

**STATE OF CALIFORNIA  
COMMISSION ON EMERGENCY MEDICAL SERVICES  
December 11, 2024  
10:00 A.M. – 1:00 P.M.**

**Location  
Marines Memorial Hotel  
609 Sutter Street  
San Francisco, CA. 94102**

**AGENDA**

- 1. Call to Order and Pledge of Allegiance**
- 2. Review and Approval of September 18, 2024, Minutes**
- 3. Director's Report**
- 4. Consent Calendar**
  - A. Administrative and Personnel Report
  - B. Legal Report
  - C. Enforcement Report
  - D. PDRB Report

**Regular Calendar**

- 5. EMS Administration**
  - A. Legislative Report
  - B. Regulations Update
- 6. EMS Systems**
  - A. Ambulance Patient Offload Time (APOT) report
  - B. Autonomous vehicles and their effects on EMS
  - C. EMS for Children (EMSC) update
- 7. EMS Personnel**
  - A. Statewide Paramedic licensure report
  - B. EMT Denial report
- 8. DMS**
  - A. Fire season deployments
- 9. Nominations of Officers (March 2025-March 2026)**
  - A. Chairperson
  - B. Vice Chairperson
  - C. Two Administrative Committee Representatives
- 10. Approval of Commission Dates for 2026**

## **11. Follow-Up on Previous Items**

- A. PDRB Public Comment Follow Up
- B. Refer to item EMSC update (Item 6C)

## **12. Items for Next Agenda**

## **13. Public Comment**

## **14. Adjournment**

**A full agenda packet will not be provided at the meeting; however, you can print a full packet, including the agenda from the Department's website at [www.emsa.ca.gov](http://www.emsa.ca.gov).** This event will be held in an accessible facility.

Individuals with disabilities requiring auxiliary aids or services to ensure accessibility such as language interpreting, assisted listening device, materials in alternate formats or other accommodation, should contact [j.mcginnis@emsa.ca.gov](mailto:j.mcginnis@emsa.ca.gov), no less than 7 days prior to the meeting.

**STATE OF CALIFORNIA  
COMMISSION ON EMS  
September 18, 2024  
Wyndham San Diego Bayside  
1355 North Harbor Drive  
San Diego, CA 92101**

**MINUTES**

**COMMISSIONERS PRESENT:**

Sean Burrows, Chair, Marc Gautreau, M.D., Vice Chair, Steve Barrow, David Ghilarducci, M.D., Travis Kusman, Julie Marquez, M.D., Ken Miller, M.D., Ph.D., Lori Morgan, M.D., Lamont Nguyen, Masaru "Rusty" Oshita, M.D., Jodie Pierce, James Pierson, Carole Snyder, and Atilla Uner, M.D.

**COMMISSIONERS ABSENT:**

Thomas Giandomenico, Lydia Lam, M.D., Todd Rausser, and Kristin Thompson

**EMS AUTHORITY STAFF PRESENT:**

Elizabeth Basnett, Director  
Hernando Garzon, M.D., Acting Medical Director  
Nicole Mixon, EMS Personnel Standards Unit  
Tim Reed, Chief, Disaster Medical Services Division  
Diane Sabonis, PDRB Special Advisor  
Ashley Williams, Deputy Director of Legislative and External Affairs

**PUBLIC COMMENTORS:**

Mike Noone, Orange County EMS  
Ray Ramirez, California Fire Chiefs Association  
Amanda Ward, Crafton Hills College

**1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE**

Chair Sean Burrows called the meeting to order at 10:00 a.m. Fourteen Commissioners were present. He led the Pledge of Allegiance and reviewed the meeting protocols and meeting agenda.

Chair Burrows introduced Julie Marquez and welcomed her to the Commission.

**2. REVIEW AND APPROVAL OF JUNE 12, 2024, MINUTES**

Commissioner Barrow stated action items and Commissioner questions should be addressed in the following meetings' Director's Reports.

Elizabeth Basnett, Director, stated staff makes note of items that need to be addressed and works with the Administrative Committee to either put requested information on following agendas or send them out by email.

Action: Commissioner Morgan made a motion, seconded by Commissioner Snyder, that:

- *The Commission approves the June 12, 2024, Commission on Emergency Medical Services (EMS) Meeting Minutes as presented.*

Motion carried 12 yes, 0 no, and 1 abstain, per roll call vote as follows:

The following Commissioners voted "Yes": Commissioners Barrow, Ghilarducci, Kusman, Marquez, Miller, Morgan, Nguyen, Oshita, Pierson, Snyder, and Uner, and Vice Chair Gautreau.

The following Commissioner abstained: Commissioner Pierce.

### **3. DIRECTOR'S REPORT**

#### **A. CA EMS System Strategic Plan Update**

Director Basnett stated the strategic planning process was initiated in June of 2022. She provided an overview, with a slide presentation, of the vision and mission statements, guiding principles, and strategic priorities of the California EMS System Strategic Plan for 2023-33. She reviewed the short-, intermediate-, and long-term objectives and tasks that were put in place to accomplish each strategic priority, such as creating definitions for equity, transparency, and resilience, and defining an equity metrics framework. She stated the EMS Authority (EMSA) will be hosting three equity forums across California and a statewide virtual town hall in early 2025 to gather feedback on definitions of equity in EMS and an equity framework assessment.

Director Basnett stated she is committed to updating the strategic plan with the Strategic Planning Advisory Committee and EMS partners every two years.

#### Discussion

Commissioner Barrow asked if Commissioners can attend the Chapter 1 EMSA EMS Policy Advisory Committee (EPAC) meetings.

Director Basnett stated members of the public are not invited to attend Chapter 1 meetings, but Commissioners can attend update meetings for any of the other regulations and the equity forums, as long as no more than two Commissioners are present, as required by the Bagley-Keene Open Meeting Act.

Chair Burrows thanked Director Basnett for the thorough report. He stated appreciation for the work that staff has done on the strategic plan and today's update.

#### 4. CONSENT CALENDAR

##### A. Administrative and Personnel Report

##### B. Legal Report

##### C. Enforcement Report

Chair Burrows asked for a motion to approve the Consent Calendar.

Action: Commissioner Ghilarducci made a motion, seconded by Commissioner Pierson, that:

- *The Commission approves all items on the Consent Calendar as presented.*

Motion carried 14 yes, 0 no, and 0 abstain, per roll call vote as follows:

The following Commissioners voted "Yes": Commissioners Barrow, Ghilarducci, Kusman, Marquez, Miller, Morgan, Nguyen, Oshita, Pierce, Pierson, Snyder, and Uner, Vice Chair Gautreau, and Chair Burrows.

#### REGULAR CALENDAR

#### 5. EMS ADMINISTRATION

##### A. Legislative Report

Ashley Williams, Deputy Director of Legislative and External Affairs, reviewed the EMSA Legislative Update of the bills currently being tracked and analyzed by staff, which was included in the meeting materials and posted on the website.

##### Discussion

Commissioner Uner asked if the EMSA has a position on Proposition 35.

Deputy Director Williams stated it does not.

##### Public Comment

There was no public comment.

##### B. Regulations Update

Deputy Director Williams stated the Regulations update was covered in the Director's Report. She highlighted that the Regulations re-chaptering was approved by the Office of Administrative Law (OAL). The updated Regulations are expected to be published in October of 2024. She noted that a cross-reference of the old and new reference numbers was included in the meeting materials.

##### Discussion

Commissioner Ghilarducci asked if any substantive additional comments were submitted during the public comment period.

Deputy Director Williams stated there were none.

Chair Burrows asked if hospitals have submitted their plans by the deadline as required by Assembly Bill (AB) 40.

Director Basnett stated the EMSA has been receiving submittals from hospitals statewide. Staff is working with the California Hospital Association (CHA) to cross-reference the facilities that should be sending their information to the EMSA.

Commissioner Snyder asked about minutes and sign-in sheets from the AB 40 Work Group meeting.

Director Basnett stated there were no minutes, but the sign-in sheet from the virtual meeting will be shared with Commissioners and Work Group participants.

#### Public Comment

There was no public comment.

### **C. PDRB Report**

Diane Sabonis, Paramedic Disciplinary Review Board (PDRB) Special Advisor, stated she is recruiting to backfill her recently vacated PDRB Attorney position. She provided an overview, with a slide presentation, of the background, criteria for paramedic license revocation, suspension, and probation, revised criteria for consideration, and PDRB changes made to progressive discipline violations. She stated AB 450 mandated the PDRB to develop and implement progressive discipline criteria to aid in making final determinations, and review and revise the criteria for the revocation and suspension of a paramedic license, the probation of EMT-P personnel, and the appeal of a licensure decision by the EMSA to the board so that the criteria are consistent with the above mandates. She noted that the PDRB's highest priority is protection of the public.

Ms. Sabonis stated the PDRB has completed the AB 450 mandate. She stated the PDRB staff and EMSA Regulations team will next update the Recommended Guidelines for Disciplinary Orders and Conditions of Probation with the revised criteria, recommended changes to the progressive discipline, and other revisions as necessary to bring it into compliance with AB 450.

#### Discussion

Commissioner Ghilarducci referred to the yellow text under Item 8 in Slide 7 and stated the previous criterion held that there was an actual or potential harm from an error, omission, or deviation from standard of care. The term "potential" has been removed from the revised criterion; the new standard requires an objective connection between the patient's outcome and that error or omission. He asked if he was interpreting this correctly.

Ms. Sabonis stated she was not present when this criterion was revised. The criterion now limits the consideration to actual harm.

Commissioner Ghilarducci noted for the record that in many cases it is almost impossible to make a direct link between an error in omission and the actual outcome. Sometimes the outcome is preordained. He gave the example of a severe trauma case where survival was not likely either way, but the error or omission certainly did not help with the outcome. Establishing a direct connection can be difficult. He stated the need to consider those factors when reviewing cases.

Ms. Sabonis stated these criteria are now set forth in statute and can only be changed by legislative action. The PDRB and decision makers at the appeal level will use these revised criteria.

Commissioner Ghilarducci referred to the second violation, conviction of any crime, in the list of seven violations on Slide 18 that the PDRB found that the progressive discipline was sufficient to protect the public and asked if there are guidelines on how the PDRB would consider licensure or discipline based on an accusation versus a conviction.

Ms. Sabonis stated this question is more for Enforcement or Legal. She noted that there is a requirement to prove that there is a substantial relationship between the crime and the violation.

