

**STATE OF CALIFORNIA  
COMMISSION ON EMERGENCY MEDICAL SERVICES  
December 14, 2022  
10:00 A.M. – 1:00 P.M.**

**Location**

Holiday Inn Oakland – Airport  
77 Hegenberger Road  
Oakland, CA 94621

**AGENDA**

- 1. Call to Order and Pledge of Allegiance**
- 2. Review and Approval of September 22, 2022, Minutes**
- 3. Review and Approval of October 13, 2022, Special Meeting Minutes**
- 4. Director's Report**
- 5. Consent Calendar**
  - A. Administrative and Personnel Report
  - B. Legal Report
  - C. Enforcement Report

**Regular Calendar**

- 6. EMS Administration**
  - A. Legislative Report
  - B. Regulations Update
    - a. Approval of Paramedic Fees
- 7. EMS Systems**
  - A. Ambulance Patient Offload Time (APOT) Report
  - B. Community Paramedicine Status Update
- 8. EMS Response to Behavioral Health Patients**
  - A. Naloxone Distribution
  - B. Update on Framework for Behavioral Health Crisis Response

**9. EMS Personnel**

A.LOSOP for Paramedic Vaccination Provision and Select Viral Testing

**10. Disaster Medical Services Division**

A. State Medical Response Update

**11. Open Nominations for Election of Officers (March 2023 – March 2024)**

**12. Approval of 2024 Meeting Dates**

**13. December 2023 Meeting location revision request**

**14. Items for Next Agenda**

**15. National EMS Memorial Bike Ride**

**16. Public Comment**

**17. Adjournment**

**A full agenda packet will not be provided at the meeting; however, you can print a full packet, including the agenda from the Department's website at [www.emsa.ca.gov](http://www.emsa.ca.gov).** This event will be held in an accessible facility. Individuals with disabilities requiring auxiliary aids or services to ensure accessibility such as language interpreting, assisted listening device, materials in alternate formats or other accommodation, should contact [Julie.McGinnis@emsa.ca.gov](mailto:Julie.McGinnis@emsa.ca.gov), no less than 7 days prior to the meeting.

**EMERGENCY MEDICAL SERVICES AUTHORITY**

10901 GOLD CENTER DR., SUITE 400  
RANCHO CORDOVA, CA 95670  
(916) 322-4336 FAX (916) 324-2875

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

**ITEM NUMBER: 2**

SUBJECT: Review and Approval of September 21, 2022 Minutes

PRESENTER: Atilla Uner, MD  
Chair, Commission on EMS

CONSENT: \_\_\_\_

ACTION:  X 

INFORMATION: \_\_\_\_

**RECOMMENDATION**

Approve the meeting minutes from the September 21, 2022, Commission on Emergency Medical Services (EMS) Meeting.

**FISCAL IMPACT**

No fiscal impact.

**SUMMARY**

The prior meeting of the Commission on EMS occurred September 21, 2022. Each Commission on EMS meeting is transcribed by a third-party vendor. That vendor also drafts meeting minutes, which summarize what is said during the meeting. Those draft minutes are then edited by the Emergency Medical Services Authority (EMSA) to ensure accuracy and completion.

The Commission on EMS may request modifications to the meeting minutes or may approve the version of the minutes included in this agenda item.

**ATTACHMENT(S)**

Minutes of Teleconference Meeting: Wednesday, September 21, 2022.

**STATE OF CALIFORNIA  
COMMISSION ON EMS  
Wednesday, September 21, 2022  
Holiday Inn San Diego Bayside  
4875 North Harbor Drive  
San Diego, CA 92106**

**MINUTES**

**COMMISSIONERS PRESENT:**

Curtis Brown, Sean Burrows, James Dunford, M.D., Marc Gautreau, M.D., Thomas Giandomenico, Travis Kusman, Lydia Lam, M.D., Ken Miller, M.D., Ph.D., Masaru “Rusty” Oshita, M.D., Jodie Pierce, Karen Relucio, M.D., Carole Snyder, Jim Suver, Kristin Thompson, and Atilla Uner, M.D.

**COMMISSIONERS ABSENT:**

Steve Barrow, Nancy Gordon, Paul Rodriguez, and Todd Valeri

**EMS AUTHORITY STAFF PRESENT:**

Elizabeth Basnett, Louis Bruhnke, Hernando Garzon, M.D., Kent Gray, Craig Johnson, Zoe Jones, Tom McGinnis, and Lou Meyer

**AUDIENCE PRESENT (partial list):**

Pam Allen, Redlands Community Hospital  
Tanir Ami, CARESTAR Foundation  
Rose Colangelo, Sutter Health  
Kevin Greene, California Professional Firefighters  
Brian Hartley, Bound Tree Medical  
Ray Ramirez, Ontario Fire Department and California Fire Chiefs Association  
Amanda Ward, Crafon Hills College

**1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE**

Chair Atilla Uner, M.D., called the meeting to order at 10:00 a.m. Fifteen Commissioners were present. He led the Pledge of Allegiance and reviewed the meeting protocols and meeting agenda.

**2. REVIEW AND APPROVAL OF JUNE 15, 2022, MINUTES**

Action: Commissioner Relucio made a motion, seconded by Commissioner Snyder, that:

- *The Commission approves the June 15, 2022, Commission on Emergency Medical Services (EMS) Teleconference Meeting Minutes as presented.*

Motion carried 12 yes, 0 no, and 2 abstain, per roll call vote as follows:

The following Commissioners voted “Yes”: Commissioners Dunford, Giandomenico, Kusman, Miller, Oshita, Pierce, Relucio, Snyder, Suver, and Thompson, Vice Chair Burrows, and Chair Uner.

The following Commissioners abstained: Commissioners Brown and Gautreau.

### **3. DIRECTOR’S REPORT**

Elizabeth Basnett, Acting Director, deferred the Director’s Report to the agenda, which will cover many items usually reported on in the Director’s Report.

### **4. CONSENT CALENDAR**

- A. Administrative and Personnel Report**
- B. Legal Report**
- C. Enforcement Report**

Action: Commissioner Dunford made a motion, seconded by Vice Chair Burrows, that:

- *The Commission approves all items on the Consent Calendar as presented.*

Motion carried 13 yes, 0 no, and 0 abstain, per roll call vote as follows:

The following Commissioners voted “Yes”: Commissioners Brown, Dunford, Giandomenico, Kusman, Miller, Oshita, Pierce, Relucio, Snyder, Suver, and Thompson, Vice Chair Burrows, and Chair Uner.

The item was noted and filed.

### **REGULAR CALENDAR**

### **5. EMS ADMINISTRATION**

- A. Legislative Report**

Kent Gray, Regulations Manager, reviewed the EMSA Legislative Update of the bills currently being tracked and analyzed by staff, which was included in the meeting materials and posted on the website.

#### Discussion

Commissioner Gautreau referred to Assembly Bill (AB) 2117, mobile stroke units, and asked if the legislation provides for the Local EMS Agency (LEMSA) medical director to approve the medical director for the stroke unit.

Mr. Gray stated approval is not a requirement for by a specific individual but comes from the LEMSAs.

- B. Regulations Update**

Mr. Gray reviewed the Regulations Update of the regulations being promulgated, which was included in the meeting materials. He noted that the Office of Administrative Law (OAL) approved the paramedic fees regulation (Chapter 4) officially this Friday, September 23, 2022. The 45-day public comment period will end on November 7<sup>th</sup>.

### Discussion

Commissioner Thompson asked for an update on AB 450.

Acting Director Basnett stated an internal AB 450 implementation plan has been drafted. Once the Governor appoints the seven-member Paramedic Disciplinary Review Board, EMSA will review the implementation plan with them.

#### **a. Community Paramedicine Regulations Package Update**

Acting Director Basnett stated the Community Paramedicine Regulations Package was submitted to the OAL for their review. Technical non-substantive changes are required, which will include 15-day modification and public comment periods. A special meeting will be held online next month to vote on the package prior to resubmittal to the OAL.

Acting Director Basnett stated the Commission continues to work with the CARESTAR Foundation and other organizations on the development of the Triage to Alternate Destination and Community Paramedicine Tool Kits. Workshops that were planned for December will be postponed due to the 15-day modification and public comment periods.

### Discussion

Commissioner Kusman asked about plans to address the short sunset date of January of 2024.

Acting Director Basnett stated there is no answer today but the Administration is aware of the short timeframe and is working on a course of action.

### Public Comment

Tanir Ami, CEO, CARESTAR Foundation, stated the new-program funding availability will be extended due to the setback.

#### **C. Strategic Planning Update**

Acting Director Basnett stated EMSA has completed the internal strategic planning process, which will soon be posted on the website. The internal strategic plan will continue to be updated as feedback is received.

Acting Director Basnett stated the external strategic planning process is well underway. The California EMS System Strategic Planning Advisory Committee meets every other month and has developed draft mission and vision statements, values, and guiding principles of California's EMS system. EMSA created four sub-working groups. The Advisory Committee will spend time determining the mission, vision, values, guiding principles, and goals for these four groups. Each of the four groups is assigned to meet virtually for three hours on one Friday of every month for 12 weeks. The sub-working groups will do Strengths, Weaknesses, Opportunities, and Threats (SWOT) analyses of their different work group areas to assist them in thinking through objectives and tasks to accomplish goals focused on equity and transparency, innovation and data, operational management, and administration and resilience. The sub-working group meetings will conclude by the end of December.

Acting Director Basnett stated EMSA will host a statewide Listening Session in the first quarter of 2023 where the draft California EMS System Strategic Plan will be presented and feedback will be gathered. The final draft of the California EMS System Strategic Plan is expected to be completed in the second quarter of 2023.

### Discussion

Chair Uner asked for additional details on the four sub-working groups of the Advisory Committee.

Acting Director Basnett provided detail as follows:

- The Equity and Transparency Sub-Working Group will focus on questions such as if EMS should have an equity framework, if everyone should be analyzing equity in the same way, and what equity means for EMS both externally for things like response time and internally with staffing and culture.
- The Innovation and Data Sub-Working Group will take a retrospective look at data for medical interventions, operations, etc., and will focus on questions such as how to ensure that the EMS system is a data- and policy-driven system, what data should currently be collected, and how to better use the data being collected to help make informed policy decisions to move the EMS forward.
- The Operational Management Sub-Working Group will consider real-time data around the stress on the EMS system due to the COVID-19 pandemic, fire season, ambulance patient offload time (APOT), and the flu and will focus on questions such as if there is a way to enhance real-time data understanding to better support EMS personnel.
- The Administration and Resilience Sub-Working Group will focus on administration questions such as how EMSA can make everyone's life easier by enabling electronic submittals and streamlining processes, and on resilience questions such as what strategies can be put in place now to help mitigate future threats for greater resiliency in the future.

Commissioner Snyder asked staff to send Commissioners the names of the organizations and their representatives who were invited to be part of the four sub-working groups.

### Public Comment

There was no public comment.

## **6. EMS SYSTEMS**

### **A. Ambulance Patient Offload Time (APOT) Report**

#### **a. APOT Committee**

Acting Director Basnett stated the 20-member APOT Committee was established on November 1, 2021, to develop advisory recommendations within a seven-month timeline to reduce ambulance patient offload delays and to make the data more useable and accessible. Three sets of recommendations have been developed.

Acting Director Basnett presented the APOT Committee recommendations for the Commission's review as follows:

#### EMS System Recommendations

- Electronic signature documentation.
- Implementation of multiple options for patient transport.
- Promulgation of statewide APOT standard.
- Enforcement of the Emergency Medical Treatment and Labor Act (EMTALA) and other state and federal patient safety protections regulation.
- Federal advocacy for reimbursement of transport to alternate destination.
- Operational monitoring.

#### Hospital System Recommendations

- Modify legislation to allow paramedics to work in General Acute Care Hospitals (GACH).
- Increase throughput efficiency by reducing Door-To-First-Provider (DTFP) and APOT times.
- Public data reporting.
- GACH should staff EMS arrival team.
- Hospital reimbursement to providers.
- Rescheduling of elective surgeries.

#### Other Recommendations

- Develop local APOT committees.
- Joint plans.
- Health information exchange.
- Workforce development program.
- Community emergency department RN training program.
- Community education.
- Review, update, and publish a new Toolkit to Reduce Patient Offload Delays in the Emergency Department.

#### Discussion

Chair Uner noted that two of the recommendations were not endorsed by the Committee.

Acting Basnett agreed and stated they were the public data reporting and rescheduling of elective surgeries recommendations.

