**Summary:**

Current law requires a county to enter into a written agreement with a city or fire district that contracted for or provided prehospital EMS as of June 1, 1980. Current law requires, until that written agreement is reached, prehospital EMS to be continued at not less than the existing level and the administration of prehospital EMS by cities and fire districts contracting for or providing those services as of June 1, 1980, to be retained by those cities and fire districts. This bill would require a city to be treated as if it had retained its authorities regarding, and the administration of, prehospital EMS if specified requirements are met. If a joint powers agreement regarding prehospital EMS was initially executed on or after January 1, 2024, 2025, the bill would ensure a city or fire district retains its existing authorities regarding, and the administration of, prehospital EMS. The bill would set various conditions for a joint powers agreement, including, among other things, requiring uniform operational procedures for prehospital EMS throughout the EMS area or subarea covered by the agreement.

**Summary:**

Current law requires the Emergency Medical Services Authority to develop planning and implementation guidelines that address designated components for emergency medical services systems. This bill would require the authority to develop standards, on or before January 1, 2027, for personal protective equipment for ambulance personnel and to update the standards on or before

January 1, 2032, and every 5 years thereafter.

**Summary:**

Under the Emergency Ambulance Employee Safety and Preparedness Act, an initiative measure enacted by the voters as Proposition 11 at the November 6, 2018, statewide general election, every emergency ambulance employee is entitled to employer-paid mental health services through an employee assistance program (EAP), and requires the EAP coverage to provide up to 10 mental health treatments per issue per calendar year. This bill would require an emergency ambulance provider, as defined, to offer to all emergency ambulance employees, upon the employee’s request, peer support services to provide peer representatives who are available to come to the aid of their fellow employees on a broad range of emotional or professional issues. The bill would require a peer support program to be implemented through a labor-management agreement negotiated separately from a collective bargaining agreement covering affected emergency ambulance employees.

**Summary:**

Current law exempts from discovery as evidence the proceedings and records of specified organized committees of health care professionals and review committees having the responsibility of evaluation and improvement of the quality of care. This bill would extend this exemption, for purposes of civil proceedings

only, to the proceedings and records of prehospital emergency medical care person or personnel organized committees and review committees, as described above.

1st House				2nd House				Conc.			

**Summary:**

The California Emergency Services Act authorizes use of the Emergency Alert System to inform the public of local, state, and national emergencies. Current law authorizes a law enforcement agency to request the Department of the California Highway Patrol to activate a “Feather Alert,” as defined, if the law enforcement agency determines that specified criteria are satisfied with respect to an

endangered indigenous person who has been reported missing under unexplained or suspicious circumstances. Current law requires the department, if it concurs that those specified requirements are met, to activate a Feather Alert within the appropriate geographical area requested by the investigating law enforcement agency and to assist the agency by disseminating specified alert messages and signs. Current law requires the department to create and submit a report to the Governor’s office and the Legislature that includes an evaluation of the Feather Alert, as specified. This bill would require the department, in consultation with specified groups including tribal nations, to develop policies and procedures providing instruction specifying how a law enforcement agency and certain entities involved in emergency warnings are required to proceed after a missing person has been reported to a law enforcement agency, as defined, and prescribed conditions are met. The bill would require those policies and procedures to include, among other things, procedures for the transfer of information regarding the missing person and the circumstances surrounding the missing person’s disappearance, as specified. This bill would require the department to respond to a law enforcement agency’s or tribe’s request to activate a Feather Alert within 48 hours of receiving the request.

**Summary:**

Would authorize an emergency medical services (EMS) provider to establish a peer support and crisis referral program to provide a network of peer representatives available to aid fellow employees on emotional or professional issues. The bill would provide that EMS personnel, whether or not a party to an action, have a right to refuse to disclose, and to prevent another from disclosing, a confidential communication between the EMS personnel and a peer support team member, crisis hotline, or crisis referral service, except under limited circumstances, including, among others, if disclosure is reasonably believed to be necessary to prevent death, substantial bodily harm, or commission of a crime, or in a civil or criminal proceeding. The bill would also provide that, except for an

action for medical malpractice, a peer support team member and the EMS provider that employs them are not liable for damages, as specified, relating to an act, error, or omission in performing peer support services, unless the act, error, or omission constitutes gross negligence or intentional misconduct. To be eligible for these confidentiality protections, the bill would require a peer support team member to complete a training course or courses on peer support approved by the EMS provider.

**Summary:**

Current law expresses the intent of the Legislature, for all public schools teaching kindergarten or any of grades 1 to 12, inclusive, that are operated by a school district to develop, in cooperation with identified partners and other persons who may be interested in the prevention of campus crime and violence, a comprehensive school safety plan, as defined. This bill would revise that statement of intent to include local emergency medical services personnel and other persons who may be interested in the health and safety of pupils among the identified cooperating partners, and would revise the definition of “safety plan” for purposes of the statement of intent to expand its scope, as specified.

**Summary:**

Current law, until January 1, 2031, authorizes a local emergency medical services (EMS) agency to develop a community paramedicine or triage to alternate destination program that, among other things, provides case management services to frequent EMS users or triage paramedic assessments, respectively. This bill would require a health care service plan contract or health insurance policy issued, amended, or renewed on or after July 1, 2025, to establish a process to reimburse for services provided by a community paramedicine program, a triage to alternate destination program, and a mobile integrated health program, as defined.