Vice Chair Gautreau echoed Commissioner Ghilarducci's concerns with respect to actual versus potential harm. He referred to the recommended discipline on Slide 13, the progressive discipline of the violation of incompetence, and stated concern that removal of the 30-day suspension removes the period of time during which remediation and education can be developed and implemented.

Ms. Sabonis stated an individual on suspension cannot perform their duties as a paramedic. She stated the PDRB struggled with situations where a period of incompetence could be quickly addressed. The Board felt that a 30-day suspension would delay addressing incompetence and that the addition of a three-year probation would allow for protection of the public during the probationer's period of building new skills. She noted that these recommendations will be presented to the Commission for review and approval in the future.

Commissioner Morgan referred to Slides 16 and 17, Unprofessional Conduct, and stated the approach to unprofessional conduct is not commensurate to what other professions do in the state of California. It is disappointingly light.

Commissioner Barrow stated decisions made in the Legislature are not based on knowledge. It is important for professionals to weigh in on standards and guidelines.

Commissioner Barrow spoke against the loss of income during suspensions and stated the need for individuals to continue working while they are being corrected and retrained.

Commissioner Ghilarducci agreed and added the need to consider if the employer is willing to continue to employ that person while they are under suspension. He stated the need to ensure that any suspension or other discipline is directed toward the best outcome for all parties involved.

Commissioner Uner asked who has the burden of proof in cases of actual harm to the patient.

Ms. Sabonis stated the EMSA has the burden of proof.

Commissioner Uner noted that that will be a steep hill to climb.

### Public Comment

Ray Ramirez, California Fire Chiefs Association (CalChiefs), speaking as an individual, asked if the existing Government Code Section 11522 that deals with appeals for licensure actions will be replaced by the new appeals process.

Ms. Sabonis stated the Administrative Procedure Act has a process to address appeals of petitions for reinstatement. She suggested a discussion on this topic at a future meeting.

Mr. Ramirez stated Government Code Section 1799.112 is currently in the immunities section of the EMS Code with the Good Samaritan Act. This is not in the right location and is often overlooked. The notification requirements between the statute and the Act are not synchronized and there are multiple definitions. He stated the need to clarify the trigger events for notification and who the employer is required to notify.

Ms. Sabonis stated she has developed an internal policy to address this issue. She suggested a discussion on this topic at a future meeting.

Chair Burrows asked that these two issues be put on the agenda for the next Commission meeting.

Mike Noone, Orange County EMS, asked about the relationship between the revised language and the EMT-level Model Disciplinary Orders (MDOs) and if they will mirror each other.

Director Basnett stated this is a great question but it cannot be answered today. Disciplinary chapter working groups will need to be set up to look at mirroring and how they interact in the two-tier system.

Ms. Sabonis suggested going to the EMSA website and reviewing by violation how decision makers consider all of these factors to arrive at the right level of progressive discipline.

## 6. EMS SYSTEMS

### A. E-bike Report

Hernando Garzon, Chief Medical Officer, EMSA, stated E-bike injury data from the California EMS Information System (CEMSIS) was agendized per Commissioner request at the June Commission meeting. He noted that the National EMS Information System (NEMSIS) pick list for Mechanism of Injury has 82 options with two pedal cyclist-related items on the list that show up in CEMSIS data, but none of those include a specific E-bike category.

Dr. Garzon stated the EMS Authority conducted a data query in the CEMSIS database for the Cause of Injury data element for all Primary Impressions of Traumatic Injury for the first quarter of 2024, with approximately 150,000 incidents. Since the EMSA has never proposed a standardized pick list for this data element, there were only 471 distinct entries, 320 of which were combinations of multiple causes of injury that were reported in 10 or fewer incidents each.

Dr. Garzon stated E-bike injury categories will be added in the future. He suggested noting E-bike injury categories and working with the data advisory group to select and define a pick list for Mechanism of Injury that can be socialized in the system to hopefully get improved documentation for better results on that and other causes of injury.

#### Discussion

Commissioner Barrow stated E-bikes are one of the top priorities of the state's Unintentional Injury Prevention Strategic Plan coming out in November. He stated the importance of tracking E-bike injuries and whether the individual was wearing a helmet. This information is needed to plan for policy changes in the state to help keep individuals safe, especially children.

Vice Chair Gautreau agreed that this is worth understanding better. Identifying E-bike versus E-scooter, helmet versus no helmet, and even the kind of E-bike often matters because some are more powerful than others. He asked if law enforcement keeps records of types of vehicles involved in accidents.

Commissioner Barrow stated law enforcement does what it can but does not have the right kind of collection instruments in the field.

Commissioner Ghilarducci stated he had asked for this agenda item at the last meeting because many conversations are happening in counties on this issue but the data is incomplete. He stated his organization is getting mostly anecdotal data from the university health center.

Commissioner Kusman stated this is a known problem that needs to be addressed through legislation and education. It is important to begin this work immediately as opposed to waiting to create or fix a data system.

#### Public Comment

There was no public comment.

## **7. EMS PERSONNEL**

### **A. Childcare Provider Training Update**

Nicole Mixon, Manager, Standards and Training Unit, stated this status report on the EMSA Childcare Provider Training Program was requested at the last Commission meeting. She reviewed the background and summary of the program and fiscal impact of sending staff to evaluate training program providers on-site, which was included in the meeting materials. She stated it is anticipated that on-site evaluation would require an additional \$193,000 annually.

#### Discussion

Commissioner Barrow stated he asked for this agenda item at the last meeting because his organization is advocating for additional funding to oversee the training of new childcare providers. There are over 600,000 children in childcare in California and only 60,000 to 70,000 licensed childcare providers. He stated the need for 200,000 trained and licensed childcare providers and the funding to audit that training.

Commissioner Ghilarducci asked if the EMSA has influence on the content of the curriculum.

Ms. Mixon stated it does.

Commissioner Ghilarducci stated many Commissioners saw a compelling presentation yesterday about the benefits of continuous running water for burns. A cumulative 20 minutes of treatment with just running water had much better outcomes. He suggested that this simple intervention be included in the curriculum.

Ms. Mixon agreed.

Director Basnett noted that this would be included in what is now Chapter 2.1 of the Regulations and will be a part of the Chapter 2 update.

Commissioner Barrow stated the EMSA only has authority to do what the Legislature has put into the statute.

#### Public Comment

There was no public comment.

## **B. EMS Awards Video and Open Nominations**

Deputy Director Williams showed a video of the EMSA 2023 EMS Awards. She stated the nominations for the 2024 EMS Awards are now open through January 10, 2025. She asked everyone to review the revised requirements. She stated there is a streamlined nomination process this year where nominations can be submitted electronically through a portal on the EMSA website. Three categories have been added: Paramedic of the Year, Dispatcher of the Year, and Mobile Intensive Care Nurse of the Year.

Deputy Director Williams stated sponsorships are being accepted to support the awards ceremony, which will be held in Southern California in May of 2025

### Discussion

Commissioner Kusman stated he has attended the awards ceremony for the past several years and last year's event was the best so far. He congratulated the team and stated he looks forward to seeing how this year's event might be even better. He encouraged nominating individuals for their years of service and noted that it is an incredible experience to be recognized in this environment.

### Public Comment

Amanda Ward, Crafton Hills College, thanked staff for the work that went into putting on this amazing, beautiful event.

## **8. DMS**

### **A. Fire Updates / CalMAT Deployments**

Tim Reed, Chief, Disaster Medical Services Division, reviewed the 2024 fire season updates, California Medical Assistance Teams (CalMAT) deployments, and Ambulance Strike Team Leader training updates, which were included in the meeting materials. He stated the critical need for adequate staffing and resources to ensure comprehensive emergency medical services during widespread emergencies, and enhanced preparedness and leadership capabilities to ensure effective coordination during emergency response operations.

### Discussion

Vice Chair Gautreau suggested deploying a virtual team to be available by telemedicine as an option for lower-level medical events such as poison oak management in instances where a team cannot be deployed physically due to the lack of personnel.

Commissioner Uner asked if 2024 was the first time that the EMSA had to decline requests for CalMAT deployments.

Chief Reed stated it was not the first time but it was more visible in 2024 due to the increased number of denied requests.

Commissioner Barrow stated there is a bill on the Governor's desk that expands telehealth in rural areas and includes resources through telehealth that may possibly help back up the in-person program. He stated he will send the bill number to staff.

Chair Burrows asked about the limitations and barriers to expanding the program.

Chief Reed stated the two largest limitations are personnel and funding. He stated the need for a funded team of permanent, intermittent employees who will be on call for two weeks out of the year.

Vice Chair Gautreau asked if physicians in training, such as EMS fellows, are qualified to join the CalMAT team.

Dr. Garzon stated only licensed physicians in California can be part of the CalMAT team.

Commissioner Kusman asked if the lead instructors for the Ambulance Strike Team Leader trainings are EMSA staff.

Chief Reed stated they are. Two EMSA staff go out, one at a time, to teach these classes.

#### Public Comment

There was no public comment.

### **9. FOLLOW-UP ON PREVIOUS ITEMS**

Chair Burrows stated presentations on the APOT data by hospital and autonomous vehicles will be heard at the December meeting.

Chair Burrows asked for motions to include additional suggestions for follow-up items.

Action: Commissioner Barrow made a motion, seconded by Commissioner Morgan, that:

- *The Commission approves including an Emergency Medical Services for Children (EMSC) program update at the December Commission meeting.*

Motion carried 14 yes, 0 no, and 0 abstain, per roll call vote as follows:

The following Commissioners voted "Yes": Commissioners Barrow, Ghilarducci, Kusman, Marquez, Miller, Morgan, Nguyen, Oshita, Pierce, Pierson, Snyder, and Uner, Vice Chair Gautreau, and Chair Burrows.

### **10. ITEMS FOR NEXT AGENDA**

Chair Burrows asked Commissioners for suggestions for the next agenda. No items were offered.

## **11. PUBLIC COMMENT**

Mr. Ramirez referred to his earlier comment on the PDRB Report and stated he was not asking for an immediate response. He stated he asked about notification requirements because employers are required to notify the Local EMS Agency (LEMSA) and the EMSA. He shared his personal experience of having three investigations ongoing at the same time. It is important to clarify the process because employers are penalized for non-notification. He suggested developing a flow chart of who is required to do what to help highlight areas of potential conflict.