### Public Comment

Pam Allen, Director of Emergency Services, Redlands Committee Hospital, and Co-Chair of the California Hospital Association (CHA) EMS and Trauma Committee, stated all EMS service providers and hospitals have a common mission to provide excellent, timely, and safe patient care. She agreed that APOT is complicated and multifactorial. There are many issues that affect the effective transfer of patients, such as the decreased emergency department and inpatient capacity, the shortage of primary care clinics and providers, and the increase in behavioral and mental health patients. Ambulance patient offload delays have become a public health crisis. It is important to work together to break down silos to overcome APOT issues.

Ms. Allen noted that data drives change. She stated the need for standardized metrics, such as when the clock starts and stops. She stated her emergency department starts the clock when the patient is registered, not when they arrive in the parking lot. This information affects the data both for the time of arrival to when the patient is seen by a provider and the time of arrival to when the patient is discharged or admitted to the hospital.

Ms. Allen noted the need to ensure that data being reported by the LEMSAs is validated. Currently, APOT data is not shared with hospitals. Until that happens, hospitals will need to maintain their own standards and established framework. She stated the need for a unified vision, shared goals and priorities, and collaboration in order to find solutions that are jointly owned across the whole system.

Rose Colangelo, ED Director at Sutter Roseville representing Sutter Health, and Co-Chair of the CHA EMS and Trauma Committee, stated, while the CHA understands the motivation to focus on a 20-minute standard and shares the collective objective to reduce wall times, there are serious concerns about the process by which the standard is being developed, especially since recommendations have already been established in a framework developed by the CHA in collaboration with the EMSA to help mitigate increase in all wait times. What is concerning about the agreed-upon standard set for 15- to 30-minutes for 90 percent of patients transported to emergency department is that the agreement clearly stated that data collection systems that capture the metrics should be developed as a collaborative effort between the LEMSAs, ambulance providers, and hospitals. If the data is unreliable or the entities are not using the same metric measurement standards, then proposed future standards will also be unreliable and ineffective.

Ms. Colangelo stated, before moving forward with a specific metric, hospitals must have the opportunity to validate the data being submitted to the local emergency management service authorities. Too often, while assessing individual cases, discrepancies arise in the start and stop times. Reliable data is key to measuring accurate wall times and in assessing effective mitigation strategies. Data reliability can be achieved if all involved entities are able to review and validate the data.

Kevin Greene, EMS/Health and Safety Director, California Professional Firefighters (CPF), thanked EMSA staff for their work on the APOT Committee. He stated CPF urges the Commission and EMSA staff to continue to work toward solutions to address

wall times in California. CPF stands ready to work with partners and policymakers to implement meaningful solutions that prioritize treatment and patient care and create efficiencies in the EMS system in California.

#### **b. Quarterly APOT Data Submissions**

Tom McGinnis, Chief of the EMS Systems Division, stated the Commission asked for status updates on the quarterly APOT data submissions by LEMSAs throughout the state. He reviewed a chart showing APOT submission data from 2019 through the second quarter of 2022, which was included in the meeting materials. He noted that all LEMSA submissions are current as of the second quarter of 2022.

#### **c. APOT Reporting Memo**

Chief McGinnis stated EMS staff worked with the LEMSAs to develop a schematic of how data should be submitted to the EMSA. In response to requests from the LEMSAs to move from a manual to electronic process, the EMSA will begin solely using the California EMS Information System (CEMSIS) data to run APOT reports beginning January 1, 2023. He stated Acting Director Basnett sent a memo to the LEMSAs in July about this change and staff will be working with the LEMSAs during this transition to electronic submissions.

#### Discussion

Chair Uner asked if the manual and electronic data collection methods will correlate.

Chair McGinnis stated the elements should transition directly. EMSA will still work with the LEMSAs to ensure that the data is captured correctly.

Commissioner Snyder asked about the discrepancies in the Los Angeles County LEMSA APOT reporting data.

Acting Director Basnett stated Los Angeles County is not currently submitting their data to CEMSIS. Staff is working with the LEMSA to rectify that issue as soon as possible.

Vice Chair Burrows asked why APOT Committee Recommendation 3 under Hospital System Recommendations regarding public data reporting was not voted to move forward as a recommendation.

Acting Director Basnett stated there was concern that publishing waiting times for the emergency department in a public dashboard would discourage patients from going to the emergency department.

Vice Chair Burrows asked if there was a discussion about making that information available internally to EMS providers and hospitals.

Acting Director Basnett stated there was interest in that but it was not put forward as an official recommendation.

Commissioner Gautreau responded to Ms. Allen's suggestion about starting the clock when the patient is registered or at first contact with the provider rather than when they arrive in the parking lot. He stated, in his experience, the time of registration is extraordinarily variable. A more uniform data source would be the arrival of the patient

in the emergency department that is recorded by dispatch. There is no reason for alter that metric.

Commissioner Kusman thanked Acting Director Basnett and the team for their work around the health information exchange. The establishment of that connectivity and data transfer fosters transparency and clarity around patient care and outcomes. Finding ways to fund and maintain ongoing operations is a key way to share real-time information transparently.

Commissioner Suver stated the importance of working together to solve this issue.

## **B. Community Paramedicine Pilot Project Update**

Lou Meyer, Project Manager/Consultant for the Community Paramedicine Pilot Project, reviewed the background, fiscal impact, summary, and enrollment status of the 11 remaining community paramedicine or alternate destination pilot projects. Detailed information was included in the meeting materials. He stated the data did not include the City of Los Angeles.

### **a. Community Paramedicine Implementation Plan**

Mr. Meyer stated he is working with the EMSA team on the preparation of a workshop to assist LEMSAs and providers with Community Paramedicine and Triage to Alternate Destination implementation. These workshops, sponsored by the CARESTAR Foundation, are scheduled for December 8, 2022, in San Diego, and December 15, 2022, in Berkley.

### **Discussion**

Commissioner Dunford suggested that the EMSA team work with the National Sobering Collaborative to define what a sobering center is for California.

Chief McGinnis stated he was invited to participate in a meeting in October to discuss what can be done and the level of interest in California. He stated he will keep the Commission informed about that discussion.

Commissioner Dunford stated the importance of including individuals who are currently doing this work in the discussion.

Commissioner Thompson asked if registration information for the December workshops will be posted on the website.

Chief McGinnis stated the registration link should be posted on the website by the end of next week. The registration process will be done through Eventbrite.

### **Public Comment**

Ray Ramirez, Deputy Chief, City of Ontario Fire Department, and California Fire Chiefs Association (CalChiefs), stated the EMS system is stressed, attrition rates are high, and new hire applicant rates are low. Certain restrictions were waived and funding was provided during the COVID-19 pandemic that otherwise would not have been. This allowed LEMSAs to develop programs that were outside of the general scope of the community paramedic regulations. Many of these programs are valid.

Mr. Ramirez stated the need to identify gaps and successes before the program sunsets in order to develop community paramedicine programs that relieve the stress of the EMS system, hospitals, and providers in the field. He suggested coming together to make recommendations to help improve the system.

**C. Cessation of 180-Day Extensions for the Submission of Local Emergency Medical Services Agency Annual Plans Memo**

Chief McGinnis stated a 180-day extension was provided for LEMSAs to submit their annual local EMS plans to the EMSA during the state of emergency due to the COVID-19 pandemic. This extension was rescinded on August 1, 2022. All annual local plans that are past due must be submitted to the EMSA for review prior to January 31, 2023.

**Public Comment**

There was no public comment.

**7. EMS RESPONSE TO BEHAVIORAL HEALTH PATIENTS**

Chair Uner stated this is a standing agenda item for the Commission on EMS to discuss the topic of EMS response to behavioral health patients. He noted that he will provide an update on this item at the next meeting. He deferred to Commissioner Miller to make an announcement.

Commissioner Miller, the EMS Medical Directors' Association of California (EMDAC) representative to the Commission and the Chair of EMDAC's Scope of Practice Committee, stated the Commission heard a review at the last meeting of uniform behavioral health policies and practices across LEMSAs and opportunities for alternative means to find help for patients in crisis. He volunteered the Scope of Practice Committee to draft a framework of these policies and practices to highlight best practices to help patients in crisis that would not be prescriptive to LEMSAs for Commission review at the next meeting.

**Public Comment**

Mr. Ramirez suggested combining efforts for the mental health crisis issue with the community paramedicine program. He noted that the Governor's Community Assistance, Recovery, and Empowerment (CARE) Court bill was recently passed. EMS is an intake to that process. These types of legislation are a stressor to EMS, hospitals, and law enforcement. He asked for guidance on how current EMS programs can work in harmony with the CARE Court legislation. He stated the need to ensure that the EMS system is properly reflected in the development of the CARE Court process.

Acting Director Basnett agreed that efforts need to be unified and stated those discussions are ongoing with the California Health and Human Services (CalHHS) Agency.

Chair Uner asked staff to keep the Commission updated on the development of the CARE Court process.

Commissioner Dunford suggested that frequent users of community paramedicine programs provide input during the development of the CARE Court process. Their experience and perspective will be a valuable contribution. EMS is in a unique position to identify individuals with lived experience in the community in collaboration with law enforcement and the mental health system.

## **8. EMS PERSONNEL**

Louis Bruhnke, Chief Deputy Director, EMSA, provided the report for Kim Lew, Chief of the EMS Personnel Division, who was unable to be in attendance.

### **A. Contra Costa Buprenorphine Trial Study**

Mr. Bruhnke stated, in September 2020, the Contra Costa County EMS Agency began a pilot trial study project using paramedics to initiate Medication Assisted Treatment (MAT) for patients who contact the 9-1-1 system with an Opioid Use Disorder (OUD) by administering buprenorphine. This project was incorporated into a multi-agency initiative with the California Department of Public Health (CDPH) and the California Bridge program to provide MAT rapidly and early, share OUD electronic health record data, leave naloxone behind with friends and family on scene, and utilize an EMS designated Contra Costa Regional Medical Center as the Opioid Overdose Receiving Center.

Mr. Bruhnke stated the buprenorphine inductions were successful for primary withdrawal and those reversed with naloxone. There were no patient adverse reactions; however, the study has yet to identify whether the trial study hypothesis that EMS buprenorphine administration to patients with an opioid use disorder in a pre-hospital setting will increase patient access and long-term intervention to treat opioid addiction. He recommended that the pilot trial study project be extended to include additional data collection, as identified in the staff memo under this agenda item in the meeting materials.

### **Discussion**

Commissioner Relucio asked about the endpoint of the trial study and if the trial study will become a local optional scope of practice after this extension period.

Dr. Garzon stated the trial study extension will be to gather additional data and information on patients. A local optional scope of practice can be part of the requirement for data collection and further information. He stated today's vote can either be to support a continuation of the trial study or to transition to local optional scope of practice as long as there are also requirements for data collection and sharing.

Chair Uner reviewed today's options to stop the use of buprenorphine in EMS altogether, to extend the trial study for another 180 days, or to stop the trial and move the intervention to the local optional scope of practice. Local optional scope of practice would mean that every LEMSA can apply for this program to give buprenorphine in the field and then the Scope of Practice Committee can decide which data points they need to collect. Buprenorphine removes symptoms of withdrawal from the patient immediately. It relieves suffering at little medical risk. He stated concern that a small number of patients were enrolled in the trial study, although buprenorphine is being

used across emergency departments in many settings and is arguably a safe medication to use. No adverse effects have been seen. Giving pain medications in the field does not change the outcome but it does change a patient's experience.

Chair Uner stated concern that small counties will be unable to sustain an extended trial study; however, moving buprenorphine into the local optional scope of practice will allow LEMSAs to comply with the data reporting required. He stated there is a time to study and a time to act. Now is the time to act to address the increase in overdose deaths.

Commissioner Dunford agreed with Chair Uner's concern about the small number of patients enrolled in the trial study, although he stated he is seeing an increasing number of patients with precipitated withdrawal. No negative outcomes were seen in the small trial size, but this may only be reflective of the fact that bad outcomes only happen a small percentage of the time. This becomes a larger issue for patients with precipitated withdrawal. He stated more data is required since measuring the degree of withdrawal is complicated. He suggested that linkage to medical examiner data would be another metric to demonstrate success. Showing a reduction in repeat overdoses would be an important outcome.

Commissioner Gautreau agreed that there is some risk with every therapy. The data in this study and the data in the use of buprenorphine strongly support that the weight of risk is in favor of using buprenorphine, even if there is a small number of patients who have precipitated withdrawal. Those patients can also be treated. He stated he strongly supports moving this to local optional scope of practice while continuing to collect the data.

Commissioner Pierce agreed that it should be looked at as a local optional scope of practice because first responders are impacted with this on a daily basis.

