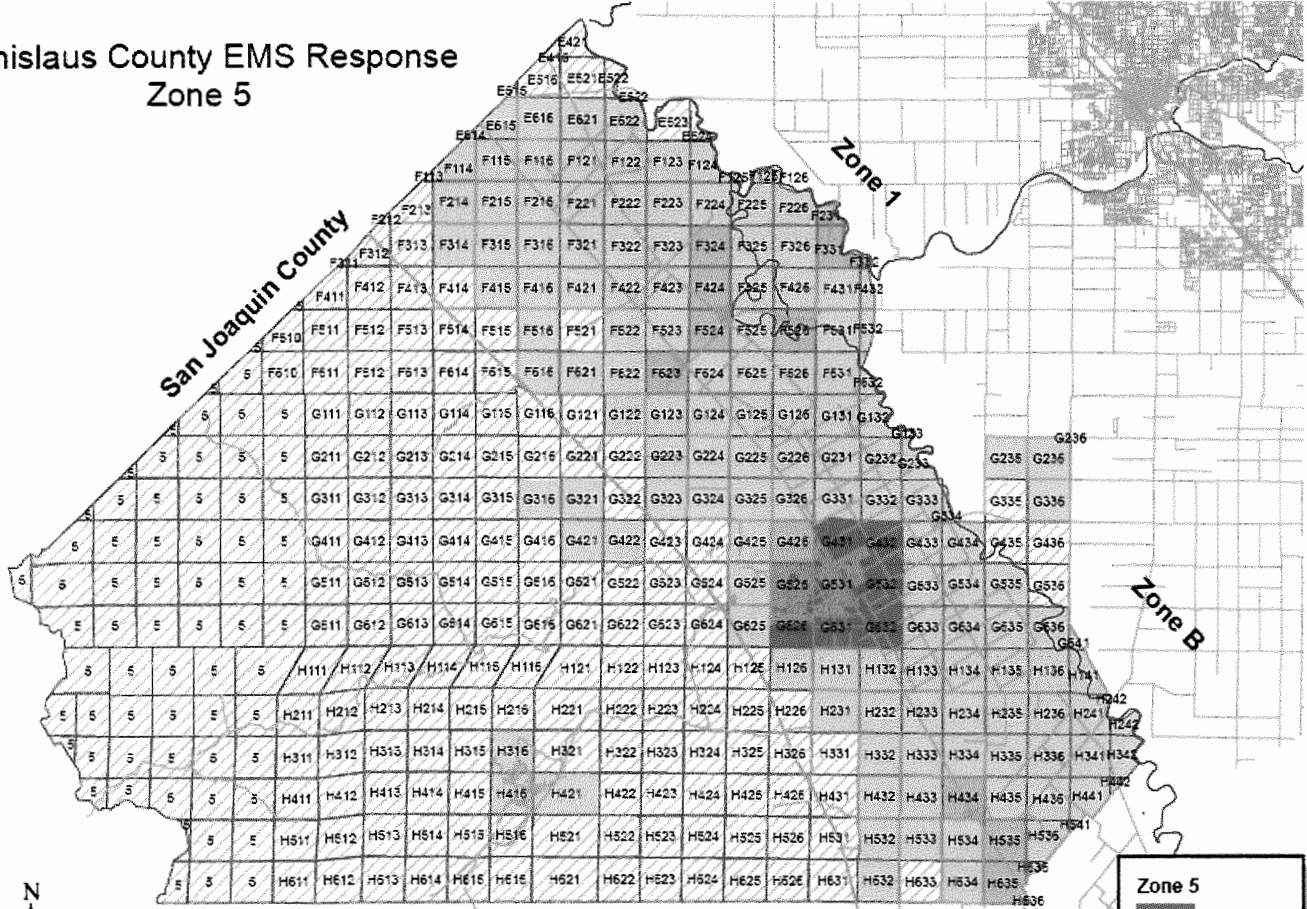

All emergency ground ambulance and Advanced Life Support ground ambulance requests.

