California EMS Awards

2013
Brave - Dedicated - Willing - Reliable

These words describe the 78,000 licensed or certified EMS providers in California. They demonstrate these qualities every day by coming to the aid of others when they are most in need and working to ensure that the EMS system operates well. However, each year, due to circumstance or extraordinary effort, certain individuals among us shine. The Emergency Medical Services Authority (EMS Authority) seeks to recognize these individuals through the California Emergency Medical Services Awards Ceremony held annually in December at the Marines’ Memorial Hotel in San Francisco.

The EMS Authority initiated the statewide EMS Awards in 2007 to honor the special accomplishments, meritorious and heroic acts, innovations or fresh ideas to improve EMS in the state, or other unique and/or significant contributions by EMS personnel, physicians, nurses, EMTs, other medical providers, local officials, members of the law enforcement community, citizens, and first responders.

In addition, the California EMS Awards allow us to shine a light on our coordinated EMS system as a whole and recognize the value of EMS to all of our communities.
The California Emergency Medical Services Awards were created to honor exceptional acts and services by EMS certified or licensed personnel, administrators, trainers, or volunteers.

The 2013 California Emergency Medical Services Awards were presented on December 4, 2013 at the Marines’ Memorial Club and Hotel in San Francisco (right).