Commissioner Kusman stated a public health and medical approach to this challenge is important. One of the ways to support that is to get to patients early. The way that this pilot has been set up is to provide patients who are in need of this treatment with access to it early. He agreed with moving it into local optional scope of practice. He pointed out that LEMSAs that choose to adopt the local option scope not only report the quality of care to the Scope of Practice Committee and EMDAC, but will also be overseen by a highly qualified EMS physician that is embedded within the LEMSAs. Also, Contra Costa County created a local advisory committee to provide guidance. LEMSAs that move forward with the local optional scope can also consider utilizing a similar sort of steering committee to assure that all the connection points are there and that the use is supervised and safe.

Commissioner Dunford stated the need to set standards for LEMSAs that choose to go this route.

Commissioner Miller stated that will be part of the conversation at the Scope of Practice Committee. He made a motion to move buprenorphine from a trial study status to a local optional scope of practice status.

Commissioner Gautreau seconded.

### Public Comment

Brian Hartley, Bound Tree Medical, spoke in support of moving buprenorphine to a local option scope of practice.

Mr. Gray read a comment from Dr. Kristi Koenig, EMS Medical Director, San Diego County and former Commissioner, from the Chat section. Dr. Koenig wrote in support of moving the buprenorphine trial study into paramedic local optional scope of practice to provide the best access for this tool for implementation in communities across the state. The patient-centric action supports the EMSA mission to prevent injuries, reduce suffering, and save lives.

Action: Commissioner Miller made a motion, seconded by Commissioner Gautreau, that:

- *The Commission moves buprenorphine from a trial study status to a local optional scope of practice status.*

Motion carried 15 yes, 0 no, and 0 abstain, per roll call vote as follows:

The following Commissioners voted “Yes”: Commissioners Brown, Dunford, Gautreau, Giandomenico, Kusman, Lam, Miller, Oshita, Pierce, Relucio, Snyder, Suver, and Thompson, Vice Chair Burrows, and Chair Uner.

### **B. NREMT Exam Pass Rates**

Mr. Bruhnke provided the report for Kim Lew, Chief of the EMS Personnel Division, who was unable to be in attendance. He stated California continues to have the highest number of National Registry EMT certified EMS professionals nationwide. As of September 7, 2022, there are just over 40,000 National Registry EMT certified California EMTs, AEMTs, and paramedics. He stated, although California paramedic pass rates decreased during the 2020-2021 year, EMT pass rates increased. Overall, California EMS training programs first time pass rates continue to exceed the national average pass rate.

### Discussion

Commissioner Thompson asked about best practices to share with training centers that have low pass rates.

Mr. Bruhnke stated he will ask Kim Lew to report on best practices in regard to the pass rates at the next meeting.

Commissioner Kusman asked if there has been work towards understanding why paramedic pass scores have dropped over the past couple of years and how to help them increase.

### Public Comment

Amanda Ward, Paramedic Program Director, Crafton Hills College, stated the statistics for first time pass rates are very much connected to the COVID-19 pandemic and what many of institutions were required to do, such as transitioning from an in-person to an

online format within one week. She stated classes are again running successfully and estimated that the numbers will soon increase.

## **9. DISASTER MEDICAL SERVICES DIVISION**

### **A. State Medical Response Update**

Craig Johnson, Chief of the Disaster Medical Services Division, reviewed the State Medical Response Update, which was included in the meeting materials. He provided information on the Authority's response activities to date and highlighted current activities underway.

#### Discussion

Chair Uner asked about the personnel on the 24 APOT teams.

Chief Johnson stated the team of 12 was made up of 6 nurses and 6 EMTs. The team of 18 was made up of 6 nurses, 6 LVNs, and 6 paramedics.

Dr. Garzon stated the second configuration for APOT teams was initially sent in to support staffing in emergency departments. There was also a third configuration for APOT teams, where four or six EMTs served specifically as wall medics in order to monitor waiting patients and return transporting crews to service. The greatest benefit to wall times came from this third configuration. He stated the need to look at that data independently to verify those testimonials or individual reports through data.

Commissioner Snyder asked about the cost for the APOT teams that were deployed to several hospitals in the Los Angeles region. She asked to see a data comparison of months before and after the APOT teams were deployed.

Dr. Garzon stated, during the Omicron surge, the state paid an EMT rate of \$100 per hour and a medic rate of \$115 per hour. Outside of that surge, the rates were \$80 per hour for EMTs and \$100 per hour for medics. This accounts for the difference in pay for the third configuration of APOT team.

Commissioner Snyder asked how many teams were deployed in total and what the state paid for this program to be implemented. She stated it is important to get this data about time-saving effort right.

Acting Director Basnett stated staff did significant analysis of that data and shared some of it with the legislature. There was a dramatic decrease in APOT. She stated staff will share that data with the Commission.

Commissioner Gautreau asked if placing paramedics in hospitals is sustainable with the increasing shortage of paramedics available even to staff ambulances.

Acting Director Basnett stated staff was being pulled from other states, so sustainability is uncertain.

Commissioner Gautreau asked how many offered positions were not filled because there were no available paramedics to accept them, and whether that was a stable rate or increased over time.

Dr. Garzon stated there was an adjudication process for all requests for personnel or supplies. Resources were allocated to the most impacted hospitals.

Acting Director Basnett stated all requests that were approved through the adjudication process were able to be filled through contract staffing.

Dr. Garzon stated, regarding sustainability, the idea came to the state because local EMS agencies were using these strategies as solutions locally during a crisis situation with a tremendous shortage. It is not a daily operational practice.

Commissioner Pierce asked, as influenza season begins in the southern hemisphere, if there has been discussion at the EMSA level to institute these APOT teams in advance to be proactive before a crisis situation begins.

Acting Director Basnett stated the governor's budget does not allow for this level of resources to be available during the next winter surge.

#### Public Comment

Mr. Ramirez stated the understanding that certain APOT responses were enabled due to the waivers the governor allowed for practice setting limitations. He asked if that process will still be available after the governor's emergency orders expire.

Dr. Garzon stated the emergency orders did allow for paramedics to work in atypical settings. Without emergency orders in place, a paramedic can work for an ALS provider or a LEMSAs and be tasked to a hospital, but they cannot be hired by a hospital. He stated the success of reducing wall times was dependent upon having a dedicated person to care for patients until full transfer of care could occur. In theory, if hospitals were to employ health care staff members in that role instead of paramedics, the beneficial effect on APOT would continue. This is a potential solution to address sustainability.

### **10. ITEMS FOR NEXT AGENDA**

Chair Uner stated Drs. Nichole Bosson and Kristi Koenig requested a discussion on paramedic vaccinations and select viral testing remaining a local optional scope of practice; however, this was not put on the September agenda. He asked to table this discussion until the next meeting.

Vice Chair Burrows read an email from Commissioner Barrow of his suggested items for the December and March Commission meetings. The first item is a discussion of the decreased pass rate for some programs post-COVID and what local training programs have done to improve that. The second item is considering why some programs have far lower pass rates than others, perhaps due to a common set of issues.

Commissioner Dunford asked, given the data on the opioid epidemic and considering what elements may be missing in CEMSIS necessary for statewide analysis, what percent of patients are actually being impacted by EMS and what opportunities exist to expand that.

Commissioner Dunford recommended automating a statewide report on the incidence of NARCAN being administered, the number of people successfully transported, the

number of on-scene deaths, and medical examiner data to determine the impact of the opioid epidemic on EMS. He stated this cannot be accomplished in three months but suggested using any data collected immediately to evaluate who is and is not being reached.

Zoe Jones, Executive Support Analyst, EMSA, read a comment from Commissioner Barrow, who was unable to be in attendance. Commissioner Barrow wrote, regarding the APOT recommendation discussion, that the APOT committee did good work and most of the recommendations deserve action as soon as practical.

Commissioner Barrow highlighted three issues to discuss during the APOT recommendation part of this meeting:

- First responders, LEMSAs, hospital key staff, and hospitals were represented on the committee, but the public and patients who have a major stake in addressing APOT issues were not adequately represented on the committee. That is one reason public review and comment on the recommendations is necessary before moving forward in implementation or EMS Commission approval of these recommendations.
- There is some disagreement between the APOT data shared with the EMS Commission and hospital review and disparities regarding their view of the data. These data disparities must be investigated so the data is vetted and any issues between the hospital data and reported through the EMSA APOT data can be addressed.
- What is the process the EMS Commission will go through in implementing APOT recommendations? The working committee does not have the authority on its own to implement these recommendations.

Acting Director Basnett stated, regarding Commissioner Barrow's first issue, opening to additional public comment and input will require evaluating how that will affect the recommendations, since the missing voices were missing before COVID-19.

Acting Director Basnett stated, regarding Commissioner Barrow's second issue, the EMS Commission is working with hospitals to understand any discrepancies, with confidence in CEMIS data, the Data Dictionary, and the standards for EMS professionals. Data transparency and integrity is always a goal; however, it is important to avoid overfocusing on data and instead to focus on finding solutions to the APOT problem.

Dr. Garzon added that the definition for transfer of care comes from a 2012 document EMSA built based on multi-stakeholder EMS and hospital input, including best practice recommendations such as RN signatures. A decade later, some LEMSAs have more reliable and accurate data and have done more work with ALS providers and hospitals than other LEMSAs have, so part of this solution will involve validating and verifying data LEMSAs by LEMSAs to assess the percentage of reliable data statewide.

Acting Director Basnett stated, regarding Commissioner Barrow's third issue, even EMSA does not have full authority in implementing APOT recommendations. Many of

them require statute or budget funding. The EMS Commission plans to collaborate with the APOT Committee, the Legislature, the Department of Finance, and the Administration to determine how to move that forward.

Commissioner Dunford asked about the location of the December meeting.

Ms. Jones stated she is working to finalize the contract with Holiday Inn Oakland Airport, which is close to the airport as well as to Alameda EMS, where EMDAC will be holding their meeting. She will keep Commissioners updated once the location is secured.

Commissioner Relucio stated she will be retiring at the end of December and will be working with the California Conference of Local Health Officers (CCLHO) to find her replacement. The next Commission meeting will be her final meeting. She expressed gratitude for the opportunity to serve on the Commission on behalf of CCLHO.

#### **11. PUBLIC COMMENT**

There was no public comment.

#### **12. ADJOURNMENT**

There being no further business, the meeting was adjourned at 12:21 p.m.

**RECOMMENDATION**

Approve the meeting minutes from the October 13, 2022, Special Commission on Emergency Medical Services (EMS) Meeting.

**FISCAL IMPACT**

No fiscal impact.

**SUMMARY**

A special meeting of the Commission on EMS occurred October 13, 2022, to vote on approval of the Community Paramedicine and Triage to Alternate Destination proposed regulations. Each Commission on EMS meeting is transcribed by a third-party vendor. That vendor also drafts meeting minutes, which summarize what is said during the meeting. Those draft minutes are then edited by the Emergency Medical Services Authority (EMSA) to ensure accuracy and completion.

The Commission on EMS may request modifications to the meeting minutes or may approve the version of the minutes included in this agenda item.

**STATE OF CALIFORNIA  
COMMISSION ON EMS**

**Minutes of Special Teleconference Meeting  
Thursday, October 13, 2022, Zoom  
Call-In Number 669-900-6833; Code 856 3790 0841**

**COMMISSIONERS PRESENT:**

Steve Barrow, Curtis Brown, James Dunford, M.D., Marc Gautreau, M.D., Travis Kusman, Ken Miller, M.D., Ph.D., Masaru “Rusty” Oshita, M.D., Jodie Pierce Karen Relucio, M.D., Paul Rodriguez, Carole Snyder, Jim Suver, Kristin Thompson Atilla Uner, M.D., and Todd Valeri

**COMMISSIONERS ABSENT:**

Sean Burrows, Thomas Giandomenico, Nancy Gordon, and Lydia Lam, M.D.

**EMS AUTHORITY STAFF PRESENT:**

Elizabeth Basnett, Louis Bruhnke, Hernando Garzon, M.D., Kent Gray, Zoe Jones, and Lou Meyer

**AUDIENCE PRESENT (partial list):**

Gene Hern, M.D., California Bridge Program  
Kristi Koenig, M.D., County of San Diego EMS

**1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE**

Chair Atilla Uner, M.D., called the teleconference meeting to order at 10:06 a.m. Fifteen Commissioners were present. He led the Pledge of Allegiance and reviewed the meeting protocols and meeting agenda.

**2. REGULATIONS UPDATE**

**A. Approval of Community Paramedicine and Transport to Alternate**

Acting Chair Basnett thanked everyone for participating in this special meeting.