Mr. Ramirez referred to Commissioner Ghilarducci's suggestion to include the continuous running water intervention for burns in the childcare training materials and suggested updating the EMSA Regulations on required course content for pediatric first aid, which currently includes burn information.

## **12. ADJOURNMENT**

There being no further business, the meeting was adjourned at 12:03 p.m.

**EMERGENCY MEDICAL SERVICES AUTHORITY**

11120 INTERNATIONAL DRIVE  
 2<sup>ND</sup> FLOOR  
 RANCHO CORDOVA, CA 95670  
 (916) 322-4336 FAX (916) 324-2875

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 11, 2024

ITEM NUMBER: 4A

SUBJECT: Administration and Personnel Report

PRESENTER: Craig Johnson, Administration/HR Division Chief

CONSENT:  X ACTION:     INFORMATION:    **RECOMMENDATION**

Receive information on Emergency Medical Services Authority's (EMSA) budget and current staffing levels.

**SUMMARY****EMSA Budget:**

The 2024-25 California State Budget includes \$64.3 million in expenditure authority and 121 positions. Of the amount, \$40.6 million is allocated for state operations, and \$23.7 million is designated for local assistance. Notably, the state operations budget includes a \$9.6 million reappropriation for the Electronic Physician Orders for Life Sustaining Treatment (ePOLST) Registry Project, the Central Registry Replacement, and California Emergency Medical Services Information System (CEMSIS) re-procurement. Additionally, \$2.6 million is allocated to support chaptered bills, including Ambulance Patient Offload Time (AB 40), Community Paramedicine or Triage to Alternate Destination Act (AB 767), Emergency Medical Transportation "No Surprises" Rate Reporting (AB 716), and Emergency Medical Services: Liability Limitation (AB 1376).

As of November 2024, accounting records show that the department has expended or encumbered \$16.1million, or 36.9%, of all available expenditure authority. This includes \$12.6 million, or 39.2%, of state operations expenditure authority and \$3.5 million, or 30.5%, of the local assistance expenditure authority.

EMSA will continue to monitor expenditures and adjust state operations and local assistance budgets as needed to align with changing program priorities.

**EMSA Staffing Levels:**

The department staffing level includes 121 permanent positions and 14 temporary (blanket and retired annuitant) positions. As of November 21, 2024, 26 authorized positions and 2 temporary positions are vacant.

	<b>EMSA</b>				
	<b>Admin</b>	<b>DMS</b>	<b>EMS</b>	<b>EMSP</b>	<b>Total</b>
<b>Authorized</b>	41.0	26.0	29.0	25.0	121.0

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 11, 2024

**ITEM NUMBER: 4B**

SUBJECT: Legal Report

PRESENTER: Erin Brennan, Chief Counsel

CONSENT:  X ACTION:      INFORMATION :      **RECOMMENDATION**

Receive information on the status and updates related to ongoing litigation and paramedic (EMT-P) disciplinary actions.

**FISCAL IMPACT**

No fiscal impact.

**DISCUSSION**EMT-P Disciplinary Cases:

From August 31, 2024 to November 22, 2024, EMSA has:

- Issued eight new Accusations against existing paramedic licenses including two issued concurrently with a Temporary Suspension Order (TSO).
- Issued one denial letter to an applicant for licensure; the applicant has appealed, and a Statement of Issues is pending.
- Resolved six cases through Stipulated Settlement Agreements, including four that resulted in probationary terms, two that resulted in license surrender, and two that resulted in administrative fines.
- Set fourteen cases for hearing before the Office of Administrative Hearings.
- Granted one petition for reduction in penalty and denied one petition for reinstatement.
- Closed one matter with a warning letter.

As of November 22, 2024, EMSA has 114 open active disciplinary cases in its legal office.

Litigation:

EMSA vs. Orange County Partnership Regional Health Information Organization  
Case Number: Orange County Superior Court #30-2023-01310464-CU-BC-  
NJCClaims: Breach of Contract, Unjust Enrichment, Fraud and Deceit, Negligent  
Misrepresentation, and Alter Ego Liability.

- Action filed: March 1, 2023.
- Default judgment: Entered in favor of EMSA on April 18, 2024.
- Status: Enforcement of judgment is pending.

MEETING DATE: December 11, 2024

ITEM NUMBER: 4C

SUBJECT: ENFORCEMENT REPORT

PRESENTER: Alexander Bourdaniotis, Enforcement Branch Chief

CONSENT: \_\_\_

ACTION: \_\_\_

INFORMATION: \_\_x\_\_

**RECOMMENDATION**

Receive information on Enforcement Unit activities.

**FISCAL IMPACT**

No fiscal impact.

**BACKGROUND**Investigations:

The Enforcement Unit currently has 222 cases in "open" status.

As of November 1, 2024, there are 116 cases that have been in "open" status for 180 days or longer, including:

- 13 Firefighters' Bill of Rights (FFBOR) cases;
- 9 cases awaiting fitness for duty evaluations, which involves respondents being directed to physicians specializing in addiction medicine for examinations or reviews related to alcohol or other substance abuse.

The 222 cases are divided among five Special Investigators and one retired annuitant AGPA. These cases are at various stages of the investigative process. These stages include awaiting documents, preparing for and/or setting up interviews, report writing and corrections to be made, awaiting action by local law enforcement jurisdictions, the courts, etc.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE: December 11, 2024

ITEM NUMBER: 5B

SUBJECT: Regulations Update

PRESENTER: Ashley Williams

Deputy Director of Legislative and External Affairs

CONSENT: ACTION: INFORMATION: **BACKGROUND**

The following information is an update to the Emergency Medical Services Authority (EMSA) rulemaking. In accordance with California Health and Safety Code § 1797.107, the EMSA is promulgating the following regulations:

- Re-chaptering of California Code of Regulation Title 22, Division 9.
  - Status: The re-chaptering has been approved by OAL and will take effect January 1, 2025.
  - Purpose: Better align regulations for future updates and modifications.
- Delivering Equitable and Person-Centered Care - Chapter 1
  - Status: The EMSA Policy Advisory Committee (EPAC) met on December 3 to workshop draft regulations.
  - Purpose: Provide a framework centered on equity principles and high quality of care, ensuring accessibility by addressing deficiencies in definitions, statutory interpretations, and the structure, approval, and delivery of EMS services. The framework also aims to ensure consistent quality assurance oversight across administrative, clinical, and operational domains.
- Specialty Programs - Chapter 6 (Trauma, STEMI, Stroke, EMS-C)
  - Status: EMSA is currently routing the submission packet for approval. EMSA anticipates it will be available for public comment early 2025.
  - Purpose: General Update.

Commission on Emergency Medical Services

December 11, 2024

Item #5B

Page 2

- Professional Standards - Chapter 3 (EMT, EMT-A, Paramedics)
  - Status: EMSA is in the initial stages of reviewing Chapter 3, Professional Standards, to identify areas that need updating. Workgroups will be established, with efforts anticipated to begin mid-2025.
  - Purpose: General Update.
  
- AB 40 – Ambulance Patient Offload Times
  - Status: EMSA held its first workshop for AB 40 implementation on September 12, followed by a second workshop on October 4. Draft regulations have been developed based on the discussions during these workshops.
  - Purpose: Draft regulations to meet the requirements of AB 40.
  
- AB 716 – Ambulance Billing
  - Status: EMSA hosted a workshop October 16 to discuss implementation.
  - Purpose: Draft regulations to meet the requirements of AB 716.

**COMMISSION ON EMERGENCY MEDICAL SERVICES****QUARTERLY MEETING**

MEETING DATE : December 11, 2024

ITEM NUMBER : 6A

SUBJECT: Ambulance Patient Offload Time (APOT)

PRESENTER: Tom McGinnis, Quality and Planning Division Chief

CONSENT: \_\_\_\_

ACTION: \_\_\_\_

INFORMATION : X**RECOMMENDATION**

No action recommended.

**FISCAL IMPACT**

No fiscal impact.

**DISCUSSION**

EMSA is monitoring APOT using the California EMS Information System (CEMSIS) ran data since 2023 for all participating LEMSAs. LEMSAs with limited CEMIS participation are providing EMSA with quarterly reports until their CEMIS participation is deemed sufficient to calculate APOT.

EMSA has been running monthly APOT reports sourced from CEMIS for all participating LEMSAs using the updated APOT specifications from Fall 2022. Following internal EMSA review, each LEMSA has been receiving a monthly APOT report outlining their APOT representation in CEMIS. LEMSAs are encouraged to continue to monitor APOT locally and engage EMSA if they identify any discrepancies in their CEMIS representation. EMSA updated the APOT specifications using the NEMIS 3.5 data dictionary and can be found on the website; [www.emsa.ca.gov/APOT](http://www.emsa.ca.gov/APOT). EMSA is continuing to run monthly APOT reports using NEMIS 3.5.

December 2024 Report to Commission: Ambulance Patient Offload Delays

# Report to Commission: Ambulance Patient Offload Delays

Emergency Medical Services Authority  
California Health and Human Services Agency  
December 2024  
Elizabeth Basnett, Director  
Hernando Garzon, MD, Interim Chief Medical Officer

## **ACKNOWLEDGEMENTS**

This report was prepared by the California Emergency Medical Services Authority Staff:

Adam Davis, Ambulance Patient Offload Time Research Data Specialist  
Adrienne Kim, Data Technologies Unit Manager

This report was reviewed and approved by the California Emergency Medical Services Authority Executives:

Elizabeth Basnett, Director  
Hernando Garzon, MD, Interim Chief Medical Officer  
Tom McGinnis, EMS Quality and Planning Division

If you have any questions or comments about this report, please contact:

CEMSIS Sourced Cumulative APOT Greater than 30 minutes by LEMSA (September 2024)..... 17

CEMSIS Sourced APOT 1 (April 2024 – September 2024): Licensed Emergency Department 90th Percentile APOT (1 of 5)..... 18

CEMSIS Sourced (April 2024 – September 2024): Licensed Emergency Department Monthly Cumulative Hours of Delay for Offloads Greater Than 30 Minutes (1 of 5) ..... 23

## Ambulance Patient Offload Time (APOT) Specifications

This report was generated using California Emergency Medical Services Information System (CEMSIS) records meeting the ambulance patient offload time specification described below. EMSA updated APOT Specifications for NEMSIS version 3.5 for 2024 data.

