

**California Emergency Medical Services Authority**  
Designated Trauma Centers  
Updated 5/7/2025

**Disclosure:** The California Emergency Medical Services Authority (EMSA) does not assign trauma center designations. Rather, Local Emergency Medical Services Agencies (LEMSAs) report trauma center levels to EMSA. In accordance with state regulations, A LEMSAs may designate the level of a trauma center, or they may obtain verification through the American College of Surgeons (ACS). Adult trauma centers are categorized as Level I, II, III, or IV, while pediatric trauma centers are designated as Level I or II.