Lou Meyer, Project Manager/Consultant for the Community Paramedicine Pilot Project, stated the EMS Commission approved an Order of Adoption for the Community Paramedicine and Triage to Alternate Destination Regulations at the June meeting. The regulation package was submitted to the Office of Administrative Law (OAL) for their review. Technical non-substantive edits were required, including 15-day modification and public comment periods. This special meeting is being held to vote on the revised package prior to resubmittal to the OAL.

Mr. Meyer stated six public comments were received during the 15-day public comment period. Comments were received requesting clarification on whether the current approved pilot projects would be able to continue for up to the one year previously stated in Section 10190(f) of the regulations, which were approved at the June meeting. He stated that section was removed from today's Adoption Order, since the OAL

determined that the requirement was stated clearly in statute and should not be repeated in the regulations. Other public comments received did not address the OAL's requested edits. He presented the revised Adoption Order for the Commission's consideration and approval.

### Discussion

Commissioner Pierce asked about possible program extension.

Mr. Meyer stated an extension would require new legislation.

Acting Director Basnett stated the Administration understands the tight timeline. Staff is currently in discussion on this issue.

Commissioner Barrow asked if that discussion includes Assembly Member Gipson, the author of the original legislation.

Acting Director Basnett stated staff will contact Assembly Member Gipson's office once recommendations and lessons learned have come out of the pilot projects.

Commissioner Oshita asked if a list of alternate destinations has been compiled.

Mr. Meyer stated Assembly Bill (AB) 1544 limits alternate destinations to sobering centers, mental health crisis centers, and veterans' hospitals.

### Public Comment

Zoe Jones, Executive Support Analyst, EMSA, read a comment from Mike Dayton, Chief Consultant, Assembly Member Freddie Rodriguez's office, in the Chat section. Mr. Dayton stated Assembly Member Rodriguez, Chair of the Committee on Emergency Management, is interested in working on this issue and is happy to work with Assembly Member Gipson's office, as well.

Action: Commissioner Miller made a motion, seconded by Commissioner Dunford, that:

- *The Commission approves the proposed text for Community Paramedicine Regulations, Chapter 5, Division 9, Title 22 of the California Code of Regulations.*

Motion carried 15 yes, 0 no, and 0 abstain, per roll call vote as follows:

The following Commissioners voted "Yes": Commissioners Barrow, Brown, Dunford, Gautreau, Kusman, Miller, Oshita, Pierce, Relucio, Rodriguez, Snyder, Suver, Thompson, and Valeri, and Chair Uner.

## **3. PUBLIC COMMENT**

Kristi Koenig, M.D., EMS Medical Director, San Diego County, and former Commissioner, spoke about opioid overdose death mitigation. She requested the Commission's assistance in facilitating more rapid access to naloxone to support the local Leave Behind Naloxone program.

Dr. Koenig stated appreciation for the California Department of Health Care Services (DHCS) naloxone distribution project that enables local EMS agencies (LEMSAs) to apply for a free supply of naloxone to use in this program. She noted that, after

submission of the application to the state, it can take 8 to 10 weeks for approval and an additional 4 to 6 weeks for naloxone to arrive at the local level where it is needed to save lives.

Dr. Koenig stated San Diego County respectfully requests that the EMS commission consider a strong recommendation to EMSA to work with the DHCS to review the naloxone distribution process and implement changes to improve the speed of distribution to LEMSAs. Speeding local access to naloxone would facilitate the ability to get this life saving medication out to the streets, where it is urgently needed.

Commissioner Pierce agreed. She suggested that the Commission ask EMSA to look at shortening the distribution to get this medication, particularly NARCAN, to local communities to make a difference.

Commissioner Barrow stated he is the lead person helping the state put together the Safer California Conference 2022, the state's unintentional injury prevention conference, to be held on November 15 and 16. He stated one of the top issues for the panels and workshops is the increase in youth opioid and fentanyl use. Youth are scared of opioid and fentanyl issues. He shared that his teen child was recently hit by a car and was put on oxycodone. His child was frightened about possibly becoming addicted.

Commissioner Relucio agreed with Commissioner Pierce that this is a public health crisis. The process needs to be streamlined for pre-hospital providers to get naloxone. She suggested a discussion on this issue at the next Commission meeting.

Commissioner Oshita volunteered his assistance to Dr. Koenig and Commissioner Barrow on these issues. He asked to talk about it offline.

Commissioner Dunford echoed the comments of the previous speakers and stated not only is the distribution of naloxone critical, but education in the schools is important. There is stigma when schools or school districts are identified as having drug problems. As a result, there is a reticence on the part of some schools to refer children who have been identified with problems to treatment programs. Beyond distribution, EMS needs to remind the public health system of the importance of getting to parents and school districts to avoid the stigma of drug addiction in their schools.

Gene Hern, M.D., EMS Medical Director, California Bridge Program, stated the state naloxone distribution program has been helpful. California Bridge has been a strong advocate of Leave Behind NARCAN programs for some time, and to hear that there are delays of weeks or months is troubling. He stated California Bridge respectfully requests that the EMS Commission consider recommendations with EMSA and the CDPH to review and potentially speed up the distribution process.

Chair Uner asked staff to research this issue, reach out to the DHCS, the entity that controls the distribution, and present a preliminary report at the next Commission meeting.

#### **4. ADJOURNMENT**

There being no further business, the meeting was adjourned at 10:36 a.m.

**DISCUSSION****Emergency Medical Services Authority (EMSA) Budget:****2022-23**

The 2022-23 California State Budget includes expenditure authority of \$181.1 million and 114 permanent positions. Of this amount, \$158.4 million, or 88.45%, is delegated for State operations, and \$22.7 million, or 12.55%, to Local Assistance.

As of November 17, 2022, accounting records reflect that the Department has expended and encumbered \$11.1 million or 6.1% of expenditure authority available. Of this amount, \$10.4 million, or 6.6% of State Operations expenditure authority, is expended and/or encumbered, and \$714,000, or 3.1% of local assistance expenditure authority, has been expended and encumbered.

We continue to monitor and adjust state operations and local assistance budgets to meet changing program priorities. An updated report will be distributed prior to the next Commission meeting.

**EMSA Staffing Levels:**

The Department staffing level includes 114 permanent positions and 11 temporary (blanket and retired annuitant) positions. Of the 117 positions, 41 positions are vacant as of November 17, 2022.

MEETING DATE: December 14, 2022

**ITEM NUMBER: 5B**

SUBJECT: Legal Report

PRESENTER:

CONSENT:  X ACTION:      INFORMATION:      **FISCAL IMPACT**

No fiscal impact.

**DISCUSSION**

NOTE: Since the start of the Covid-19 pandemic, the Office of Administrative Hearings and most courts in the state are conducting hearings only remotely through services such as Zoom, Microsoft Teams, etc.

**Disciplinary Cases:**

From August 20, 2022 to November 15, 2022, the Authority has issued five new accusations against existing paramedic licenses, including two temporary suspension orders, and issued two decisions on petitions for reduction of penalties and license reinstatements. Of the newly issued actions, one of the Respondents has requested that an administrative hearing be set. There are currently nine hearings scheduled with the Office of Administrative Hearings. There are currently forty-seven open active disciplinary cases in the legal office.

**Litigation:**

Tagliere v. Director of EMSA: Los Angeles County Superior Court #22STCP00253, Writ of Administrative Mandamus. Following a hearing on September 1, 2022, petitioner's Writ petition was denied leaving in place the Authority's October 21, 2021 Decision and Order revoking petitioner's EMT-P license. The Authority is

tracking several post-judgment filing deadlines relating to the petitioner's ability to file for relief or appeal.

Gurrola v. Duncan: United States District Court, Eastern District, 2:20-Cv-01238-JAM-DMC

Plaintiff sued for a violation of his constitutional rights, alleging a violation for being precluded under the regulations from receiving an EMT certificate due to two felony convictions. The complaint was amended to add another individual with similar claims. On February 10, 2021, the Court granted the Authority's motion to dismiss the complaint and found that the regulations barring certification to someone with two felony convictions are rationally related to the State's interest in protecting the public's health and safety. Gurrola appealed that dismissal and the court re-instated the suit. The United States Court of Appeals for the Ninth Circuit heard oral argument and asked for supplemental briefing. On June 9, 2022, the Court affirmed the District Court's decision. Plaintiff-appellant petitioned for rehearing. On September 21, 2022 the Ninth Circuit issued a decision affirming the district court's decision to dismiss this case. While the plaintiff-appellant may seek U.S. Supreme Court review, the Authority is not aware of any such petition as of the date of this report.

Waters v. EMSA: Sonoma County Superior Court #SCV-268267, Writ of Administrative Mandamus. Petitioner filed a writ seeking to overturn the revocation of her license subsequent to her violation of a "last chance" agreement for testing positive on a random drug/alcohol test. Hearing is set for January 25, 2023. On November 14, 2022, Petitioner filed a request for dismissal. The Authority is awaiting the Order of Dismissal.

**BACKGROUND**Unit Staffing:

The Enforcement Unit is budgeted for five full-time Special Investigators and one full-time Associate Government Program Analyst (AGPA-Probation Monitor). The unit is currently fully staffed.

Investigative Workload:

The following is a summary of currently available data extracted from the paramedic database:

Commission on Emergency Medical Services

December 14, 2022

Item #

Page 2

Cases opened since January 1, 2022, including:

Cases opened:	292
Cases completed and/or closed:	280
EMT-Paramedics on Probation:	235

In 2021:

Cases opened:	309
Cases completed and/or closed:	282
EMT-Paramedics on Probation:	242

Status of Current Cases:

The Enforcement Unit currently has 129 cases in "open" status.

As of November 1, 2022, there are 47 cases that have been in "open" status for 180 days or longer, including: 2 Firefighters' Bill of Rights (FFBOR) cases and 6 cases waiting for California Society of Addiction Medicine (CSAM) evaluations. Respondents are directed to a physician who specializes in addiction medicine for an examination/review in cases involving alcohol or other substance abuse.

Those 47 cases are divided among five special investigators and are in various stages of the investigative process. These stages include awaiting documents, preparing for and/or setting up interviews, report writing and corrections to be made, awaiting action by local law enforcement jurisdictions, the courts, etc.

Delays in the interview process are common due to unforeseen difficulties in obtaining certified copies of documents, court records, availability of witnesses and/or the subject(s) of an investigation due to medical action/disability issues, on-going investigations for FFBOR staff or on-going criminal investigations, court actions, plus the routine requirement for two or more follow-up interviews.

No fiscal impact.

**DISCUSSION**

The following information is an update to the Emergency Medical Services Authority (EMSA) rulemaking. In accordance with California Health and Safety Code § 1797.107, the EMSA is promulgating the following regulations:

- Training Standards for Child Care Providers & Merger of Chapters 1.1 and 1.2.
  - Status: Developing proposed text
  - Purpose: General update.
- Public Safety First Aid (Ch. 1.5)
  - Status: Hold
  - Purpose: General Update.
- Lay Rescuer Epinephrine Auto-Injector Training Certificate Standards (Ch. 1.9)
  - Status: Developing proposed text and under review at EMSA
  - Purpose: Updates, including required form.
- Paramedic Fees (Ch 4)

- Status: 45-Day comment complete, see action item 5B1
- Purpose: Fee increase based on costs from AB 450.
  
- Administered Medications (Ch. 4 § 100146)
  - Status: Proposed text developed and under internal review at EMSA.
  - Purpose: Add new medications to list under subsection (c)(1)(R)
  
- Community Paramedicine and Alternate Destination (Ch. 5)
  - Status: Completed. Effective November 1, 2022
  - Purpose: Implement AB 1544 (Statutes of 2020).
  
- Trauma Care Systems (Ch. 7)
  - Status: Trauma regulation workgroup meeting kicked off on November 18<sup>th</sup> to develop proposed text.
  - Purpose: General update.
  
- Emergency Medical Services System Quality Improvement (Ch. 12)
  - Status: Developing proposed text
  - Purpose: General update.
  
- EMS Plans (Ch. 13)
  - Status: Review of previously submitted comments and developing new draft
  - Purpose: Provide new and updated regulations for annual EMS plans, Requests for Proposal and general EMS administration required by statute.
  
- Dispatch
  - Status: Developing proposed text
  - Purpose: Implement SB 438 (Statutes of 2019)

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

**ITEM NUMBER: 6B1**

SUBJECT: Approval of Paramedic Fee Change Proposed Regulations

PRESENTER: Elizabeth Basnett  
Acting DirectorCONSENT: \_\_\_\_ ACTION:  X  INFORMATION: \_\_\_\_**RECOMMENDATION**

Approve the proposed text for Paramedic Fees, Chapter 4, Division 9, Title 22 of the California Code of Regulations.

