Dear Ms. McConnell:

This letter is in response to the 2015 Orange County EMS Plan Update submission to the EMS Authority on October 5, 2015.

I. Introduction and Summary:

The EMS Authority has concluded its review of Orange County's 2015 EMS Plan Update and is approving the plan as submitted.

II. History and Background:

The EMS Authority is responsible for the review of EMS Plans and for making a determination on the approval or disapproval of the plan, based on compliance with statute and the standards and guidelines established by the EMS Authority consistent with H&S Code § 1797.105(b).

The California Health and Safety (H&S) Code § 1797.254 states:

*"Local EMS agencies shall **annually** (emphasis added) submit an emergency medical services plan for the EMS area to the authority, according to EMS Systems, Standards, and Guidelines established by the authority".*

Historically, we have received EMS Plan documentation from Orange County for the following years: 1995, 1999, 2004, 2006, 2014 and, most current, its 2015 plan submission. Orange County received its last Five-Year Plan approval in 2014 and its last annual Plan Update approval in 2007 for its 2006 plan submission.

III. Analysis of EMS System Components:

Following are comments related to Orange County's 2015 EMS Plan Update. Areas that indicate the plan submitted is concordant and consistent with applicable guidelines or regulations and H&S Code § 1797.254 and the EMS system components identified in H&S Code § 1797.103 are indicated below:

A. System Organization and Management

1. System Assessment Forms

- **Standard 1.24 (ALS Systems):**

'Current Status' indicates standard is not met. In next submission please update progress on long-range plan indicated in objectives.

- **Standards 1.27 (Pediatric System Plan):**

'Current Status' indicates standard is not met. In next submission please update progress on long-range plan indicated in objectives.

B. Staffing/Training

C. Communications

D. Response/Transportation

1. Ambulance Zones

- Please see the attachment on the EMS Authority's determination of the exclusivity of Orange County's ambulance zones.

E. Facilities/Critical Care

F. Data Collection/System Evaluation

G. Public Information and Education

H. Disaster Medical Response

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice to ensure transparency and accountability. This practice is essential for both internal audits and external reporting.

Financial Statement Analysis

The second section provides a detailed analysis of the company's financial performance over the last fiscal year. It highlights a steady increase in revenue, primarily driven by the expansion of the product line and improved operational efficiency. However, it also notes a corresponding rise in operating expenses, which has resulted in a narrower profit margin compared to previous years.

Operational Efficiency and Cost Management

Operational efficiency has been a key focus area for the management team. Through the implementation of lean manufacturing principles and the optimization of supply chain processes, the company has managed to reduce waste and lower its cost of goods sold. These efforts have contributed significantly to the overall financial health of the organization.

Future Outlook

Looking ahead, the company remains optimistic about its growth prospects. The market for our products is expected to continue expanding, and we are confident in our ability to capture a larger share of this market. To support this growth, we plan to invest in research and development to introduce new, innovative products. Additionally, we will continue to focus on cost management and operational excellence to maintain our competitive edge.

Conclusion

In conclusion, the company has achieved significant milestones in its financial and operational performance. While challenges remain, the management team is committed to navigating these challenges and driving the company towards long-term success. We thank all stakeholders for their continued support and look forward to a bright future ahead.

IV. Conclusion:

Based on the information identified, Orange County may implement areas of the 2015 EMS Plan Update that have been approved. Pursuant to H&S Code § 1797.105(b):

"After the applicable guidelines or regulations are established by the Authority, a local EMS agency may implement a local plan...unless the Authority determines that the plan does not effectively meet the needs of the persons served and is not consistent with the coordinating activities in the geographical area served, or that the plan is not concordant and consistent with applicable guidelines or regulations, or both the guidelines and regulations established by the Authority."

V. Next Steps:

Orange County's annual EMS Plan submission will be due on November 16, 2016. If you have any questions regarding the plan review please contact Jeff Schultz, EMS Plans Coordinator, at (916) 431-3688.

Sincerely,

Howard Backer, MD, MPH, FACEP
Director

**2014 ORANGE COUNTY EMERGENCY MEDICAL SERVICES PLAN
ANNUAL UPDATE
September 2015**

EXECUTIVE SUMMARY

California Health and Safety Code Section 1797.254, requires the Local Emergency Medical Services (EMS) Agency to submit an Emergency Medical Services Plan to the State EMS Authority (EMSA) and provide annual updates. The EMS Plan is a framework for the planning, implementation and evaluation of EMS in Orange County and addresses the local status of eight minimum standards, subsets and recommended goals of the EMS Authority, as well as anticipated future needs.

