These are submitted in accordance with *Health and Safety Code Sections 1797.103 and 1797.250 – 1797.258 and Title 22, Division 9, Chapter 7.1, STEMI Critical Care System, Chapter 7.2, Stroke Critical Care System and Chapter 12, EMS System Quality Improvement.*

EMS PLAN ANNUAL UPDATE

No significant changes were made to the EMS Plan during the past year. Key items are noted in each section.

FORM 1: EMS Plan System Assessment Summary

A. System Organization and Management

1.03 – Employment of Medical Director:

- Medical Director's contract increased from a 0.3 to 0.5 position. The increase was necessary for the oversight demands resulting from the addition of the STEMI and Stroke Critical Care Programs.

B. Manpower and Training

2.13 – Critical Care Paramedic Training and Accreditation:

- In 2021, a private provider continued to request this program but the Sacramento County EMS Agency (SCEMSA) does not have staff nor funding to oversee the program at this time.

D. Response and Transportation

4.01 – Primary Response Area:

- SCEMSA has executed Advanced Life Support (ALS) Provider Agreements with private and public providers.

4.05 – Response Time Standards:

- SCEMSA utilizes the National Response Time Standards as its benchmarks. In 2021, SCEMSA did not complete the plans to implement Sacramento County Response Time Standards. SCEMSA continues to work on the process to establish County Response Time Standard by end of calendar year 2022.

4.07 – Creation of Exclusive Operating Area and Approval:

- Sacramento County is a Non-Exclusive Operating Area.

E. Assessment of Hospitals and Critical Care Centers

5.04 – Critical Care System:

- SCEMSA's Critical Care System contains Trauma, STEMI and Stroke programs since 2020.

F. Data Collection and Evaluation

6.04 – Electronic Patient Health Information Exchange:

- At this time, there are no plans to implement a patient health information exchange program.

6.09 – Ambulance Patient Offload Times:

- EMS stakeholders established the Ambulance Patient Offload Time (APOT) metric at 20 minutes. In 2021, the system wide 90th percentile APOT was sixty-one (61) minutes. In 2020 the APOT was forty-seven (47) minutes. This is an increase of fourteen (14) minutes.

6.10 – Data Collection from Specialty Care Centers:

- Trauma – The three Sacramento County trauma centers submit data electronically; the Placer County trauma center submits data manually.
- STEMI and Stroke – Designated STEMI and Stroke centers submit data manually on a quarterly basis.
- In 2021, SCEMSA implemented American Heart Association, "Get with the Guidelines – Cardiac Artery Disease," for STEMI hospital data submission.

G. Public Information and Education

7.05 – Public Training and Education on Disaster Preparedness:

- SCEMSA works in partnership with the Sacramento County Public Health Division in conducting public education through press and social media releases.

H. Disaster Medical Response

8.14 – Mutual Aid Requests in EOA Areas:

- Not applicable. Sacramento County is a non-exclusive operating area.

TABLE 2: Manpower and Training

Sacramento County EMS Agency Certification:

- There was a slight increase in the number of personnel investigations in 2021 (N=38) as compared to 2020 (N = 31). In September 2021, SCEMSA hired a full time EMS Specialist to implement the Professional Standards program that includes personnel investigations.

Available Training:

- Nearly all prehospital providers are continuing education (CE) providers.

TABLE 4: Response and Transportation

System Standard Response Times (90th Percentile):

- With over two years of data submitted to California EMS Information System (CEMSIS) from all ALS providers, SCEMSA provides updates of system wide 90th percentile standard response times to stakeholders during regular meetings.

Provider Resource:

- SCEMSA works with current basic life support (BLS) providers to submit data into CEMSIS. SCEMSA's ALS and BLS applications require providers to submit CEMSIS data.

TRAUMA SYSTEM STATUS REPORT

The narrative includes updated information providing improvements through the Sacramento County Trauma System. Key changes included:

Trauma System Goals and Objectives:

- Trauma Review Committee (TRC) provides unique region wide educational opportunities to physicians and administrators.
- SCEMSA works closely with the trauma centers to ensure accurate data submission to the CA Trauma Registry. Data is presented in the quarterly TRC meetings.
- Due to the COVID-19 pandemic, trauma center inspections and certifications by the American College of Surgeons, College of Trauma were suspended, and certifications extended for additional year.

System Performance Improvement:

- Due to the ongoing COVID-19 pandemic, the TRC met virtually on a quarterly basis.
- Worked with the TRC to update several prehospital trauma policies, including adding a new policy to address clinical and operational decision-making relative to traumatic arrest.
- Worked with trauma surgeons and managers to identify seven (7) relevant indicators to improve the trauma system.
- Reviewed EMS provider data and identified that the Spinal Mobilization Restriction (SMR) policy was not being implemented as intended. Shared the results of the data with EMS providers and trauma centers and provided education which resulted in improved understanding and use of the SMR policy and improved patient outcomes.

QUALITY IMPROVEMENT PROGRAM ANNUAL UPDATE

2021 Highlights:

- Enhanced the Quality Improvement Program (QIP) by developing and implementing a new QIP compliance and evaluation methods to review and approve QIP plans and annual updates.
- Developed and implemented new dashboards to report data on specialty services and 911 response times.
- Improved tracking of ambulance patient off-load times (APOT). Provided monthly comparisons between 2020 and 2021 APOT data to stakeholders.

Active Projects include the following:

- Continued focus on documentation, training and monitoring to improve prehospital care for Cardiac Arrest with Return of Spontaneous Circulation.
- Monitored Law Enforcement Administration of Naloxone Program for the following:
 - Trained officers in handling and administration
 - Data collection
 - Feedback provision

2021 STEMI CRITICAL CARE SYSTEM ANNUAL UPDATE

- Approved and executed contracts with seven (7) hospitals for designation as Sacramento County STEMI Receiving Centers.
- Worked with the STEMI Advisory Committee to update several prehospital STEMI policies, including incorporating the American Heart Association's, "Get With the Guidelines - Coronary Artery Disease," platform as the County's approved STEMI data registry.

2021 STROKE CRITICAL CARE SYSTEM ANNUAL UPDATE

- Approved and executed contracts with ten (10) hospitals for designation as Sacramento County Stroke Receiving Centers (6), and Comprehensive Stroke Centers (4).
- Worked with the Stroke Advisory Committee to incorporate the American Heart Association's, "Get With the Guidelines - Stroke" platform as the County's approved Stroke data registry.
