

How to Find a Training Program in Your Area:

1. Open the Training Program list with the course you would like to attend.
2. Look at the ORANGE highlighted area titled “Providing service in the following counties:” This is the area where each program provides courses. Look for programs that list your county or nearby county.
3. If a provider states, they cover your county or surrounding county. They have instructor’s in the local area or visit that county to hold courses when scheduling permits. The address information, is only for the programs home office location.
4. Contact the phone number in blue, email, or visit the website they have listed.

Please call multiple providers to check upcoming schedules.

Helpful Hint:

After opening the list Press: **ctrl + F**. This will bring up the “**find**” function and allow you to search the document for your specific county.