Method to achieve Exclusivity, if applicable (HS1797.224):

Provider was "Grandfathered." Del Puerto Health Care District provided uninterrupted service and no change in manner and scope since before January 1, 1981 as shown below:

In 1973, Del Puerto Health Care District took over operation of emergency ground ambulance services and staffed at the EMT-1 level. In 1978, their medical scope of practice changed to EMT-P. On January 1, 1980, Del Puerto Health Care District contracted with Memorial Hospital Association (M.M.H.) of Modesto to provide emergency ground ambulance services at the EMT-P level. A copy of that contract indicates that although day to day operations were provided by M.M.H., Del Puerto Health Care District remained responsible for policy level decisions. In 1986, the Del Puerto Health Care District resumed operating its own ambulance (Patterson District Ambulance) for emergency ground ambulance services at the EMT-P level which has continued to the present.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Stanislaus County

Area or subarea (Zone) Name or Title:

Zone C

Zone C is in the east central area of Stanislaus County encircling the City of Hughson. It is depicted on the map attached and is specifically described as follows:

Commencing at the corner of Grayson and Washington Roads; then easterly on Grayson Road to Mountain View Road; then southerly on Mountain View Road to Keyes Road; then easterly on Keyes Road to Waring Road; then northerly on Waring Road to Service Road; then easterly on Service Road to a point east of Downie Road; then northerly parallel and east of Downie Road to a point northeast of Lyon and Virginia Road; then curving westerly across the northern end of Swanson Road to the Tuolumne River; then westerly along the Tuolumne River to a point north of Faith Home Road; then southerly along Faith Home Road to Service Road; then easterly along Service Road to Washington Road; then southerly along Washington Road to Grayson Road.

Name of Current Provider(s):

The current provider of emergency ground ambulance services in this zone is Hughson Paramedic Ambulance Services Company, Inc. This provider has provided emergency ambulance services without interruption since 1990.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

On October 23, 1990, the Stanislaus County Ambulance Ordinance (C.S. 410) was enacted. Section 6.70.030, B. of this ordinance states, "The number and boundaries of ambulance response zones in Stanislaus County, and their designations as exclusive and non-exclusive operating areas, will be determined by the Board of Supervisors of Stanislaus county at the time of the enactment of this ordinance." Pursuant to this ordinance, the Stanislaus County Board of Supervisors designated the entire County to be exclusive operating areas divided into zones shown on the attached map entitled "Ambulance Response Zones." The Board also specified the areas that were to be "grandfathered" into exclusive operating areas and those that were to be developed only through a competitive bid process (as shown on the same map). Zone C will become an exclusive operating area only following a competitive bid process.