The APOT Specifications outlined below can be found in full detail at <https://ems.ca.gov/apot/>. The APOT qualifying record population for a given timeframe, for both APOT-1 and APOT-2, is defined as emergency medical services (EMS) records which meet the following National Emergency Medical Services Information System (NEMSIS) criteria:

- All events for which eResponse.05 "Type of Service Requested" with the value of 2205001 "Emergency Response (Primary Response Area); **AND**
- All events in eDisposition.30 "Transport Disposition" with the value of 4230001 "Transport by This EMS Unit (This Crew Only)" or 4230003 "Transport by This EMS Unit, With a Member of Another Crew" **AND**
- All events in eDisposition.21 "Type of Destination" with the value of 4221003, "Hospital-Emergency Department"; **AND**
- eTimes.11 "Patient Arrived at Destination Date/Time" values are logical and present **AND**
- eTimes.12 "Destination Patient Transfer of Care Date/Time" values are logical and present

APOT-1 identifies the count of offloads meeting the APOT specification criteria and, based on those same records, the 90<sup>th</sup> percentile APOT time for a given time frame. APOT-1 is reported by general acute care facility or aggregated at a LEMSA level.

APOT-2 identifies the count of offloads meeting the same APOT specification criteria as APOT-1 and based on those same records, counts the number of records found within the five time intervals for a given time frame. The time intervals are as follows:

2.1: What count of patients transported by EMS personnel experience a transfer of care within 20 minutes of arrival at the Hospital Emergency Department?

2.2: What count of patients transported by EMS personnel experience a transfer of care between 20:01-60 minutes of arrival at the Hospital Emergency Department?

2.3: What count of patients transported by EMS personnel experience a transfer of care between 60:01-120 minutes after arrival at the Hospital Emergency Department?

2.4: What count of patients transported by EMS personnel experience a transfer

of care between 120:01-180 minutes after arrival at the Hospital Emergency Department?

2.5: What count of patients transported by EMS personnel experience a transfer of care more than 180:01 minutes after arrival at the Hospital Emergency Department?

### **Qualifying Record Exclusion Criteria:**

EMS records which meet the APOT specification criteria and have a negative calculated time between eTimes.11 and eTimes.12 do not qualify as being part of the APOT record population and have been excluded from this report.

EMS records which meet the APOT specification criteria and have a calculated time between eTimes.11 and eTimes.12 exceeding 8 hours do not qualify as being part of the APOT record population and have been excluded from this report.

EMS records which meet the APOT specification criteria and have an eDisposition.02 "Destination Code" (CEMSIS Facility ID) recorded for as "Blank, Not Recorded, Not Reported, Not Available, or Null" do not qualify as being part of the APOT record population and have been excluded from this report.

EMS records represented in this report are based on the specifications which may include duplicate records, records from non-transport providers, and facilities which are not general acute care hospitals or do not have an emergency department. These records which fall into one of the above categories are included in this report due to provider documentation, a limitation of the NEMSIS Data Standards, or as a limitation of the APOT Specifications used for this report.

### **Report Notes:**

All APOT record counts and times are associated with the destination county/LEMSA using NEMSIS element eDisposition.06 "Destination County." Record counts and 90<sup>th</sup> Percentile APOT calculation include records from all LEMSA to that facility.

All 34 LEMSAs are represented in this report however, representation may be limited.

**California Counties with a LEMSA 90th Percentile APOT Greater than 30 minutes over A 6-Month Period (April 2024 – September 2024)**

All data represented in this report is sourced from CEMIS with a run date of October 10, 2024. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

### CEMSIS Sourced Statewide APOT Trend Graph (April 2024 – September 2024)

All data represented in this report is sourced from CEMIS with a run date of October 10, 2024. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

LEMSAs with red text and a red highlighted cell had a 90<sup>th</sup> Percentile APOT greater than 30 minutes for the month listed. The Statewide 90<sup>th</sup> Percentile APOT for each month between April 2024 and September 2024 exceeded 39 minutes.

All data represented in this report is sourced from CEMIS with a run date of October 14, 2023. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS Providers in all LEMSA are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

Note: Monthly 90<sup>th</sup> percentile offload times greater than 30 minutes are highlighted in red.

All data represented in this report is sourced from CEMIS with a run date of October 14, 2023. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS Providers in all LEMSA are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

## CEMSIS Sourced APOT 1 (April 2024 – September 2024): Licensed Emergency Department 90<sup>th</sup> Percentile APOT (2 of 5)

Note: Monthly 90<sup>th</sup> percentile offload times greater than 30 minutes are highlighted in red.

All data represented in this report is sourced from CEMSI with a run date of October 10, 2024. CEMSI records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMSI or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMSI participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

All data represented in this report is sourced from CEMSI with a run date of October 10, 2024. CEMSI records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMSI or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMSI participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

# CEMSIS Sourced (April 2024 – September 2024): Licensed Emergency Department Monthly Cumulative Hours of Delay for Offloads Greater Than 30 Minutes (2 of 5)

All data represented in this report is sourced from CEMSI with a run date of October 10, 2024. CEMSI records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMSI or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMSI participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

All data represented in this report is sourced from CEMIS with a run date of October 10, 2024. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

## CEMSIS Sourced (April 2024 – September 2024): Licensed Emergency Department Monthly Cumulative Hours of Delay for Offloads Greater Than 30 Minutes (5 of 5)

All data represented in this report is sourced from CEMIS with a run date of October 10, 2024. CEMIS records are populated by participating EMS providers documented care in the pre-hospital setting through direct transmission into CEMIS or passed through their local EMS Agency (LEMSA). Not all EMS providers in all LEMSAs are CEMIS participants, therefore this report does not reflect 100% of EMS interactions and records meeting APOT criteria.

Discussion on Autonomous Vehicles and any effects on EMS.

**SUMMARY**

Receive information from Julia Friedlander, Senior Manager, Automated Driving Policy with the San Francisco Municipal Transportation agency.

Julia Friedlander has worked for the City of San Francisco for more than 25 years. She spent 11 years working as General Counsel to the San Francisco Municipal Transportation Agency (SFMTA). Since 2018, she has worked for the SFMTA in a policy capacity focused on federal, state and local policy related to the future of automated driving. Early career experiences working in public health for the State of Connecticut and the City of New York gave her an enduring appreciation for the essential role of emergency medical service providers.

[Nicole.Mixon@emsa.ca.gov](mailto:Nicole.Mixon@emsa.ca.gov)

## BACKGROUND

In accordance with [Health and Safety Code Section \(HSC\) §1797.172](#), the Emergency Medical Services Authority (EMSA) is responsible for licensing Paramedics (EMT-P) to practice in the State of California (CA). EMSA has delegated authority to sixty-four (64) certifying entities (CEs), to include thirty-four (34) local emergency medical service agencies (LEMSAs), to certify and credential Emergency Medical Technicians (EMTs) and Advanced Emergency Medical Technicians (AEMTs). By utilizing an EMSA certification and licensing record system, the Central Registry, EMSA monitors, collects, and reports on EMT and AEMT certification, Paramedic licensing and accreditation, and demographic data.

The Commission on EMS has requested EMSA provide State Fiscal Year (SFY) annual reports on EMT, AEMT, and Paramedic workforce trends. Workforce data includes EMS personnel licensing, certification, accreditation, and demographic data.

An initial applicant may be one of the following:

- **In-State applicant:** an applicant who graduated from a California state approved emergency medical services (EMS) training program, or
- **Out-of-State applicant:** an applicant who graduated from any other government or military oversight approved EMS training program, or
- **Challenge applicant:** an applicant who graduated from a higher medical training program than EMS or is licensed in a higher medical profession and would like to substitute the required EMS didactic (classroom) training with their education or experience.

Renewal applicants are licensed, or certified, persons due to renew their credentials to practice no later than the last day of the month every 2-years from the initial certification or license date.

Reinstatement applicants are persons whose certification, or license, has lapsed past their required 2-year renewal period and are required to take additional continuing education courses and other steps to reinstate (or restore) their credentials to a current and active status.

Paramedics are accredited to practice within the LEMSA jurisdiction in which they are employed, whereas EMT and AEMTs are authorized to practice statewide. Accreditation may also include EMT, AEMT, and paramedic authorized optional scope of practices or specialized skills.

## LIMITATIONS AND CHALLENGES

EMS workforce analysis depends on the development of compatible data systems and standardized data collection regimes at various levels of the EMS system. These commonly understood data measures are essential for data driven workforce decision making. Ongoing efforts to improve the quality and validity

between LEMSA, certifying entity, educator, and EMSA data will increase the reliability and usability of the results. Limitations and challenges to reporting EMS workforce data are enumerated below.

### Participation in Workforce Data Reporting and Workforce Representation

All 34 LEMSAs participated in providing EMS applicant, licensing, accreditation, certification, and partial demographic data. Only a portion of the actual EMS workforce accreditations and demographics is represented in this report due to LEMSA staffing and resource limitations or local employer and/or educator provider participation challenges.

### System Limitations

The Central Registry record system has limited reporting capabilities. Although real-time and static data is available, complex relation and correlation data extraction is minimal.

## METHODOLOGY

EMSA leveraged applicant certification, license, accreditation, and demographic data to conduct a retrospective analysis to identify certification/license patterns.

Future methodologies will include comparison of state data with national data to include employment status, wages, on-the-job injuries, and other information.

## FINDINGS and CHARTS

EMSA has determined the CA EMT and EMT-P workforce has rebounded<sup>1</sup>, post COVID-19 pandemic, to a total of 92,915 personnel. Utilizing data from SFY 2022/23 to 2023/24 in the Central Registry record system, EMSA identified a 3% increase in paramedic licenses and EMT certifications, respectively. The AEMT workforce continues to remain nominal in comparison.

Caucasian male adults are the predominant ethnicity/race and gender<sup>2</sup> of all EMS professionals among those who elected to disclose their demographic information. Hispanic or Latino was the second highest ethnicity, followed by Asian.