This annual update to the 2014 Orange County Emergency Medical Services (OCEMS) plan approved by the California EMSA in July 2014 provides the required information on the status of our system and progress toward meeting objective goals. **Notable 2014/15 system enhancements and activities** include but are not limited to:

9-1-1 Emergency Ambulance RFP#OC2014.01

The Orange County RFP for 9-1-1 Emergency Ambulance Transportation concluded with the Board of Supervisor's action on April 28, 2015 with the awarding of contracts within five county administered ambulance regions. Two companies provide regional ambulance service for approximately one million residents and visitors per year.

Designation of a Level II Pediatric Trauma Center

On January 15, 2015, Children's Hospital of Orange County (CHOC) began accepting EMS pediatric trauma patients from the EMS System. CHOC was designated by OCEMS as a Level II Pediatric Paramedic Trauma Receiving Center and will undergo an American College of Surgeons trauma verification survey in 2016.

Interfacility Transport – Advanced Life Support (IFT-ALS)

In 2013, OCEMS initiated a limited pilot study of the feasibility, safety and effectiveness of a proposed IFT-ALS program. The study was exclusively designed for transport of patients between medical facilities who require advanced life support monitoring and not critical care transport (CCT Nurse) level care. Upon analysis of the pilot data, considerable review of public comments, programmatic counsel and awareness of EMS standards of practice within the state, OCEMS has fully authorized the service. From January to August, 2015 three authorized IFT-ALS providers transported approximately 5300 patients. Current data analysis demonstrates a benefit to the pre-hospital system as a whole with timely transports at an appropriate service level.

Pilot Studies

OCEMS Policy #399.00: Alternate Destination Pilot Project published June 1, 2015 provides authorization and criteria for the Orange County Alternate Destination Site Pilot Project approved under the California State EMS Authority Community Paramedicine Pilot Project. On July 28, 2015 the Office of Statewide Health Planning and Development (OSHPD) approved Orange County's Alternate Destination Pilot Project's Protocols and Procedures (Phase I & II).

OCEMS Policy #398.00: Naloxone by PD published June 1, 2015 describes criteria for law enforcement officer administration of naloxone hydrochloride in cases of suspected acute opioid overdose. Implementation pending, over one hundred officers trained in intranasal administration.

On November 19, 2014, Anaheim Fire & Rescue (AF&R) received initial OCEMS authorization for a community care response unit proposal. In July 2015, following many months of preparation, AF&R initiated the program consisting of a Community Care Response Unit (CCRU) that responds to low level, non-urgent medical requests with an ambulance staffed by a Nurse Practitioner and an Anaheim Fire Captain/Paramedic.

**2014 ORANGE COUNTY EMERGENCY MEDICAL SERVICES PLAN
ANNUAL UPDATE
September 2015**

EXECUTIVE SUMMARY (cont'd)

Orange County Hospital Mutual Aid Memorandum of Understanding (MOU)

On June 5, 2014 a Mutual Aid MOU was executed to aid hospitals in their emergency management by addressing the loan of medical personnel, pharmaceuticals, supplies, and equipment or assistance with emergency healthcare facility evacuation. The MOU signifies the commitment of the hospitals that in the event of a disaster, the medical needs of the community will be best met if the hospitals cooperate with each other and coordinate their response efforts. It is intended to augment local and regional mutual aid planning documents and therefore has been incorporated into applicable disaster medical response plans and the OCEMS Department Operations Center (DOC) as a resource document.

Orange County Medical Emergency Data System (OC-MEDS)

Orange County Base Hospitals implemented a countywide electronic Base Hospital Report (eBHR) system, the first of its kind in California. The eBHR is designed to be interoperable with existing electronic Prehospital Care Reports (ePCR) used by most 9-1-1 EMS providers and is integrated into the Base Hospital Radio Consoles used by Mobile Intensive Care Nurses (MICN) during online medical control.

NextGen (NEMSIS 3) planning and implementation is in progress. The main components and layout of the default ePCR template has been created; committees and sub-groups have formed to address transition to the NextGen OC-MEDS platform and pilot testing is scheduled for late Fall / early winter.

OCEMS continues our mission to plan, coordinate and oversee the highest quality prehospital and emergency medical care in response to individual needs and community crisis. Mutual cooperation, patient advocacy, advanced medical technology, electronic documentation and evidence-based data are major strengths. Despite financial challenges affecting all stakeholders, the county of Orange and system participants remain committed to the integrity, effectiveness and adherence to the EMS plan standards. The policies referenced within the plan are available on the OCEMS website at <http://www.healthdisasteroc.org/ems>.