**BACKGROUND**

These regulations are being promulgated to meet EMSA's statutory requirement under Health and Safety Code 1797.112 while enacting AB 450 (Statutes 2021, Ch. 463).

**SUMMARY**

The proposed regulations would raise all paramedic licensing fees by \$65 to offset the expenditures for the newly created Paramedic Disciplinary Review Board whose exclusive funding source is the EMS Personnel Fund and the only income to the EMS Personnel Fund is the collection of paramedic licensing fees.

EMSA submitted a Notice of Proposed Regulatory Action and initial rulemaking document to the Office of Administrative Law (OAL). These documents were officially noticed on September 27, 2022. The 45-day public comment period began that day and concluded November 7, 2022. No public hearing was scheduled, and none was requested by the public. No modifications have been made to the proposal.

Commission on Emergency Medical Services  
December 14, 2022  
Item #5B1  
Page 2

**ATTACHMENT(S)**

Order of Adoption: Sections 100164, 100167, and 100172 of Title 22 of the California Code of Regulations.

STATE OF CALIFORNIA  
EMERGENCY MEDICAL SERVICES AUTHORITY

**ORDER OF ADOPTION**

New language is underline. Deleted language is ~~strikeout~~.

**§ 100164. Date and Filing of Applications.**

(a) The Authority shall notify the applicant within forty-five (45) calendar days of receipt of the state application that the application was received and shall specify what information, if any, is missing. The types of applications, which the applicant may be required to submit to the Authority, are as follows:

(1) Initial In-State Paramedic License Application, (California Graduate), Form #L-01, revised ~~05/2021~~03/2022 herein incorporated by reference, for California paramedic program graduates.

(2) Initial Out-of-State Paramedic License Application Form #L-01A revised ~~05/2021~~03/2022, herein incorporated by reference, for Out-of-State applicants who are registered with the National Registry of Emergency Medical Technicians as a paramedic.

(3) Initial Challenge Paramedic License Application, Form #CL-01A revised ~~05/2021~~03/2022, herein incorporated by reference.

(4) Renewal Paramedic License Form #RL-01, revised ~~05/2021~~03/2022, herein incorporated by reference.

(5) Audit Renewal Paramedic License Application, Form #AR-01, revised ~~05/2021~~03/2022, herein incorporated by reference.

(6) Reinstatement Paramedic License Applications(s):

(A) Reinstatement Paramedic License Application Lapsed Less than One Year, Form #RLL-01A, revised ~~05/2021~~03/2022, herein incorporated by reference.

(B) Reinstatement Paramedic License Application Lapsed One Year or More, Form #RLL-01B, revised ~~05/2021~~03/2022, herein incorporated by reference.

(7) Applicant fingerprint card, FD-258 dated 5/11/99 or a Request for Live Scan Service Form, BCII 8016 (Rev 05/2018), submitted to the California Department of Justice (DOJ), for a state and federal criminal history report provided by the

Department of Justice in accordance with the provisions of section 11105 et seq. of the Penal Code.

(8) Request for Licensure/Certification Verification, Form #VL-01, revised 03/2019.

(b) Applications for renewal of license shall be complete and postmarked, hand delivered, or otherwise received by the Authority at least thirty (30) calendar days prior to the expiration date of the current license. Applications postmarked, hand delivered or otherwise received by the Authority less than thirty (30) calendar days prior to the expiration date of the current license will require the applicant to pay a \$50 late fee, as specified in Section 100172(b)(4) of this Chapter.

(c) Eligible out-of-state applicants as defined in section 100165(a)(2) and eligible applicants as defined in section 100165(a)(3) of this Chapter who have applied to challenge the paramedic licensure training requirements shall be notified by the Authority within forty-five (45) calendar days of receiving the application. Notification shall advise the applicant that the application has been received, and shall specify what information, if any, is missing.

(d) An application shall be denied without prejudice when an applicant does not complete the application, furnish additional information or documents requested by the Authority or fails to pay any required fees. An applicant shall be deemed to have abandoned an application if the applicant does not complete the requirements for licensure within one (1) year from the date on which the application was filed. An application submitted subsequent to an abandoned application shall be treated as a new application.

(e) A complete state application is a signed application submitted to the Authority that provides all the requested information and is accompanied by the appropriate application fee(s). All statements submitted by or on behalf of an applicant shall be made under penalty of perjury.

Note: Authority cited: Sections 1797.107 and 1797.172, Health and Safety Code.  
Reference: Section 1797.172, Health and Safety Code.

### **§ 100167. License Renewal, License Audit Renewal, and License Reinstatement.**

(a) In order to be eligible for renewal of a non-lapsed paramedic license, an individual shall comply with the requirements in subdivisions (1) through (5) below:

(1) Possess a current paramedic license issued in California.

(2) Complete forty-eight (48) hours of CE pursuant to the provisions of Chapter 11 of this Division.

(3) Complete and submit the Renewal Paramedic License Application, Form #RL-01, revised 03/201922.

(4) If applicant is selected for audit, submit to the Authority a signed and completed Audit Renewal Paramedic License Application, Form #AR-01, revised 03/201922.

(A) Applicants selected for audit shall submit documentation of forty-eight (48) hours of CE completion, as specified in (a)(2) of this section.

(5) Pay the appropriate fees as specified on the application in accordance with Section 100172 of this Chapter.

(6) EMSA will send a renewal reminder notification by mail to the paramedic, approximately five (5) months prior to their paramedic license expiration date.

(b) In order for an individual whose license has lapsed to be eligible for license reinstatement, the following requirements shall apply:

(1) For a license lapsed less than six (6) months, the individual shall submit:

(A) Forty-eight (48) hours of CE pursuant to the provisions of Chapter 11 of this Division with copies of the CE Certificates.

(B) Pay the appropriate fees as specified on the application in accordance with Section 100172 of this Chapter.

(C) Submit a signed and completed Reinstatement Paramedic License Application, Lapsed Less than 1 year, specified in Section 100164(a)(6)(A),

(D) If an applicant is or was certified/licensed in another state or country, a signed and completed Licensure/Certification Verification, Form #VL-01, 03/2019, shall be submitted to the Authority for each state or country the applicant was licensed/certified.

(2) For a license lapsed six (6) months or more, but less than twelve (12) months, the individual shall:

(A) Submit sixty (60) hours of CE pursuant to the provisions of Chapter 11 of this Division, with copies of the CE Certificates.

(B) Pay the appropriate fees as specified on the application in accordance with Section 100172 of this Chapter.

(C) Submit a signed and completed Reinstatement Paramedic License Application, lapsed less than 1 year, as specified in Section 100164(a)(6)(A).

(D) If an applicant is or was certified/licensed in another state or country, a signed and completed Licensure/Certification Verification, Form #VL-01, 03/2019, shall be submitted to the Authority for each state or country the applicant was licensed/certified.

(3) For a license lapsed twelve (12) months or more, but less than twenty-four (24) months, the individual shall:

(A) Provide documentation of passing the licensure examinations within the past two (2) years as specified in Sections 100140 and 100141 or provide documentation of a current paramedic registration issued by the NREMT,

(B) Submit seventy-two (72) hours of CE pursuant to the provisions of Chapter 11 of this Division, with copies of the CE Certificates.

(C) Pay the appropriate fees as specified on the application in accordance with Section 100172 of this Chapter,

(D) Submit to the California DOJ, an applicant fingerprint card, FD-258 dated 5/11/99 or a Request for Live Scan Service Form, BCII 8016 (Revised 05/2018), for a state criminal history record provided by the DOJ in accordance with the provisions of Section 11105 et seq. of the Penal Code

(E) Submit a signed and completed Reinstatement Paramedic License Application, lapsed 1 year or more, specified in Section 100164(a)(6)(B),

(F) If an applicant is or was certified/licensed in another state or country, a signed and completed Licensure/Certification Verification, Form #VL-01, 03/2019, shall be submitted to the Authority for each state or country the applicant was licensed/certified.

(4) For a lapse of twenty-four (24) months or more, the individual shall:

(A) Provide documentation of passing the licensure examinations within the past two (2) years as specified in Sections 100140 and 100141 or provide documentation of a current paramedic registration issued by the NREMT.

(B) Pay the appropriate fees as specified on the application in accordance with Section 100172 of this Chapter.

(C) Submit to the California DOJ an applicant fingerprint card, FD-258 dated 5/11/99 or a Request for Live Scan Service Form, BCII 8016 (Rev 05/2018), for a state criminal history record provided by the DOJ in accordance with the provisions of Section 11105 et seq. of the Penal Code.

(D) Submit a signed and completed Reinstatement Paramedic License Application, lapsed 1 year or more, specified in Section 100164(a)(6)(B).

(E) Documentation of seventy-two (72) hours of CE that shall include completion of the following courses, or their equivalent:

1. Advanced Cardiac Life Support,
2. Pediatric Advanced Life Support,
3. Prehospital Trauma Life Support or International Trauma Life Support,
4. CPR.

(F) If an applicant is or was certified/licensed in another state or country, a signed and completed Licensure/Certification Verification, Form #VL-01, 03/2019, shall be submitted to the Authority for each state or country the applicant was licensed/certified.

(c) Renewal of a license shall be for two (2) years. If the renewal requirements are met within six (6) months prior to the expiration date of the current license, the effective date of licensure shall be the first day after the expiration of the current license. This applies only to individuals who have not had a lapse in licensure.

(d) Reinstated licenses shall be valid for a period of two (2) years beginning on the date of issuance through the last day of the approved month in the second year.

(e) Within forty-five (45) calendar days of receiving the application, the Authority shall notify the applicant that the application has been approved or specify what information, if any, is missing.

(f) An individual, who is a member of the Armed Forces of the United States, whose paramedic license expires during the time the individual is on active duty or license expires less than six (6) months from the date the individual is deactivated/released from active duty, has an additional six (6) months to comply with the following CE requirements and the late renewal fee is waived upon compliance with the following provisions:

(1) Provide documentation from the respective branch of the Armed Forces of the United States verifying the individual's dates of activation and deactivation/release from active duty.

(2) Meet the requirements of Section 100167(a)(2) through (a)(5) of this Chapter, except the individual will not be subject to the \$50 late renewal application fee specified in Section 100172(b)(4).

(3) Provide documentation showing the CEs were received no sooner than 30 days prior to the effective date of the individual's paramedic license that was valid when the individual was activated for active duty and not later than six months from the date of deactivation/release from active duty.

(A) Individuals whose active duty required them to use their paramedic skills may be given credit for documented training that meets the requirements of Chapter 11, EMS Continuing Education Regulations (California Code of Regulations, Title 22, Division 9). The documentation shall include verification from the individual's Commanding Officer attesting to the classes attended.

Note: Authority cited: Sections 1797.107, 1797.172, 1797.175, 1797.185 and 1797.194, Health and Safety Code. Reference: Sections 1797.63, 1797.172, 1797.175, 1797.185, 1797.194 and 1797.210, Health and Safety Code; and Section 101, Chapter 1, Part 1, Subtitle A, Title 10, United States Code.

### **§ 100172. Fees.**

(a) A LEMSA may establish a schedule of fees for paramedic training program review and approval, CE provider approval, and paramedic accreditation in an amount sufficient to cover the reasonable cost of complying with the provisions of this Chapter.

(b) The following are the nonrefundable licensing fees established by the Authority:

(1) The Initial In-State Paramedic License application fee is three hundred sixty five ~~shall be two hundred fifty (\$365250)~~ dollars.

~~(A) Effective July 1, 2020 through June 30, 2021, the Initial In-State Paramedic License application fee shall be two hundred seventy-five (\$275) dollars.~~

~~(B) Effective July 1, 2021 and thereafter the Initial In-State Paramedic License application fee shall be three hundred (\$300) dollars.~~

(2) The Initial Out-of-State Paramedic License application fee is four hundred fifteen ~~shall be three hundred (\$415300)~~ dollars.

~~(A) Effective July 1, 2020 through June 30, 2021, the Initial Out-of-State Paramedic License application fee shall be three hundred twenty five (\$325) dollars.~~

~~(B) Effective July 1, 2021 and thereafter the Initial Out-of-State Paramedic License application fee shall be three hundred fifty (\$350) dollars.~~

(3) The Renewal Paramedic License application fee received at least thirty (30) days prior to expiration of the current license, as specified in 100164(b) of this Chapter, is three hundred fifteen shall be two hundred dollars (\$315200) dollars.