The majority of EMT's are between 21 and 30 yrs. of age whereas, paramedics tend to be between 31 and 40 yrs. of age<sup>3</sup>. Only 16% of all licensed paramedics retain their CA EMT certification, suggesting the EMT scope of practice is an entry-level, temporary profession

---

<sup>2</sup> Appendix C

<sup>3</sup> Appendix C

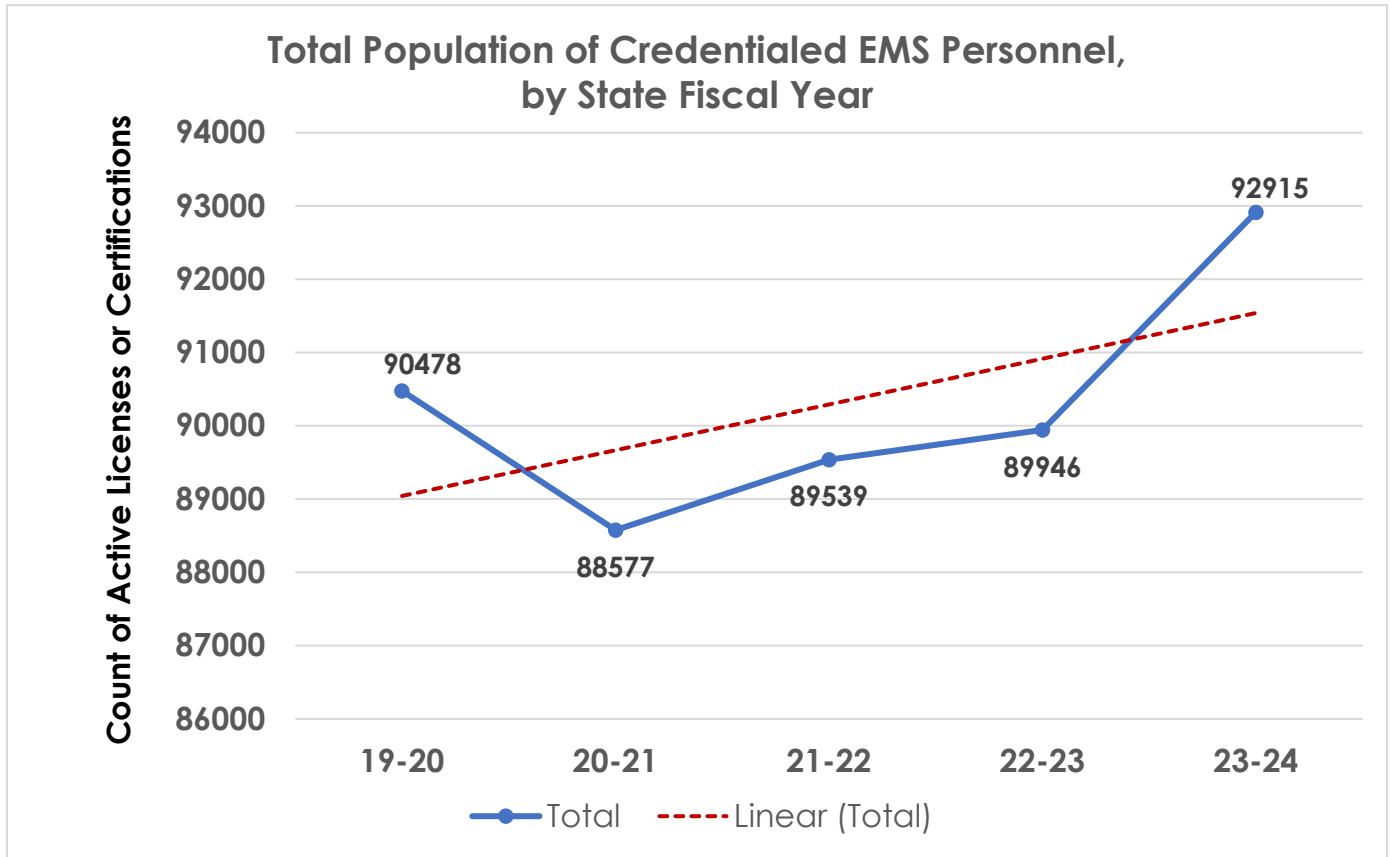

for those moving on to paramedicine.

A key addition to this report is the incorporation of Community Paramedicine (CP) and Triage to Alternate Destination (TAD) training and services during the SFY 2023/24. The CA system has 67 CP accredited paramedics and 1,007 TAD accredited paramedics.

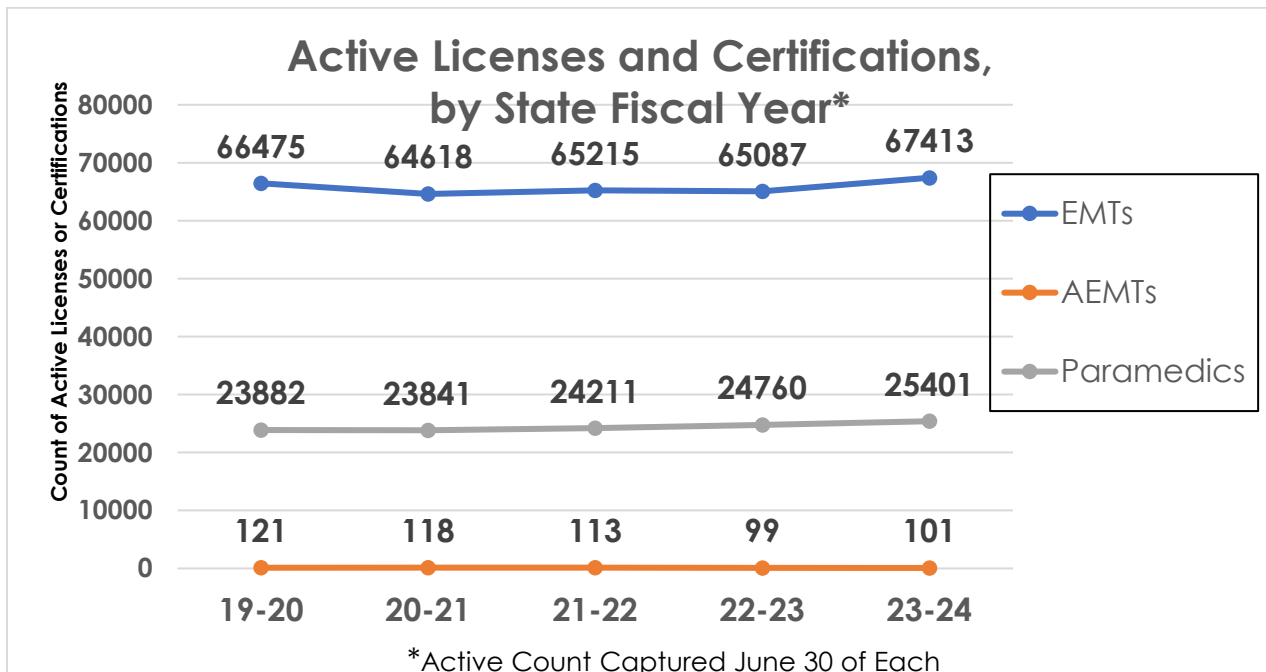

EMSA recognizes the need for robust data collection and analysis to adequately identify workforce trends and make policy decisions moving forward. As EMSA works toward establishing systems and strategies to create real-time data exchange among partners and promote evidence-based person-centered care, advancements in workforce data collection and comprehensive analysis will continue.

## Appendix C. EMS Personnel Demographic Data

### Current Paramedic Population, by Gender

### Current EMT Population, by Ethnicity

### Current EMT Population, by Age

### Current EMT Population, by Gender

race, and ethnicity.

During this period, the 64 CEs reported a total of 10,232 initial certification applications, of which 318 applicants (3.1%) had reported criminal histories. EMSA's analysis found that prior criminal history does not appear to represent an obstacle to certification as an EMT or AEMT in California.

Of the 318 applicants with pending charges or confirmed conviction histories, 301 (94.6%) were approved for certification, including 54 applicants approved with restrictions (probation). Eleven (11) applicants were denied certification due to criminal history, including seven (7) applicants in accordance to California Code of Regulations (CCR) [Title 22, §100214.3](#), and four (4) applicants denied according to [HSC §1798.200\(c\)](#). Six (6) applications remain pending due to open investigations or incomplete application requirements.

Data gathered from 2019 through 2023 shows that an average of 9,218 EMT and AEMT applications are received annually, with approximately 386 (4.4%) of applicants identified as having criminal history records. Of these, 372 (96.4%) are approved and 14 (3.6%) applicants are denied. These trends highlight consistency in certification outcomes and demonstrate that prior criminal history is not a significant obstacle for most applicants.

## **DISCUSSION**

After reviewing and analyzing the EMT and AEMT certification data collected from 64 CEs for 2023, EMSA concluded that prior criminal history does not present a significant obstacle to certification. A summary of data from 2019 – 2023 no notable outliers in population totals, indicating reliability in its overall consistency. Over the past five (5) years, EMSA has approved an average of 96% of applicants with criminal history. The remaining 4% were denied certification in accordance with the requirements specified in CCR [TITLE 22, §100214.3](#) and HSC [§1798.200\(c\)](#).

## **ATTACHMENT(S)**

Criminal History Impact on EMT Certification 2023

# Criminal History Impact on EMT Certification 2023

Emergency Medical Services Authority  
California Health and Human Services Agency

December 2024

Elizabeth Basnett, Director

## **EXECUTIVE SUMMARY:**

In accordance with Health and Safety Code Section (HSC) 1797.229, the Emergency Medical Services Authority (EMSA) collected Emergency Medical Technician (EMT) and Advanced Emergency Medical Technician (AEMT) initial certification applicant data from 64 certifying entities (CEs) during the 2023 calendar year to determine the extent to which prior criminal history may be an obstacle to certification. The sixty-four (64) CEs reported criminal history, gender, age, race, ethnicity, and certification action data on 10,232 initial certification applications. The EMSA found prior criminal history does not appear to represent an obstacle to certification as an EMT or AEMT in California.

Data analysis shows 318 applicants were found to have pending charges or confirmed conviction history in their background, which represents three percent (3%) of all applicants. Of those applicants with reported criminal history, 301 (95%) received approved certifications, including 54 applicants approved with restrictions (probation). Only 11 (3%) were denied due to criminal history, including seven (7) applicants denied according to California Code of Regulations (CCR) [Title 22, §100214.3](#) and four (4) applicants denied according to [HSC §1798.200\(c\)](#). The remaining 6 (2%) applications are currently pending due to open investigations or incomplete application requirements.

Data gathered from 2019 through 2023 shows an average of 9,218 EMT and AEMT applications are received per year. An annual average of 386 (4%) applicants are identified as having criminal history reports. Of those applicants, an average of 372 (96.4%) are approved and 14 (3.6%) applicants are denied per year.