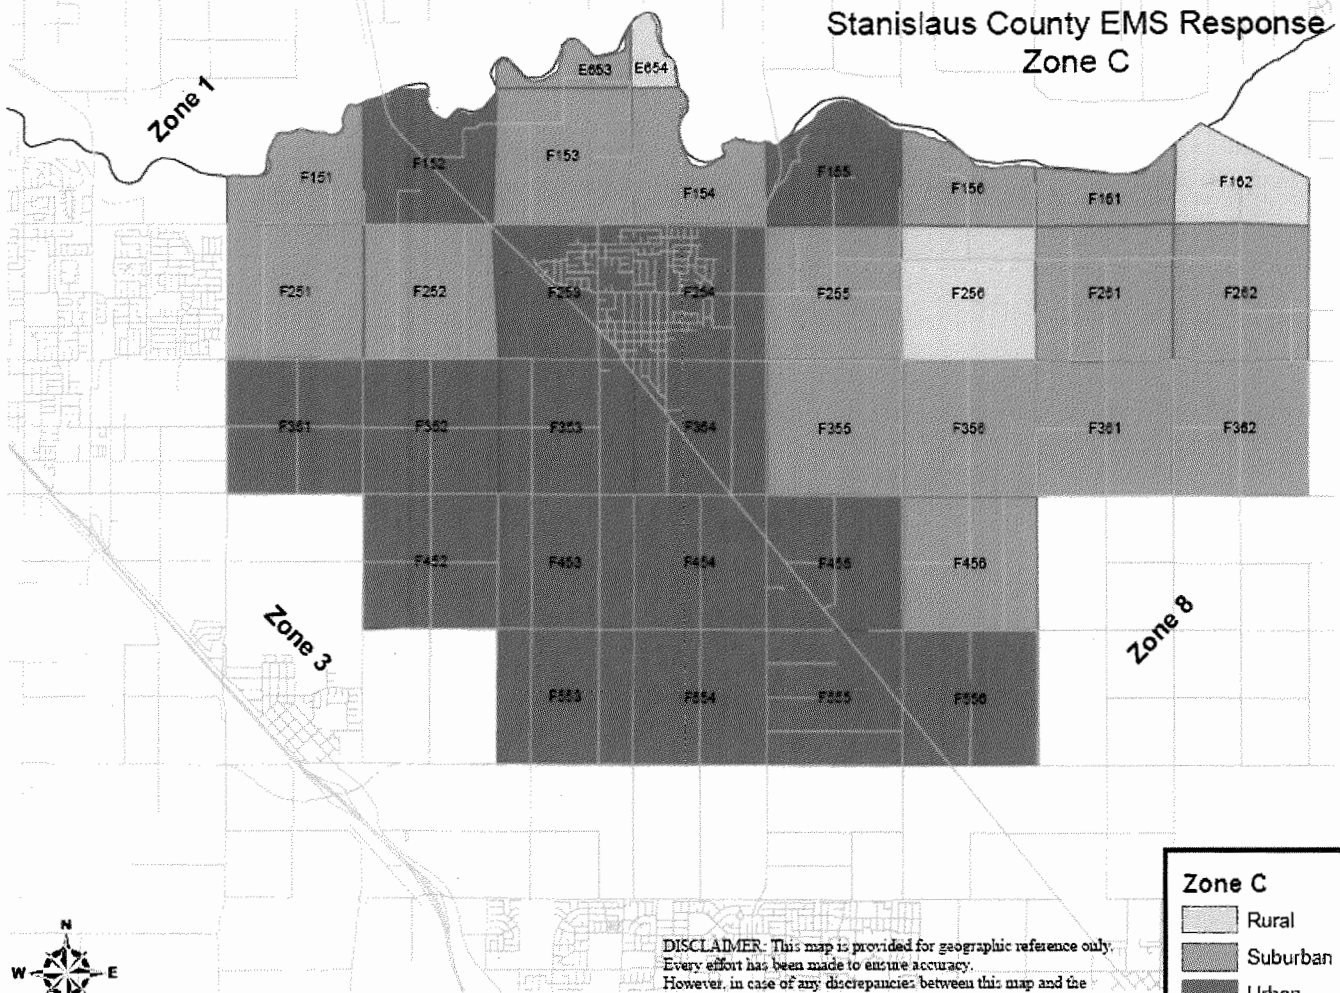

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

All emergency ground ambulance and Advanced Life Support ground ambulance requests.

Method to achieve Exclusivity, if applicable (HS1797.224):

Zone C will become an exclusive operating area following a competitive bid process. Prior to 1990, parts of Zone C were served by providers adjacent to the zone: Waterford Community Ambulance, Turlock Ambulance Service and 911 Emergency Medical Services.

Stanislaus County EMS Response Zone C

Zone C

- Rural
- Suburban
- Urban

DISCLAIMER: This map is provided for geographic reference only. Every effort has been made to ensure accuracy. However, in case of any discrepancies between this map and the verbal zone descriptions, the verbal zone descriptions take precedence.