~~(A) Effective July 1, 2020 through June 30, 2021, the Renewal Paramedic License application fee received at least thirty (30) days prior to expiration of the current license, as specified in 100164(b) of this Chapter, shall be two hundred twenty-five (\$225) dollars.~~

~~(B) Effective July 1, 2021 and thereafter the Renewal Paramedic License application fee received at least thirty (30) days prior to expiration of the current license, as specified in 100164(b) of this Chapter, shall be two hundred fifty (\$250) dollars.~~

(4) The fee for failing to submit a complete application for renewal, as specified in Section 100164(e), within the timeframe specified in Section 100164(b) is shall ~~be a late fee in the amount of fifty dollars (\$50.00).~~

(5) The fee for state and criminal history records shall be in accordance with the schedule of fees established by the California DOJ and the Federal Bureau of Investigations.

(6) The fee for a duplicate or replacement of a license is shall be ~~ten dollars (\$10).~~

(7) The fee for approval and re-approval of a CE provider is shall be ~~two thousand five hundred (\$2,500) dollars.~~

~~(8) The fee for administration of the provisions of Section 17520 of the Family Code shall be five dollars (\$5); which is incorporated into the fees specified commencing with Section 100172(b)(1).~~

~~(98) The Reinstatement Paramedic License Application fee is three hundred sixty five shall be two hundred fifty dollars (\$365250) dollars.~~

~~(A) Effective July 1, 2020 through June 30, 2021, the Reinstatement Paramedic License Application fee shall be two hundred seventy-five (\$275) dollars.~~

~~(B) Effective July 1, 2021 and thereafter the Reinstatement Paramedic License Application fee shall be three hundred (\$300) dollars.~~

~~(109) The Initial Challenge Paramedic License Application fee is four hundred fifteen shall be three hundred dollars (\$415~~300~~) dollars.~~

~~(A) Effective July 1, 2020 through June 30, 2021, the Initial Challenge Paramedic License Application fee shall be three hundred twenty-five (\$325) dollars.~~

~~(B) Effective July 1, 2021 and thereafter the Initial Challenge Paramedic License Application fee shall be three hundred fifty (\$350) dollars.~~

~~(110) The fee for dishonored returned checks is shall be twenty-five dollars (\$25).~~

Note: Authority cited: Sections 1797.107, 1797.112, 1797.172, 1797.185 and 1797.212, Health and Safety Code. Reference: Sections 1797.172, 1797.185 and 1797.212, Health and Safety Code; Section 11105, Penal Code; and Section 1719, Civil Code.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

ITEM NUMBER: 7A

SUBJECT: Ambulance Patient Offload Time (APOT) Report

PRESENTER: Tom McGinnis  
EMS Systems Division Chief

CONSENT: \_\_\_\_

ACTION: \_\_\_\_

INFORMATION: X

---

**RECOMMENDATION**

No Action Recommended.

**FISCAL IMPACT**

No Fiscal Impact.

**DISCUSSION****APOT Advisory Committee Recommendation Update**

The mission of the APOT Committee was to develop advisory recommendations, including legislative or regulatory changes, if necessary that will assist in the preservation of the EMS system and protection of California's healthcare consumers through the identification and sharing of successful pre-hospital and hospital system efficiencies that reduce or eliminate ambulance patient offload delays in the transfer of care from EMS ambulance personnel to receiving hospital emergency medical personnel.

The APOT Committee adjusted their meeting schedule to meet twice a month, rather than the previous schedule of once per month. The APOT Committee has held 10 meetings. The Committee continues to move toward the goal of developing two sets of recommendations: one set for the Emergency Medical

Services System and one set for the Hospital System. This committee concluded on June 30, 2022.

The final recommendation deliverable was presented to the EMS Commission and, where appropriate and practical, all recommendations will be acted upon in a timely manner.

### **LEMSA APOT Reporting**

The included report to the EMS Commission covers one year of retrospective APOT information provided by LEMSAs between quarter 3 of 2021 and quarter 3 of 2022. The EMS Authority continues to collect and analyze APOT submissions from participating LEMSAs. The current submission status beginning quarter 3 of 2019 through quarter 3 of 2022 for each LEMSA can be found below.

### **2023 EMSA APOT Reporting**

On July 20, 2022, the EMS Authority notified all LEMSAs of upcoming changes to APOT reporting for the 2023 calendar year. Beginning January 1, 2023, the EMS Authority will begin solely using California Emergency Medical Services Information System (CEMSIS) data to run APOT reports. This reporting will take place at the conclusion of quarter 1 of 2023 covering January – March 2023. Until the reporting shift takes place, the EMS Authority has asked LEMSAs to continue to provide their APOT reports for quarter 3 and quarter 4 of 2022. The EMS Authority will continue to develop and provide quarterly comparisons to LEMSAs for data validation and quality assurance.

### **Fall 2022 APOT Specification Update**

At the advisement of the Executive Data Advisory Committee, the EMS Authority updated the APOT-1 and APOT-2 specifications to better capture the electronic EMS records impacted by ambulance patient offload times. On October 20, 2022, the EMS Authority notified all LEMSAs of changes to the APOT specifications. The EMS Authority has instructed all LEMSAs to utilize the updated specifications and accompanying reporting template for their quarter 4 of 2022 reports. The EMS Authority will continue to use the updated specification for APOT reporting from CEMSIS in 2023 and as the foundation of future specification when California transitions to NEMSIS 3.5 later in 2023. The memo, updated specification, and reporting template are available on the EMS Authority's website and [www.emsa.ca.gov/apot](http://www.emsa.ca.gov/apot).

## APOT – 1 Weighted Average 90th Percentile by LEMSA and Hospital

\* EMSA calculates the weighted average for a data set by multiplying the reported 90th percentile time for a hospital by the number of offloads to that facility (all transports hold the same value or "weight"). This value is then divided by the total count of offloads for that data set period to determine a single weighted average value. This approach gives EMSA the opportunity to compare APOT times within a jurisdiction (to calculate a single monthly APOT value for a LEMSA), across the state, or across multiple months and quarters.

LEMSA	Hospital Name (as reported by LEMSA)	Q3 2021 - Q2 2022 Total Offloads	Q3 2021 - Q2 2022 Weighted Average 90th Percentile

\* EMSA calculates the weighted average for a data set by multiplying the reported 90th percentile time for a hospital by the number of offloads to that facility (all transports hold the same value or "weight"). This value is then divided by the total count of offloads for that data set period to determine a single weighted average value. This approach gives EMSA the opportunity to compare APOT times within a jurisdiction (to calculate a single monthly APOT value for a LEMSAs), across the state, or across multiple months and quarters.

## APOT – 2 Offload Averages

\*The Lowest Estimated Monthly Hours of Delay (20 Minutes or Greater) is calculated by multiplying the monthly average offload in each time interval (excluding <20 Minutes) by the lowest minute threshold of each interval.

The Sum of:

Monthly Average Offloads 20-60 Minutes multiplied by 20 minutes  
 Monthly Average Offloads 60-120 Minutes multiplied by 60 minutes  
 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

LEMSA	Hospital Name (as reported by LEMSA)	Months Represented	Total Offloads <20 Minutes	Total Offloads 20-60 Minutes	Total Offloads 60-120 Minutes	Total Offloads 120-180 Minutes	Total Offloads >180 Minutes	Monthly Average Offloads <20 Minutes	Monthly Average Offloads 20-60 Minutes	Monthly Average Offloads 60-120 Minutes	Monthly Average Offloads 120-180 Minutes	Monthly Average Offloads >180 Minutes	Lowest Estimated Monthly Hours of Delay (20 minutes or greater)

\*The Lowest Estimated Monthly Hours of Delay (20 Minutes or Greater) is calculated by multiplying the monthly average offload in each time interval (excluding <20 Minutes) by the lowest minute threshold of each interval.

The Sum of:

Monthly Average Offloads 20-60 Minutes multiplied by 20 minutes  
 Monthly Average Offloads 60-120 Minutes multiplied by 60 minutes  
 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

\*The Lowest Estimated Monthly Hours of Delay (20 Minutes or Greater) is calculated by multiplying the monthly average offload in each time interval (excluding <20 Minutes) by the lowest minute threshold of each interval.

The Sum of:

Monthly Average Offloads 20-60 Minutes multiplied by 20 minutes  
 Monthly Average Offloads 60-120 Minutes multiplied by 60 minutes  
 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

\*The Lowest Estimated Monthly Hours of Delay (20 Minutes or Greater) is calculated by multiplying the monthly average offload in each time interval (excluding <20 Minutes) by the lowest minute threshold of each interval.

The Sum of:

Monthly Average Offloads 20-60 Minutes multiplied by 20 minutes  
 Monthly Average Offloads 60-120 Minutes multiplied by 60 minutes  
 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

\*The Lowest Estimated Monthly Hours of Delay (20 Minutes or Greater) is calculated by multiplying the monthly average offload in each time interval (excluding <20 Minutes) by the lowest minute threshold of each interval.

The Sum of:

Monthly Average Offloads 20-60 Minutes multiplied by 20 minutes  
 Monthly Average Offloads 60-120 Minutes multiplied by 60 minutes  
 Monthly Average Offloads 120-180 Minutes multiplied by 120 minutes  
 Monthly Average Offloads >180 Minutes multiplied by 180 minutes.

The total number of minutes is then divided by 60 to determine the Lowest Estimated Monthly Hours of Delay. This is the most conservative estimate of the total hours of delay. This number can be multiplied by the LEMSA's ambulance unit/hour utilization rate to determine the cost to the prehospital setting (or Local EMS System) because of offload delays. A short survey with minimal LEMSA response/participation back in 2019 determined the average was roughly 155/hr.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

ITEM NUMBER: **7B**

SUBJECT: Community Paramedicine Project Update

PRESENTER: Lou Meyer, Community Paramedicine Program  
Manager/ConsultantCONSENT:     ACTION:     INFORMATION: **X**

---

**RECOMMENDATION**

Receive information regarding the Community Paramedicine & Triage to Alternate Destination Program

**FISCAL IMPACT**

EMSA has entered into contracts for both the consultant and the independent evaluator. Local pilot site providers participate with in-kind contributions and any local grants or reimbursement.

**BACKGROUND**

On November 14, 2014, the Office of Statewide Health Planning and Development approved Health Workforce Pilot Project #173, a pilot project to test different concepts for the practice of community paramedicine. On September 25, 2022, Governor Newsom signed into law (AB 1544) the California Community Paramedicine & Triage to Alternate Destination Act of 2020, allowing Local EMS Agencies (LEMSAs) to implement Community Paramedicine and/or Triage to Alternate Destination programs for each of the following concepts:

- Case management services for people who frequently use emergency medical services (EMS)
- Directly observed therapy for tuberculosis
- Collaboration with hospice agency nurses, patients, and family members

to treat patients in their homes according to their wishes instead of transporting them to an Emergency Department (ED)

- Offering people who have mental health needs, but no acute medical needs, transport directly to a mental health crisis center instead of to an ED
- Offering people who are inebriated transport to a sobering center instead of to an ED
- Establishing Veteran Hospitals as Alternate Destination Facilities

On June 15, 2022, regulations necessary to implement AB 1544 were presented to and approved by the EMS Commission following the required Public Comment Periods, and then forwarded to the Office of Administrative Law (OAL) for final approval.

## **SUMMARY**

Following review, OAL required certain technical or non-substantive edits be made to the regulations.

While these changes did not require an additional comment period, Director Basnett, in keeping with her open stakeholder engagement philosophy, requested that EMSA once again initiate a 15-day Public Comment Period.

Comments received by six stakeholder groups were reviewed. A few of the stakeholders requested clarification on whether the current approved Pilot Projects would be able to continue for up to one year as previously stated in Section 100190(f) of the regulations. This section was deleted at the suggestion of OAL as the authorization to operate for until one year after regulation development is clearly articulated in statute and should not be repeated in regulation.

Following the 15-day Public Comment Period, the Order of Adoption was once again presented to the EMS Commission for their review and approval on October 13, 2022, and then forwarded to OAL for their final review and approval. OAL approved the regulatory package on October 31, 2022, with an effective date of November 1, 2022.

## **DISCUSSION**

To assist LEMSAs in the implementation of Community Paramedicine & Triage to Alternate Destination programs in their areas, EMSA, in collaboration with the Community Paramedicine Program Manager/Consultant and stakeholder groups, has disseminated a "Tool Kit" to assist LEMSAs and providers with

Commission on Emergency Medical Services

June 15, 2022

Item #7B

Page 3

preparing their individual programs and submission of their EMS Plan Amendment.

To provide education on the newly adopted regulations and EMSA's approval process, two educational workshops have been scheduled to be held in December at two separate locations in California.