## **BACKGROUND:**

Effective January 1, 2019, the [HSC 1797.229](#), states that each local EMS Agency (LEMSA) and other CEs shall submit to the EMSA data on EMT I (EMT) or EMT-II (AEMT) applicant and certification approvals, denials, and approvals with restrictions from the preceding calendar year annually. Reporting for calendar year 2023 was due to EMSA by July 1, 2024.

The EMSA shall report annually to the EMS Commission and Legislature the extent to which prior criminal history may be an obstacle to EMT and AEMT certification based on the submitted data. The 2023 calendar year is the final reporting year.

## **SCOPE & METHODOLOGY:**

The EMSA, in collaboration with the LEMSAs, developed a standardized Excel table to be used as the reporting tool. The EMSA aggregated and analyzed the data to assess whether applicant prior criminal history was an obstacle to certification. Demographic data of denied applicants was also collected and reviewed.

In 2023, 64 active agencies submitted data utilizing the provided reporting tool, meeting data reporting statutory requirements. The data collected was compiled and analyzed by the EMSA and is included in this report.

## **ANALYSIS:**

The EMSA received initial EMT certification data on 10,232 applications. Among those received, 318 (3.1%) applicants reported criminal history in their background checks. A total of 312 applications were fully processed. The CE's approved a total of 301 (94.6%) applicants, including 54 applicants approved with restrictions (probation) and 247 without restrictions. The CE's denied 11 (3.5%) applications due to criminal history record information. Of those denials, seven (7) were denied pursuant to CCR [Title 22, §100214.3](#), requiring a "shall deny" action. The remaining four (4) were denied pursuant to HSC [§1798.200\(c\)](#), which states, "[a]ny of the following actions shall be considered evidence of a threat to the public health and safety and may result in the denial...". Of the 318 applications including criminal history information, six (6) applications remained pending due to open investigations or incomplete application requirements.

### **Demographic Data of Applicants Reporting Criminal History & Denials**

Of the data submitted in a format allowing stratification, most applicants that were denied certification due to criminal history, identified themselves as male.

Of the 312 applications processed with criminal history information, the data indicates:

- 82.4% identified as male
- 14.4% identified as female
- 3.2% chose not to disclose their gender

Of the eleven (11) applicants denied due to criminal history, the data indicates:

- six applicants (54.5%) identified as male
- five applicants (45.5%) identified as female
- zero applicants (0.0%) chose not to disclose their gender.

Applicants 31 to 40 years of age had the highest number of criminal history reports, followed closely by applicants 30 years of age or younger. Of the 11 applicants denied certification due to criminal history, the data indicates:

- five applicants (45.4%) were age 30 or younger
- four applicants (36.4%) were between 31 and 40 years of age
- one applicant (9.1%) was between 41 and 50 years of age
- one applicant (9.1%) was 51+ years of age

Of the demographic data collected for the race or ethnicity of applicants, White/Caucasian applicants with criminal history were denied certification the most among all applicants with criminal history. The data indicates:

- 47.1% of applicants with criminal history identified themselves as "White/Caucasian"
- 25.6% identified as "Hispanic or Latino"
- 8.7% chose not to identify their race/ethnicity
- 8.7% identified as "Black/African American"
- 4.2% identified as "American Indian or Alaskan Native"
- 3.5% identified as "Asian"
- 2.2% identified as "Native Hawaiian or Pacific Islander"
- 0.0% identified as "Other"

Of the 11 applicants denied due to criminal history, the data indicates:

- eight applicants (72.7%) identified as “White/Caucasian”
- two applicants (18.2%) identified as “Hispanic or Latino”
- one applicant (9.1%) identified as “Black/African American”

**LIMITATIONS:**

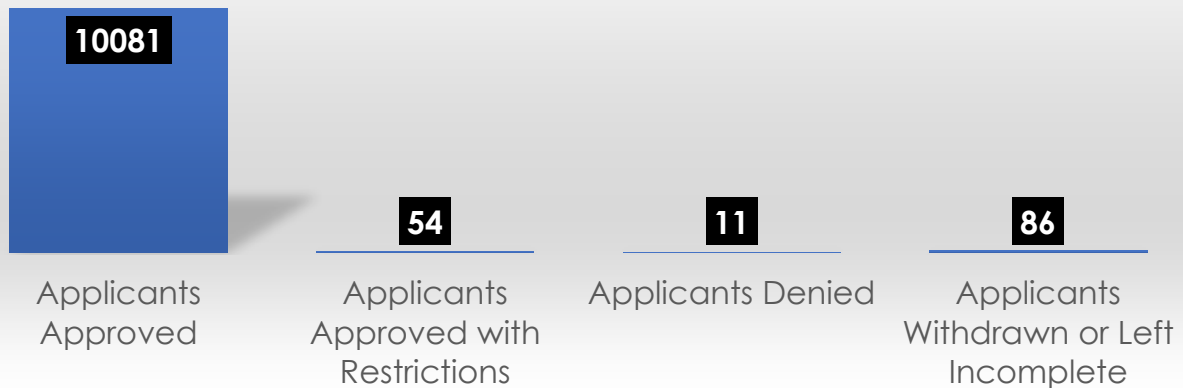

Complete data collection was hindered by some unresolved discrepancies and incomplete data which affects the efficacy of this analysis.

**CONCLUSION:**

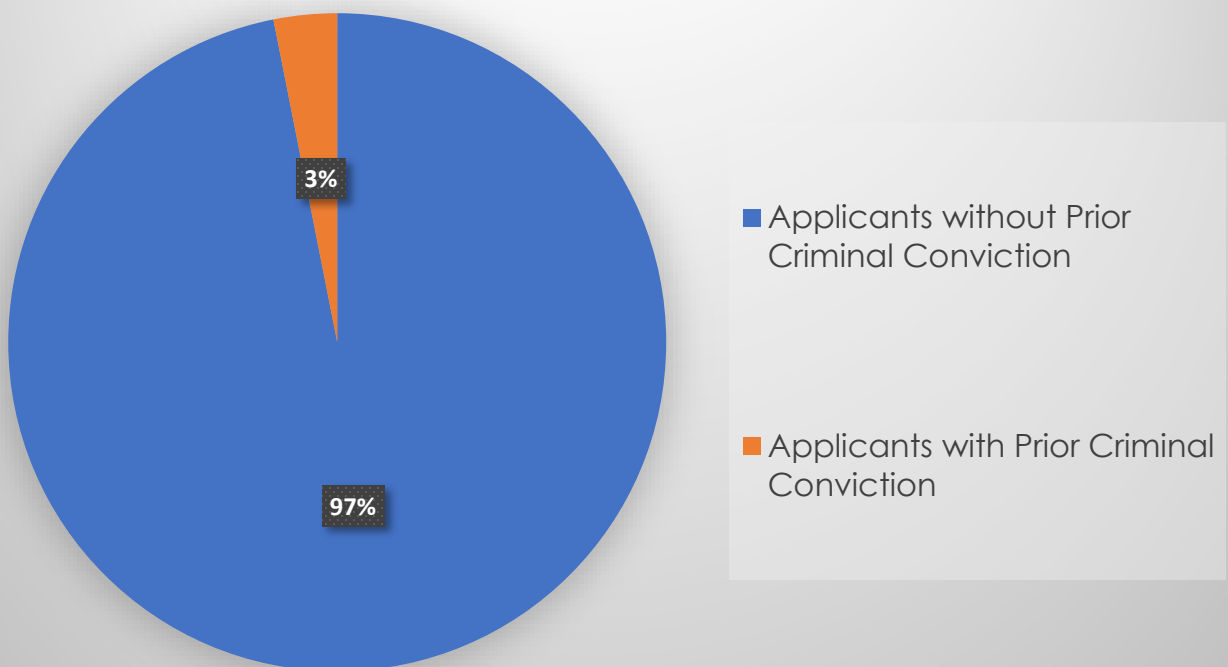

After reviewing and analyzing the EMT and AEMT certification data collected from 64 certifying entities for 2023, the EMSA found prior criminal history is not an obstacle to certification. A summary of 2019 – 2023 data shows no significant outliers in population totals, indicating reliability in its overall consistency. Over the past five (5) years, the EMSA has approved, on average, 96.4% of all applicants with criminal history. The remaining 3.6% of applicants with criminal history were denied certification in accordance with the requirements specified in CCR [TITLE 22, §100214.3](#) and HSC [§1798.200\(c\)](#).

## Appendix A: All Applicants, Aggregate Data Sets

## Appendix B.5: Denial Reasons

CCR SECTION	REASONS FOR DENIAL DUE TO CRIMINAL HISTORY	TOTAL # of SECTIONS CITED
<b>§100214.3(c)*</b>	<b>The medical director shall deny or revoke an EMT or AEMT certificate if any of the following apply to the applicant:</b>	<b>9</b>
§100214.3(c)(3)	Has Been Convicted of Two (2) or More Felonies.	4
§100214.3(c)(6)	Has been convicted and released from incarceration for said offense during the preceding ten (10) years for any offense punishable as a felony.	3
§100214.3(c)(7)	Has been convicted of two (2) or more misdemeanors within the preceding five (5) years for any offense relating to the use, sale, possession, or transportation of narcotics or addictive or dangerous drugs.	2