Updated System Assessment Forms

UPDATED SYSTEM ASSESSMENT FORMS

System Organization and Management

1.18 QA/QI

MINIMUM STANDARDS:

Each local EMS agency shall establish a quality assurance/quality improvement (QA/QI) program. This may include use of provider-based programs which are approved by the local EMS agency and which are coordinated with other system participants.

RECOMMENDED GUIDELINES:

Pre-hospital care providers should be encouraged to establish in-house procedures, which identify methods of improving the quality of care provided.

CURRENT STATUS: Meets minimum standard

NEED(S):

Standard is met. Objectives developed to enhance provider-level QA/QI processes.

OBJECTIVE(S):

1.18.3 Enhance ALS in-house QI programs

1.18.4 Institute BLS level QI plans

August 2015 Update: **IN PROGRESS:** Received 95% of ALS CQI Plans (11/12 EMT-P; 4/4 IFT-ALS/Air Ambulance Providers) and evaluating. External Fire Chiefs/EMS CQI group regularly meets.

TIME FRAME FOR MEETING OBJECTIVE:

- Short-Range Plan (one year or less)
- Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS

System Organization and Management

1.24 ALS SYSTEMS

MINIMUM STANDARDS:

Advanced life support services shall be provided only as an approved part of a local EMS system and all ALS providers shall have written agreements with the local EMS agency.

RECOMMENDED GUIDELINES:

Each local EMS agency, based on state approval, should, when appropriate, develop exclusive operating areas for ALS providers.

CURRENT STATUS: Does not meet minimum standard

NEED(S):

Although all providers adhere to OCEMS medical control policies and procedures, there is a need to pursue agreements with ALS service providers.

OBJECTIVE:

1.24.1 Propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

August 2015 Update: **IN PROGRESS:** The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agenize Ordinance revision

TIME FRAME FOR MEETING OBJECTIVE:

- Short-Range Plan (one year or less)
- Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS

System Organization and Management

1.27 PEDIATRIC SYSTEM PLAN

MINIMUM STANDARDS:

The local EMS agency shall develop a pediatric emergency medical and critical care system plan, based on community needs and utilization of appropriate resources, which determines: the optimal system design for pediatric emergency medical and critical care in the EMS area, and the process for assigning roles to system participants, including a process which allows all eligible facilities to apply.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Does not meet minimum standard

NEED(S):

Although pediatric emergency medical and critical care is provided within the county and all OCEMS designated emergency receiving centers are pediatric capable, a formal pediatric plan has not been integrated into the countywide EMS plan.

OBJECTIVE:

1.27.1 Conduct a comprehensive evaluation of pediatric transport volume to include primary mode of transport; destination; interfacility transport rates from emergency receiving centers higher level of care centers, including trauma; population distribution etc., etc.

August 2015 Update: **COMPLETED:** A health impact analysis of pediatric utilization with a focus on pediatric trauma was completed in December 2014 resulting in the addition of a level II pediatric trauma center into the Orange County EMS system.

TIME FRAME FOR MEETING OBJECTIVE:

- Short-Range Plan (one year or less)
- Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS

System Organization and Management

1.28 EOA Plan

MINIMUM STANDARDS:

The local EMS agency shall develop and submit for State approval, a plan, based on community needs and utilization of appropriate resources, for granting of exclusive operating areas, that determines: a) the optimal system design for ambulance service and advanced life support services in the EMS area, and b) the process for assigning roles to system participants, including a competitive process for implementation of exclusive operating areas.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

OCEMS received direction from the Emergency Medical Services Authority (EMSA) that the competitive process in place allowing RFP awarding authority to OCFA for implementation of exclusive operating areas was not permissible based on the appellate court ruling in County of Butte v. California Emergency Medical Services Authority (2010) 187 cal.App.4th 1175. In sum, EMSA ruled that OCEMS cannot delegate to OCFA the authority to conduct RFP's and award emergency ambulance contracts under the Orange County EMS Plan.

Despite the challenges of amending pre-Butte decision practices, OCEMS was fortunate to have a functional system in place that allowed transition of the competitive process to OCEMS. It was our objective to simultaneously maintain current contractual compliance to the emergency medical system standards within each area, implement immediate procedures to ensure the continued exclusivity protections and conduct a competitive RFP.

OBJECTIVE(S):

1.28.1: Propose an EOA system re-design that formally establishes reconfiguration of boundaries and compliance standards with EOA procedures and periodic intervals to re-evaluate the design.

August 2015 Update: **COMPLETED:** Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015