**EMS Plan
Ambulance Zone Summary Form**

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name:

Mountain-Valley EMS Agency – Stanislaus County

Area or subarea (Zone) Name or Title:

Zone D

Zone D is in the eastern apex of Stanislaus County encircling the City of Waterford. It is depicted on the maps attached as Exhibit A and is specifically described as follows:

Commencing on the Stanislaus County line adjacent to Merced County at the point where Keyes Road exits the County; then northeasterly and northwesterly along the County line to a point east and on line with Warnerville Road; then westerly along Cooperstown/Warnerville Road to Tim Bell Road; then southerly on Tim Bell Road to Claribel Road; then westerly on Claribel Road to Crow Road; then southerly on Crow Road to Milnes Road; then westerly on Milnes Road to Wellsford Road; then southerly on Wellsford Road to Highway 132; then easterly on Highway 132 to Goodwin Road; then southerly to the Tuolumne River; then easterly along the Tuolumne River to the northern end of Swanson Road; then curving southerly to Virginia Road and Whitmore Road; then easterly along Whitmore Road to Hickman Road; then southerly along Hickman Road to Keyes Road; then easterly along Keyes Road to the County line.

Name of Current Provider(s):

The current providers of emergency ground ambulance services in this zone are Oak Valley District Hospital and Hughson Ambulance. Waterford Community Ambulance began providing emergency ambulance services in 1962, and provided these services without interruption until May, 1996, when Oak Valley District Hospital began providing emergency ground ambulance services in Zone Six per an agreement with Waterford Community Ambulance.. On May 1, 2003, Hughson Ambulance also began providing service in Zone Six when the zone reverted to non-exclusive status. Zone Six was re-titled Zone D to reflect its change from an exclusive to non-exclusive response area. On May 5, 2008, Hughson Ambulance ceased providing service in Zone D.

Statement of Exclusivity, Exclusive or non-Exclusive (HS1797.6):

On October 23, 1990, the Stanislaus County Ambulance Ordinance (C.S. 410) was enacted. Section 6.70.030, B. of this ordinance states, "The number and boundaries of ambulance response zones in Stanislaus County, and their designations as exclusive and non-exclusive operating areas, will be determined by the Board of Supervisors of Stanislaus County at the time of the enactment of this ordinance." Pursuant to this ordinance, the Stanislaus County Board of Supervisors designated the entire County to be exclusive operating areas divided into zones shown on the attached map entitled "Ambulance Response Zones." The Board also specified the areas that were to be "grandfathered" into exclusive operating areas and those that were to be developed only through a competitive bid process (as shown on the same map). However, based upon a change in ALS ambulance providers in this zone that occurred in May, 1996, this zone is designated as a non-exclusive operating area as of February 12, 2003.