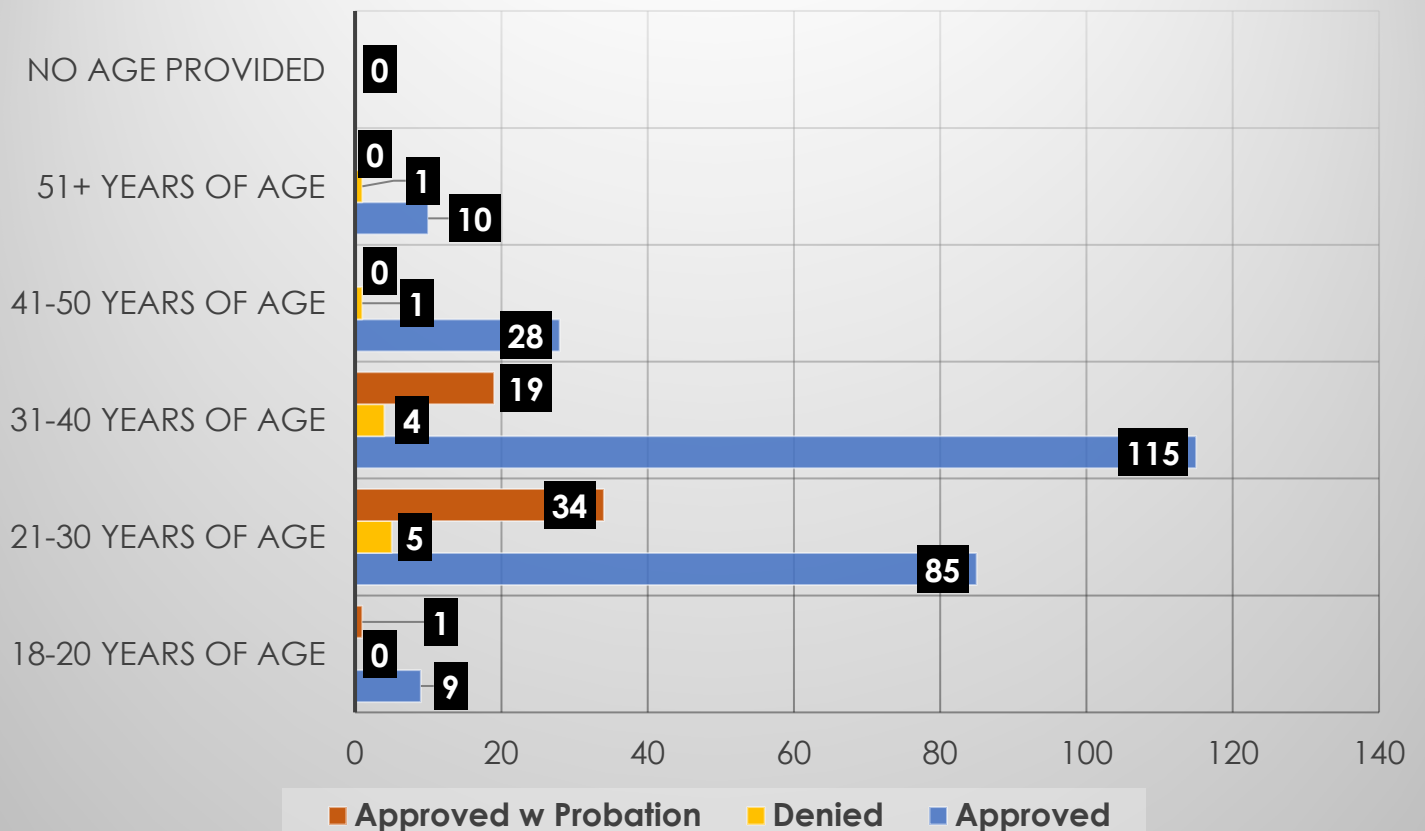

SECTION	REASONS FOR DENIAL DUE TO CRIMINAL HISTORY	TOTAL # of SECTIONS CITED
<b>HSC §1798.200(c)*</b>	<b>Any of the following actions shall be considered evidence of a threat to the public health and safety and may result in the denial, suspension, or revocation of a certificate or license issued under this division, or in the placement on probation of a certificate holder or license holder under this division:</b>	<b>19</b>
§1798.200(c)(1)	Fraud in the procurement of any certificate or license under this division.	3
§1798.200(c)(5)	The commission of any fraudulent, dishonest, or corrupt act that is substantially related to the qualifications, functions, and duties of prehospital personnel.	2
§1798.200(c)(6)	Conviction of any crime which is substantially related to the qualifications, functions, and duties of prehospital personnel. The record of conviction or a certified copy of the record shall be conclusive evidence of the conviction.	3
§1798.200(c)(7)	Violating or attempting to violate directly or indirectly, or assisting in or abetting the violation of, or conspiring to violate, any provision of this division or the regulations adopted by the authority pertaining to prehospital personnel.	2
§1798.200(c)(9)	Addiction to, the excessive use of, or the misuse of, alcoholic beverages, narcotics, dangerous drugs, or controlled substances.	8
§1798.200(c)(11)	Demonstration of irrational behavior or occurrence of a physical disability to the extent that a reasonable and prudent person would have reasonable cause to believe that the ability to perform the duties normally expected may be impaired.	1

\*: Some denial data cited multiple actions for denial of an applicant under both the "shall" and "may" deny categories.