1. The first workshop will be held on Thursday, December 8<sup>th</sup>, 2022, at the Holiday Inn San Diego – Bayside (4875 North Harbor Drive, San Diego, CA 92106) from 10 am to 2 pm.
2. The second workshop will be held on Thursday, December 15<sup>th</sup>, 2022, in Berkeley, California, at the Brower Center (2150 Allston Way, Berkeley, CA, 94704) from 10 am to 2 pm.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022,

**ITEM NUMBER: 8A**

SUBJECT: Naloxone Distribution

PRESENTER: Hernando Garzon, MD  
Medical Director, California EMS Authority

CONSENT: ☐ACTION: ☐INFORMATION: ☒**RECOMMENDATION**

Receive information.

**FISCAL IMPACT**

None.

**DISCUSSION**

At the October 2022 Special Commission on EMS meeting, a discussion yielded requests for EMSA to provide a report on Naloxone Distortion. Dr. Garzon will be providing a report responsive to the October request.

# Naloxone Distribution

EMSA Report for EMS Commission

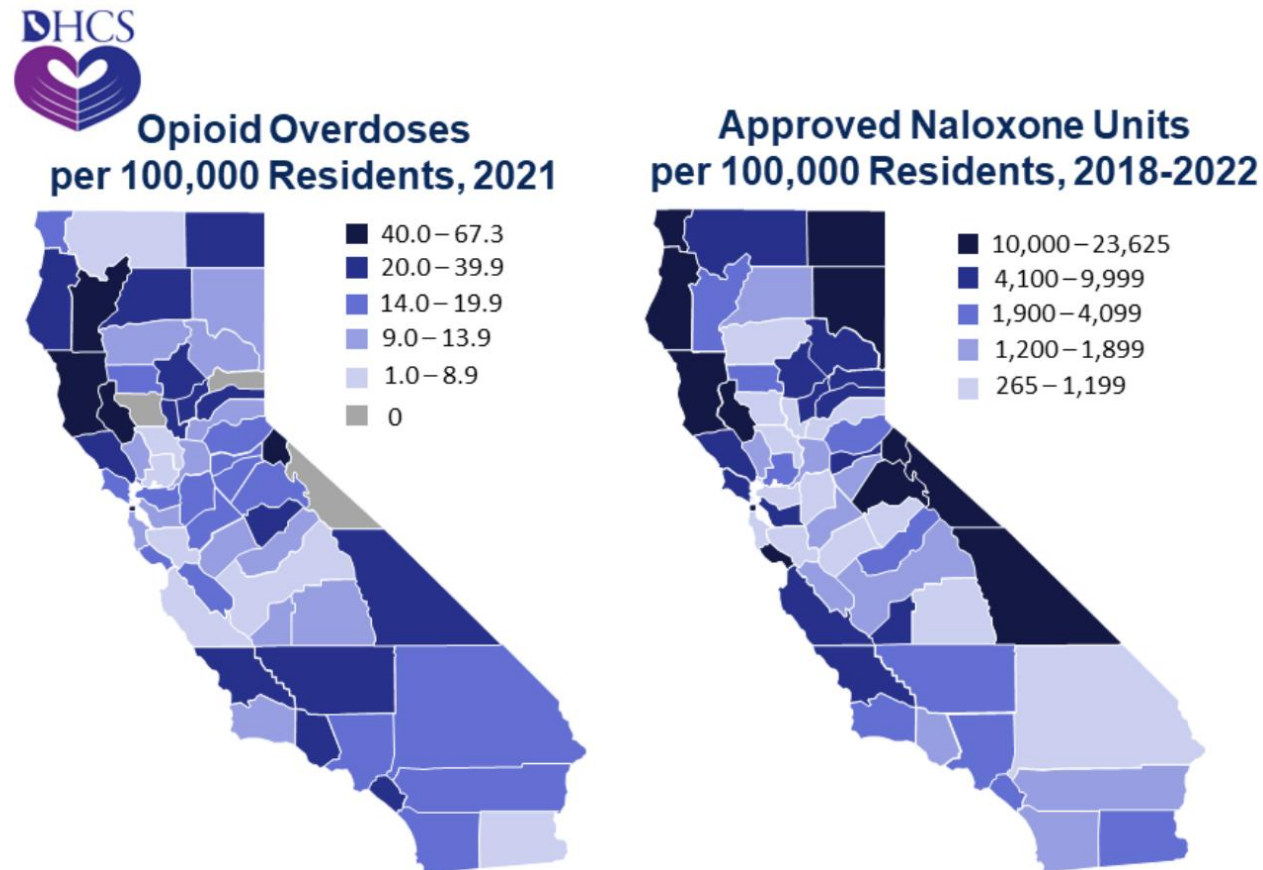

December 2022

# DHCS Naloxone Distribution Project

- In 2018, DHCS created the Naloxone Distribution Project (NDP) using SAMHSA funding
- The NDP provides free naloxone *directly* to applicants to remove barriers in redistribution, avoid duplication and to track reported overdose reversals
- Since 2018, the NDP has spent \$104,079,360 on naloxone for distribution to communities in California with **over 100,000 reported overdose reversals**
- Eligible Organization Type:
  - First responders, fire, EMS
  - Law enforcement, courts, & criminal justice partners
  - Community organizations, Harm reduction organizations, homeless programs, veteran organizations, religious organizations
  - Schools, universities, libraries
  - County public health or behavioral health agencies
  - Substance Use Recovery Facilities
  - Hospitals and Emergency Departments

[https://www.dhcs.ca.gov/individuals/Pages/Naloxone\\_Distribution\\_Project.aspx](https://www.dhcs.ca.gov/individuals/Pages/Naloxone_Distribution_Project.aspx)

# Opioid Overdoses and Approved Naloxone by County

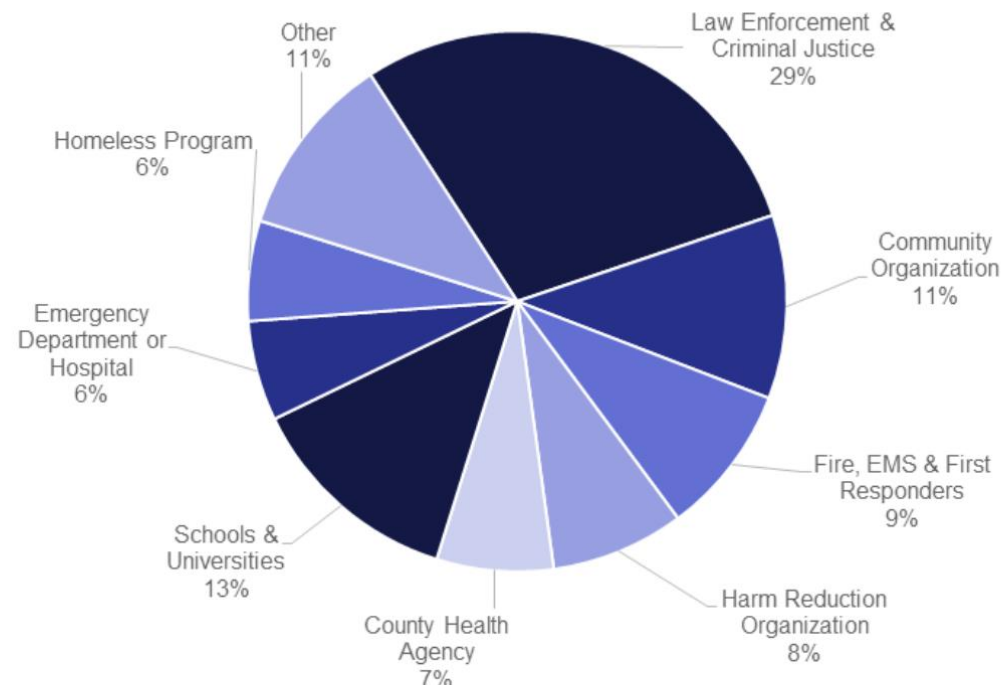

SOURCES: Any Opioid-Related Overdose Deaths—California Department of Public Health, "California Opioid Overdose Surveillance Dashboard"; accessed October 2022. Population data - State of California Department of Finance, "E-1 Cities, Counties, and the State Population Estimates with Annual Percent Change—January 1, 2021 and 2022"; accessed October 2022. Naloxone units as of November 4, 2022.

# NDP Applications by Type of Organization

## NDP Applications by Type of Organization

**Approved Applications: 5,920**

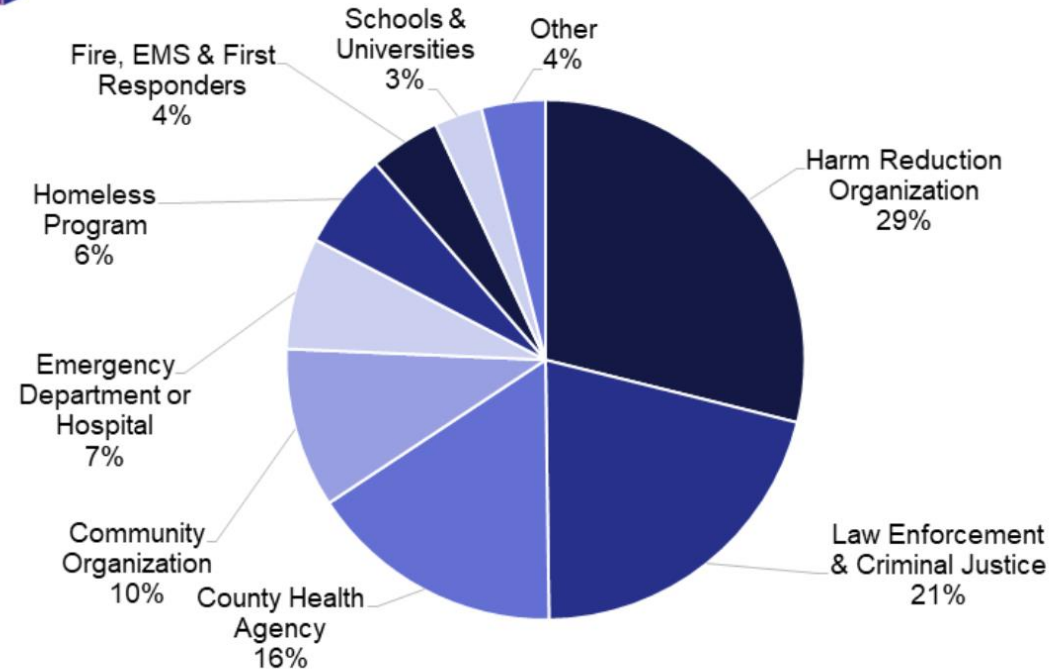

NOTE: Approved applications as of November 4, 2022.

Other category includes: Tribal entities, SUD treatment facilities, libraries, veteran's organizations, religious entities, and state agencies.

# Naloxone Units by Type of Organization

## Naloxone Units by Type of Organization

Units Approved: 1,564,258

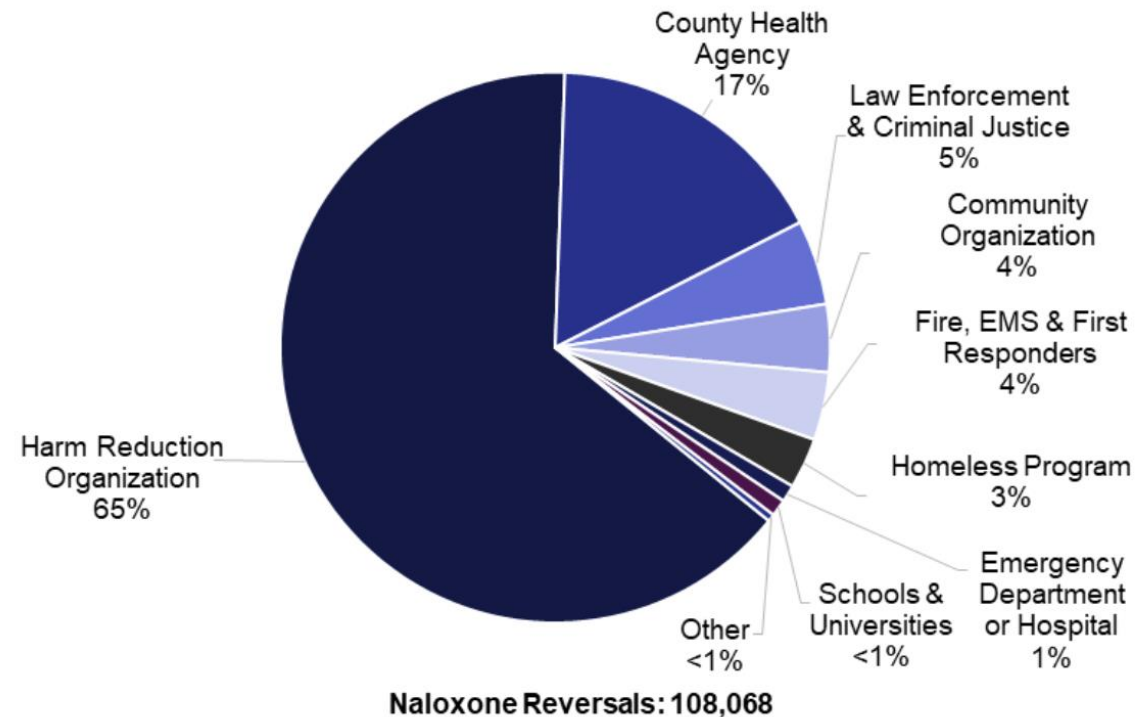

NOTE: Naloxone units as of November 4, 2022.