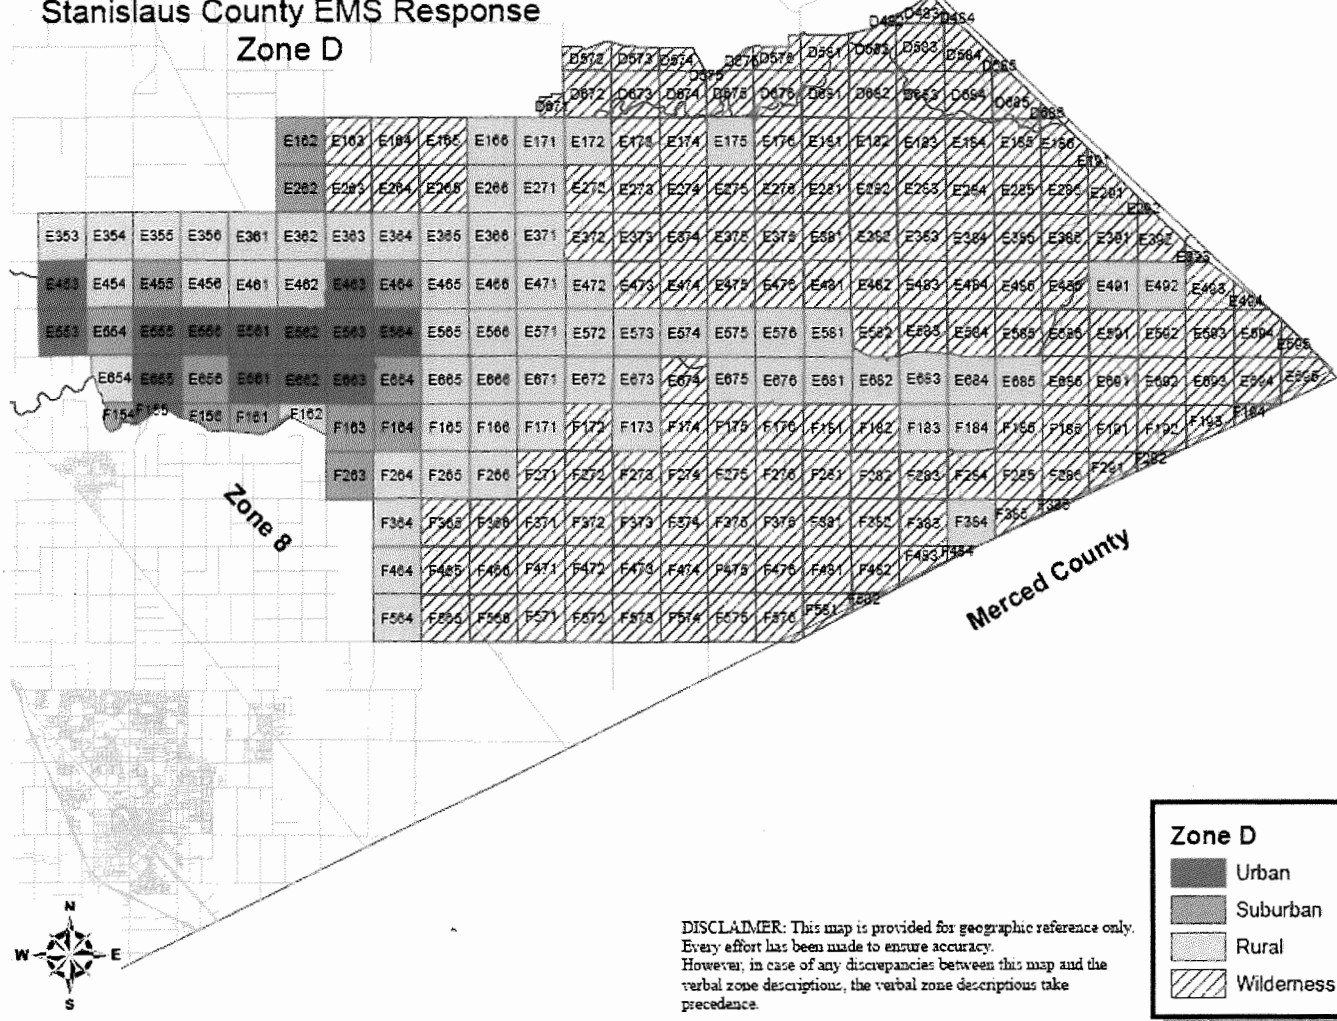

Type of Exclusivity, "Emergency Ambulance", "ALS", or "LALS" (HS1797.85):

All emergency ground ambulance and Advanced Life Support ground ambulance requests.

Method to achieve Exclusivity, if applicable (HS1797.224):

Due to changes in ambulance providers that occurred in May 1996, this zone must be a non-exclusive area until such time as a competitive bid process is completed.

Stanislaus County EMS Response Zone D

Method to achieve Exclusivity, if applicable (HS1797.224):

Not applicable

Steve Andriese, EMS Administrator
Mountain-Valley EMS Agency
1101 Standiford Avenue, #D1
Modesto, CA 95350

Dear Mr. Andriese:

We have completed our review of *Mountain Valley's 2007 Emergency Medical Services Plan Update*, and have found it to be in compliance with the *EMS System Standards and Guidelines* and the *EMS System Planning Guidelines*.

Standard 1.22 - Reporting of Abuse - Please continue to develop policies for the reporting of child and elder abuse and suspected SIDS deaths.

Standard 8.10 - Mutual Aid Agreements - Continue working with RDHMHCs to establish regional medical mutual aid agreements.

Your annual update will be due one year from your approval date. If you have any questions regarding the plan review, please call Sandy Salaber at (916) 322-4336, extension 423.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Steven Tharratt".

R. Steven Tharratt, MD, MPVM
Director