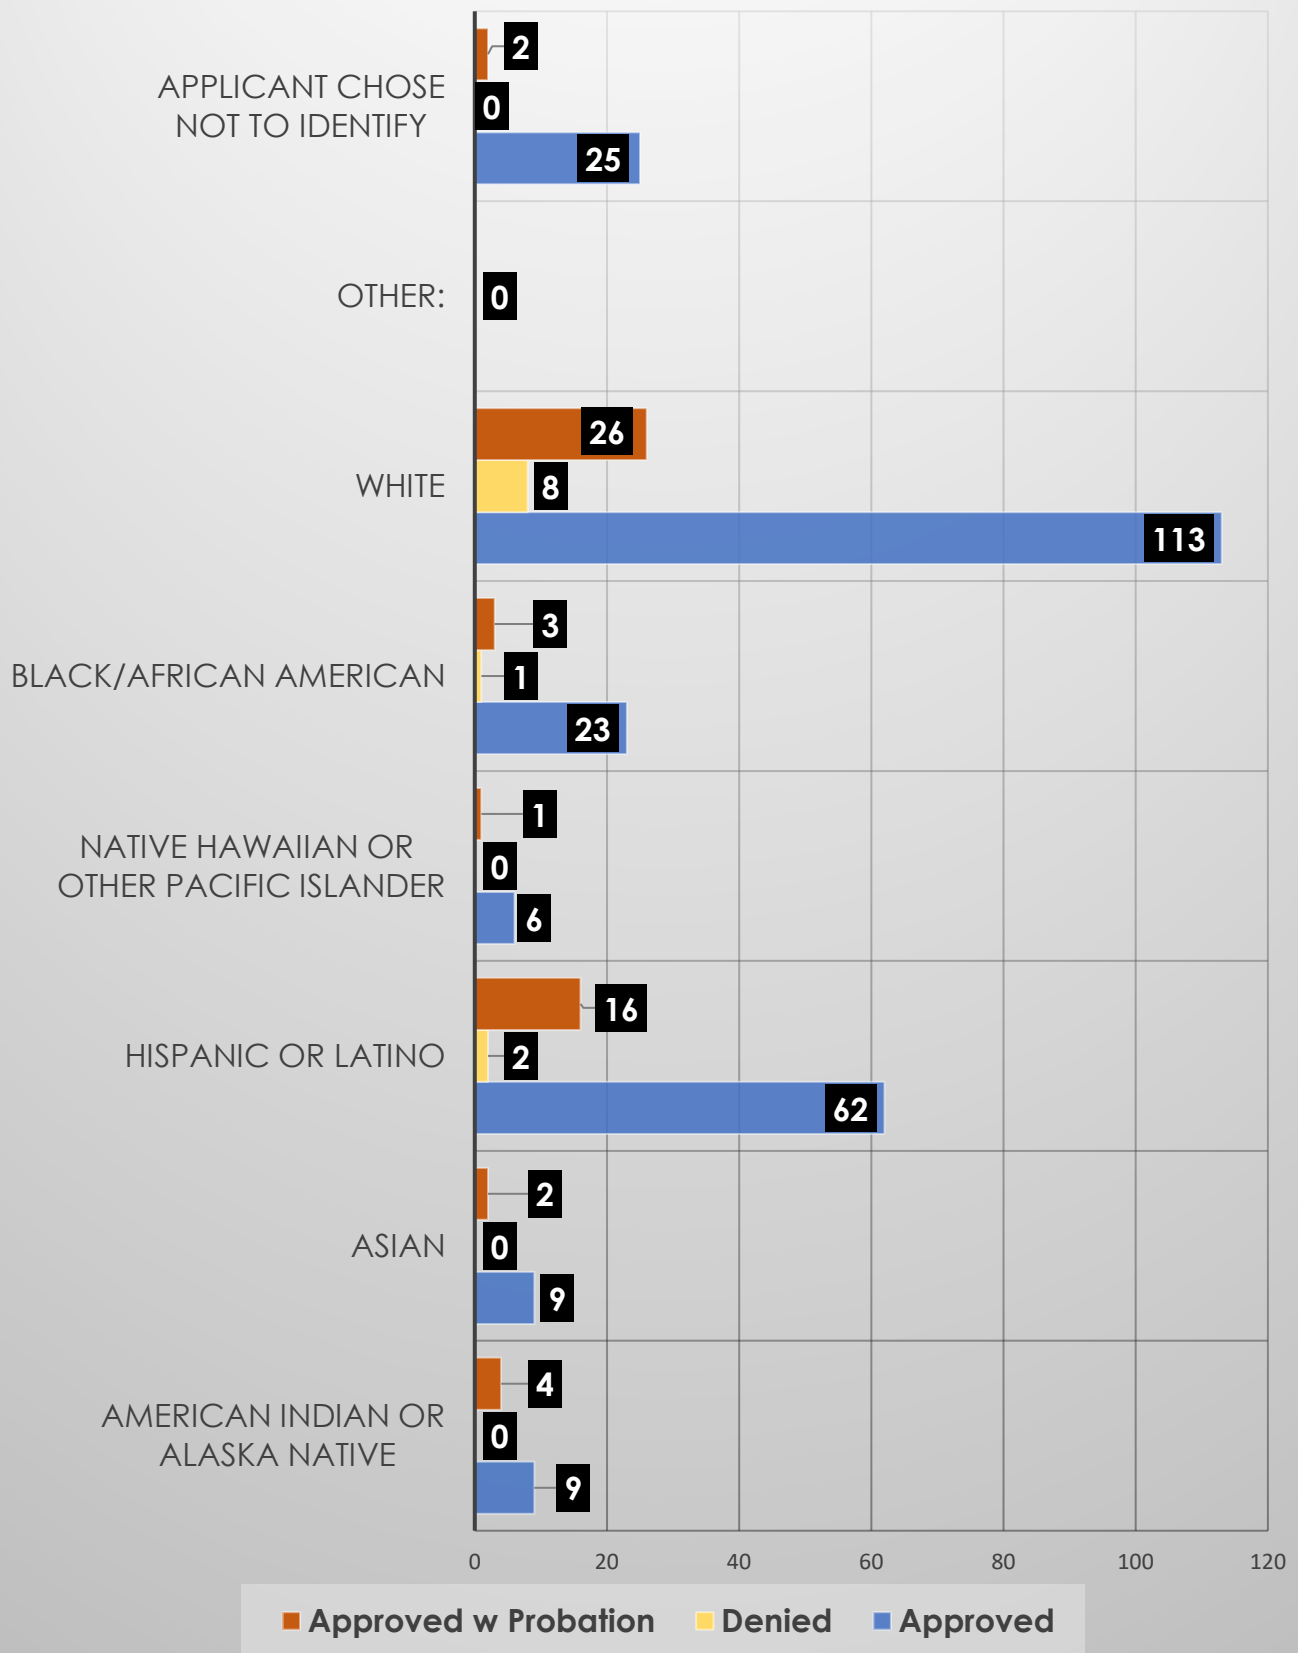

### B.6: Applicants with Criminal History, by Gender - 2023

### B.7: EMT Certifications with Criminal Background, by Age - 2023

### B.8: EMT Certification with Criminal Background, by Race/Ethnicity - 2023

## B.9: Aggregate of 2019 - 2022 Annual Population Summary Data

Aggregation of 2019-2023 Calendar-Year Summary Data						
Year	Applied	Disclosed History	Certified, No History Disclosed	Approved with History	Approved with Probation (with or without History)	Denied due to Conviction History
2019	9062	433	9026	347	56	17
2020	8277	393	8254	327	46	17
2021	9328	399	9231	335	50	14
2022	9191	367	9059	293	36	12
2023	10232	318	9914	318	54	11
<b>Average</b>	<b>9218</b>	<b>382</b>	<b>9097</b>	<b>324</b>	<b>48</b>	<b>14</b>
Z-Score (Any Z-Score Value >2.0 indicates the datapoint is an outlier)						
Year	Applied	Disclosed History	Certified, No History Disclosed	Approved with History	Approved with Probation (with or without History)	Denied due to Conviction History
2019	-0.25	1.33	-0.13	1.26	1.07	1.13
2020	-1.51	0.29	-1.59	0.16	-0.34	1.13
2021	0.18	0.44	0.25	0.60	0.23	-0.08
2022	-0.04	-0.39	-0.07	-1.70	-1.75	-0.89
2023	1.62	-1.67	1.54	-0.33	0.79	-1.29
<b>Standard Deviation:</b>	<b>624.63</b>	<b>38.29</b>	<b>529.64</b>	<b>18.20</b>	<b>7.09</b>	<b>2.48</b>

The population summary data gathered for calendar years 2019 through 2023 are free of outlier values for all population categories, to include:

- Total Applicants (z-range = -1.51 – 1.62)
- Applicants disclosing criminal history (z-range = -1.67 – 1.33)
- Applicants approved, no criminal history (z-range = -1.59 – .154)
- Applicants approved with criminal history (z-range = -1.7 – 1.26)
- Applicants approved and placed on probation (z-range = -1.75 – 1.07)
- Applicants denied (z-range = -1.29 – 1.13)

All z-scores, or standard<sup>1</sup> scores, fall within range  $-2 < x < 2$ . This indicates the data trends are free of outliers. The greatest variations in population data appeared in 2020 (sum of applicants: 8,277, z-score = -1.51) and 2023 (sum of applicants: 10,232, z-score = 1.62). In all other years, standard scores fall within a range of -.25 – .18. Although the timing of these variations indicates the workforce is recovering from the sharp workforce decrease during the onset of the COVID-19 in 2020, EMSA was unable to determine any specific causal factors.

<sup>1</sup> Standard Score: an individual score expressed as the deviation from the mean (average) score of the data group in units of standard deviation.

Receive updates on 2024 Fire Season Response

**DISCUSSION****FIRE SEASON UPDATES***Recent Deployments:*

The 2024 fire season presented significant challenges, with multiple large-scale incidents requiring extensive medical support for firefighting personnel. CalMAT teams played a critical role in providing medical care at CalFire base camps, ensuring the health and readiness of first responders engaged in fire suppression efforts. Below is a summary of CalMAT's involvement and impact during the Mountain Fire and Line Fire, highlighting the average daily medical metrics and team compositions.

**Mountain Fire**

- **Location:** Ventura County Fairgrounds and Event Center, Ventura, CA.
- **Dates Reported:** November 7–14, 2024.
- **Summary:** CalMAT provided medical care to fire department personnel at the CalFire base camps, ensuring their health and readiness during fire suppression efforts.
  - **Total Contacts:** 175
  - **Total Treated:** 54
  - **Total Transported:** 3
  - **Total OTC Dispensed:** 3,158
  - **Total Pharmaceuticals Dispensed:** 862

### Line Fire

- **Location:** 390 Oak Valley Pkwy, Beaumont, CA, San Bernardino County.
- **Dates Reported:** September 9–18, 2024.
- **Summary:** CalMAT provided medical care to fire department personnel at the CalFire base camps, ensuring their health and readiness during fire suppression efforts.
  - **Total Contacts:** 362
  - **Total Treated:** 102
  - **Total Transported:** 4
  - **Total OTC Dispensed:** 10,834
  - **Total Pharmaceuticals Dispensed:** 819

### Total Season Numbers

**Total Deployments:** 11

**Total Personnel Deployed:** 111

- RN: 39
- EMT: 27
- Physicians: 26
- Administrative Officers: 8
- Physicians Assistants: 5
- LVN: 4
- Nurse Practitioner: 2

**Total Patient Contacts:** 4,358

**Total Patients Treated:** 1,239

**Total Patients Transported:** 60

**Total OTC Dispensed:** 64,281

**Total Pharmaceuticals Dispensed:** 12,125

### Post Season Caches Review

During the off-season, EMSA will conduct a comprehensive analysis of the data collected from all deployments throughout the 2024 fire season. This evaluation will focus on identifying trends and lessons learned to ensure that our response remains efficient and effective. Particular attention will be given to reviewing the formulary and par levels in our caches, making adjustments as needed to better align with the medical needs observed during incidents. This process is critical for maintaining the readiness and adaptability of CalMAT teams for future emergencies.

**RECOMMENDATION**

Open nominations for commission officers for March 2025 – March 2026.

**FISCAL IMPACT**

No fiscal impact.

**DISCUSSION**

Nominations for commission officers are opened at the last Commission meeting of the year, with the election held at the first meeting of the following year.

The Commission will need to nominate a new Chair, as Commissioner Burrows has served two consecutive one-year terms. Per the Commission on EMS By-Laws, the chair can serve no more than two consecutive one-year terms.

As outlined in the Commission on EMS By-Laws, all commission officers are eligible for re-election, except the immediate past chair, who automatically becomes a member of the Administrative Committee

Current Commission Officers:

Chair	Sean Burrows
Vice Chair	Marc Gautreau
Administrative Committee	Atilla Uner, MD
	Travis Kuzman

MEETING DATE: December 11, 2024

ITEM NUMBER: 11A

SUBJECT: Response to Public Comments from September 2024 Commission Meeting

PRESENTER: Diane Sabonis, CEA, Paramedic Disciplinary Review Board (PDRB)

CONSENT: ACTION: INFORMATION: **BACKGROUND**

At the September 2024 EMS Commission meeting, EMSA received a public comment from Ray Ramirez. He inquired, to the effect, whether “the existing Government Code Section 11522 that deals with appeals for licensure actions will be replaced by the new appeals process.” In addition, Mr. Ramirez stated, to the effect, “Government Code Section 1799.112 is currently in the immunities section of the EMS Code with the Good Samaritan Act. This is not in the right location and is often overlooked. The notification requirements between the statute and the Act are not synchronized, and there are multiple definitions. There is a need to clarify the trigger events for notification and who the employer is required to notify.”

The EMS Commission requested that EMSA provide a response to this public comment.

**DISCUSSION**

Question: Does the existing Government Code Section 11522 that deals with appeals for licensure actions will be replaced by the new appeals process?

Response: Government Code section 11522 continues to govern petitions for reinstatement and reductions in penalties. Regarding these petition processes, there is no new appeals process.

Issue 1: Government Code Section 1799.112 is currently in the immunities section of the EMS Code with the Good Samaritan Act. This is not in the right location and is often overlooked.

Response: EMSA has noted the feedback regarding the placement of Health and Safety Code section 1799.112. However, addressing the placement of a statutory provision falls within the purview of the Legislature.

Issue 2: The notification requirements between the statute and the Act are not synchronized, and there are multiple definitions. A need to clarify the trigger events for notification and who the employer is required to notify.

Response: EMSA acknowledges that the creation of Health and Safety Code section 1797.125.09 under AB 450 introduced an additional reporting requirement beyond what is required in section 1799.112. However, EMSA does not interpret sections 1797.125.09 and 1799.112 as being unclear or in conflict with respect to their respective employer reporting requirements.

- Section 1797.125.09 requires employers of paramedics to report to PDRB and the EMSA Director.
  - This reporting requirement is triggered when a “suspension or termination for cause” occurs, defined as suspension or termination for any of the following reason(s):
    - Use of controlled substances or alcohol to such an extent that is impairs the ability to safely practice paramedicine.
    - Unlawful sale of controlled substances or other prescription items;
    - Patient neglect, physical harm to a patient, or sexual contact with a patient;
    - Falsification of medical records;
    - Gross incompetence or negligence;  
Theft from patients, other employees, or the employer.
  - The statute requires the report to be made within seventy-two (72) hours of the triggering event.
- Section 1799.112 requires employers to report to the local EMS medical director and EMSA.
  - This reporting requirement is triggered when:
    - An EMT-P is terminated or suspended for disciplinary cause or reason;
    - An EMT-P resigns following notice of an impending investigation based upon evidence indicating disciplinary cause or reason;

- An EMT-P is removed from paramedic duties for disciplinary cause or reason following the completion of an internal investigation.
- For the purposes, “disciplinary cause or reason” is defined as only a action that is substantially related to the qualifications, functions, and duties of a paramedic and is considered evidence of a threat to the public health and safety, as identified in subdivision (c) of section 1798.200. The written report, along with all supporting documentation must be made within thirty (30) days of the triggering event. Section 1799.112 does not apply to an EMT-P who is also a peace officer protected under Penal Code Section 832.7.
- All reports of alleged EMT-P misconduct are routed to EMSA's Enforcement Division for further investigation and potential licensure action.

#### **SUMMARY**

EMSA has provided a response to the issues raised at the September 2024 meeting. Any further questions or comments will be documented and addressed at a future meeting, if necessary.