Other category includes: SUD treatment facilities, libraries, veteran's organizations, religious entities, and state agencies.

# Reported Naloxone Reversal by Type of Organization

## Reported Naloxone Reversals by Type of Organization

NOTE: Reported naloxone reversals as of November 4, 2022.

Other category includes: SUD treatment facilities, libraries, veteran's organizations, religious entities, and state agencies.

# NDP

- In the past year, significant increase in applications for the NDP due to messaging and increasing program awareness, which has outpaced available funding
- **Prioritization**
  - Per GO focus on youth, DHCS has recently prioritized schools for NDP distribution (recent spike in ODs)
- **Redistribution**
  - NDP requests that recipients with nearly expiring naloxone redistribute to local harm reduction organizations

# Other Sources of Naloxone

- The NDP is not the sole or primary source for naloxone in California.
- Naloxone is available to all Medi-Cal beneficiaries with a prescription, and many other sources of health coverage also cover naloxone
- Community pharmacists can also directly prescribe and furnish naloxone.
- DHCS released guidance to educate DMC-ODS providers and beneficiaries to leverage Medi-Cal to prescribe naloxone and facilitate onsite dispensing (more effective than providing a prescription to be filled at a pharmacy).
- Counties have federal SAMHSA grant funding available to provide naloxone.
- Counties and cities have opioid settlement funding that can be used to provide naloxone.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

**ITEM NUMBER: 8B**

SUBJECT: Update on Framework for Behavioral Health Crisis Response

PRESENTER: Ken Miller MD PhD  
EMS Commissioner  
Chair, EMDAC Scope of Practice Committee

CONSENT: \_\_\_\_ ACTION: \_\_\_\_ INFORMATION:  X **RECOMMENDATION**

Receive information on the progress of the EMS Medical Directors Association of California Scope of Practice Committee on the development of a framework for local EMS agency policies or protocols in the response to and management of behavioral emergencies.

**FISCAL IMPACT**

None.

**BACKGROUND**

At the request of the Commission on EMS, the EMDAC Scope of Practice Committee reviewed Local EMS Agency policies and protocols on behavioral crisis management. From that review the Committee will propose a framework to inform future EMS policy and protocol development.

**SUMMARY**

Behavioral crisis management is an ever-increasing mission within EMS systems in California and nationwide. Compassionate yet evidence-based or evidence-informed policy and protocol develop is essential. Reviewing the existing practices in behavioral crisis management among local EMS agencies in California has revealed insights that should inform future policy and protocol

development. The EMDAC Scope of Practice Committee, a statutory committee that reviews local optional scope of practice protocol proposals submitted by local EMS agencies, is the group that blends the available science with operational feasibility of EMS field clinical practice in California. The Scope of Practice Committee then recommends actions on those proposals to the CA EMS Authority.

**DISCUSSION**

None.

**ATTACHMENT(S)**

None.

---

**RECOMMENDATION**

Receive information on the LOSOP for paramedic vaccination provision and select viral testing.

**FISCAL IMPACT**

No fiscal impact.

**BACKGROUND**

On October 17, 2022, Governor Gavin Newsom announced the COVID-19 State of Emergency will end on February 28, 2023, terminating the Director of the California Emergency Medical Services Authority (EMSA) remaining emergency medical service (EMS) personnel scope of practice waivers and authorizations to treat patients impacted by COVID-19. Effective March 1, 2023, emergency medical technicians (EMTs), advanced emergency medical technicians (AEMTs), and paramedics shall resume adherence to Chapter 2, 3 and 4 of Division 2.5 of the California Health and Safety Code (HSC).

**SUMMARY**

The following summarizes the conditions in which EMTs, AEMTs, and paramedics may be authorized to perform their scope of practice in support of continued

COVID-19 (including Influenza and Monkeypox) prevention and response post COVID-19 State of Emergency.

EMTs are authorized to do the following during training, while at the scene of an emergency, during transport of the sick or injured, or during interfacility transfer, with LEMSA accreditation:

- Provide COVID-19, Influenza and Monkeypox vaccinations to all persons 6 months of age and older based on U.S. Center for Disease Control and Prevention ([CDC](#)) and U.S. Food and Drug Administration ([FDA](#)) guidelines.
  - LEMSAs shall have policies in place to ensure only paramedics or healthcare workers with a higher scope of practice are responsible for preparing vaccines for administration.
- Conduct oropharyngeal and/or nasopharyngeal COVID-19 and Influenza testing.

AEMTs, as part of an organized EMS system, while caring for patients in a hospital as part of their continuing education, under the direct supervision of a Physician or Registered Nurse, or while at the scene of a medical emergency or during transport, or during interfacility transfer, with LEMSA accreditation are authorized to do the following:

- Provide COVID-19, Influenza and Monkeypox vaccinations to all persons 6 months of age and older based on U.S. Center for Disease Control and Prevention ([CDC](#)) and U.S. Food and Drug Administration ([FDA](#)) guidelines.
  - LEMSAs shall have policies in place to ensure only paramedics or healthcare workers with a higher scope of practice are responsible for preparing vaccines for administration.
- Conduct oropharyngeal and/or nasopharyngeal COVID-19 and Influenza testing.

Paramedics, as part of an organized EMS system, while caring for patients in a hospital as part of his/her continuing education under the direct supervision of a physician, registered nurse, or physician assistant, or while at the scene of a medical emergency or during transport, or during interfacility transfer, or while working in a small and rural hospital pursuant to 1797.195 HSC *with LEMSA medical director and Director of EMSA in consultation with the Emergency Medical Services Medical Directors Association of California's Scope of Practice Committee local optional scope of practice approval* are authorized to do the following:

- Conduct oropharyngeal and/or nasopharyngeal COVID-19 and Influenza testing.
- Provide COVID-19, Influenza and Monkeypox vaccinations.
- Conduct Monoclonal Antibody administrations and/or monitoring.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

ITEM NUMBER: 10A

SUBJECT: State Medical Response Update

PRESENTER: Craig Johnson, Chief, Disaster Medical Services Division

CONSENT: \_\_\_\_ ACTION: \_\_\_\_ INFORMATION: X

---

**FISCAL IMPACT**

None.

**BACKGROUND**

Over the past couple of years, EMSA, in collaboration with local, state, and federal partners, engaged in COVID-19 response activities to provide statewide medical support for victims and mitigate the impact of the multiple COVID surges. Having experienced marked improvement in COVID cases, our current efforts have shifted from COVID response to monitoring and recovery, while maintaining a response capability pending the severity of a potential winter COVID-19 surge.

In the past 6 weeks we have been experiencing an alarming increase in hospitalizations among children, driven by Respiratory Syncytial Virus (RSV) and influenza in infants and young children. The number of RSV cases, coupled with influenza season concerns and reversing COVID trends, are stressing the pediatric healthcare delivery system.

Based on the current Ebola Viral Disease (EVD) outbreak in Uganda, and the CDC's efforts to screen returning travelers are certain key airports for EVD, EMSA is also working with state and local partners to increase preparedness for the possibility of an Ebola Person Under Investigation (PUI) entering California.

## **SUMMARY**

### Pediatric Surge:

On November 16, 2022, CDPH, Emergency Medical Services Authority (EMSA), and the Department of Healthcare Services activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) to support the RSV impact on the healthcare delivery system. Additionally, the State has established a Technical Assistance Team for Pediatric Surge. The team includes state and local medical and health partners and is formed to ensure medical facilities are aware of the pediatric resources available and the process to acquire them.

### Current priorities:

- Maintaining situational awareness of pediatric surge concerns and issues throughout the state.
- Working with the Regional Disaster Medical Health Specialists (RDMHS) to ensure regional preparedness.
- Working with medical facilities to increase available bed space for pediatric patients.
- Supporting patient movement/transfers.
- Assisting with medical equipment/supply needs.

### Ebola Viral Disease (EBD):

EMSA is also working with state and local medical and health partners to prepare for the possibility of supporting Ebola PULs entering California.

### Current efforts:

- Discussed the FEMA Region 9 Ebola and Special Pathogens Transportation Plan with the RDMHSs and asked them to review the plan with regional partners.
- Coordinating with RDMHSs and Local Health Jurisdictions to develop a regional approach for assessment and transport.
- Working with regional and local partners to assess transport capabilities for Ebola Virus Disease (EVD) patients.
- Advised EMS Agency Administrators and Medical Directors to review, update, and implement as necessary past Ebola and emerging infectious disease policies and protocols.
- Coordinating with CDPH and local partners to develop strategies for at-home patient assessment and regional transport.
- Coordinating with ASPR to request Phoenix Air support for fixed-wing transports as needed.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

**ITEM NUMBER: 11**

SUBJECT: Open Nominations for Election of Officers (March 2023 – March 2024)

PRESENTER: Atilla Uner, MD  
Chair, Commission on EMSCONSENT: \_\_\_\_ ACTION:  X  INFORMATION: \_\_\_\_

---

**RECOMMENDATION**

Open nominations for Commission Officers for March 2023 – March 2024.

**FISCAL IMPACT**

No fiscal impact.

**DISCUSSION**

Nominations for Commission Officers are opened at the last Commission meeting of the year, and the election is held at the first meeting of the following year.

The Commission will need to nominate a new Chair as Commissioner Uner has served two consecutive one-year terms as the Chair. Per the Commission on EMS By-Laws, the Chair can only serve two consecutive one-year terms.

Per the Commission on EMS By-Laws, all Commission Officers are eligible for re-election except the immediate past chair who is automatically a member of the Administrative Committee.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 14, 2022

ITEM NUMBER: 12

SUBJECT: Approval of 2024 Meeting Dates

PRESENTER: Atilla Uner, MD  
Chair, Commission on EMS

CONSENT: \_\_\_\_

ACTION: X

INFORMATION: \_\_\_\_

**RECOMMENDATION**

Approve the proposed meeting dated for Calendar Year 2024.

**FISCAL IMPACT**

The estimated cost of four in-person meetings per year is approximately \$58,000.

**DISCUSSION**

At the December 6, 2006 Commission on EMS Meeting, the Commission approved scheduling the meetings two years in advance.

The 2024 meeting dates are scheduled to be held in person.

The following meeting dates and locations were approved on December 8, 2021, for calendar year 2023:

Calendar Year 2023:

March 15, 2023, in Garden Grove

June 14, 2023, in Sacramento

September 20, 2023, in San Diego

December 13, 2023, in Oakland

The proposed meeting dates and locations for Calendar Year 2024 are:

Calendar Year 2024:

March 13, 2024, in Garden Grove

June 12, 2024, in Sacramento

September 28, 2024, in San Diego

December 11, 2024, in San Francisco

The Emergency Medical Services Medical Directors Association of California (EMDAC) and the Emergency Medical Services Administrators Association of California (EMSAAC) hold their meetings the day before the Commission meetings.

The EMS Authority has not contracted for meeting rooms for the 2024 Commission meetings.

**EMERGENCY MEDICAL SERVICES AUTHORITY**

ACTION: X

INFORMATION: \_\_\_\_

---

**RECOMMENDATION**

Approve the proposed meeting location change for the 2023 December Commission.

**FISCAL IMPACT**

None

**DISCUSSION**

The following meeting dates and locations were approved on December 8, 2021, for calendar year 2023:

Calendar Year 2023:

March 15, 2023, in Garden Grove  
June 14, 2023, in Sacramento  
September 20, 2023, in San Diego  
December 13, 2023, in Oakland

We have received requests for the December 13, 2023 meeting location to be changed from Oakland to San Francisco.

The Emergency Medical Services Medical Directors Association of California (EMDAC) and the Emergency Medical Services Administrators Association of California (EMSAAC) hold their meetings the day before the Commission meetings.

The EMS Authority is in the process of establishing meeting sites for all of the 2023 meeting locations. The Commission will be kept informed of meeting sites as they are confirmed.
