EMERGENCY MEDICAL SERVICES AUTHORITY

11120 INTERNATIONAL DR., SUITE 200 RANCHO CORDOVA, CA 95670 (916) 322-4336 FAX (916) 324-2875

January 7, 2025

Tammi McConnell, EMS Director Orange County Emergency Medical Services Agency 405 West Fifth St., Suite 301A Santa Ana, CA 92701

Dear Tammi McConnell,

This letter is in response to Orange County Emergency Medical Service (EMS) Agency's 2019, 2020-2023, and 2024 EMS, Trauma, St-Elevation Myocardial Infarction (STEMI), Stroke, and Quality Improvement (QI) plan submissions to Emergency Medical Service Authority (EMSA).

EMSA has reviewed the EMS plan based on compliance with statutes, regulations, and case law. It has been determined that the plan meets all EMS system components identified in Health and Safety Code (HSC) § 1797.103 and is <u>approved</u> for implementation pursuant to HSC § 1797.105(b). Based on the transportation documentation provided, please find the enclosed EMS area/subarea status, compiled by EMSA.

EMSA has also reviewed the Trauma, STEMI, Stroke, and QI plans based on compliance with Chapters 7, 7.1, 7.2, and 12 of the California Code of Regulations, Title 22, Division 9, and has been <u>approved</u> for implementation.

Per HSC § 1797.254, local EMS agencies must annually submit EMS plans to EMSA. Orange County EMS Agency will only be considered current if an EMS plan is submitted each year.

Your 2025 EMS plan will be due on or before January 7, 2026. Concurrently with the EMS plan, please submit an annual Trauma, STEMI, Stroke, and QI plan.

If you have any questions regarding the EMS plan review, please contact Roxanna Delao, EMS Plans Coordinator, at (916) 903-3260 or roxanna.delao@emsa.ca.gov.

Sincerely,

Tom McGinnis
Tom McGinnis, MHA, EMT-P

Chief, EMS Quality and Planning Division

2014 ORANGE COUNTY EMERGENCY MEDICAL SERVICES PLAN ANNUAL UPDATE December 2019

EXECUTIVE SUMMARY

California Health and Safety Code Section 1797.254, requires the Local Emergency Medical Services (EMS) Agency to submit an Emergency Medical Services Plan to the State EMS Authority (EMSA) and provide annual updates. The EMS Plan is a framework for the planning, implementation and evaluation of EMS in Orange County and addresses the local status of eight minimum standards, subsets and recommended goals of the EMS Authority, as well as anticipated future needs.

This annual update to the 2014 Orange County Emergency Medical Services (OCEMS) plan approved by the California EMSA in July 2014 provides the required information on the status of our system and progress toward meeting objective goals. **Notable 2018/19 system enhancements and activities** include but are not limited to:

American College of Surgeons Trauma System Consultation

During 2018, OCEMS received inquiries from multiple hospital system requesting information on trauma volume and how to apply as a trauma center. Due to the interest in providing trauma services and that the OC trauma system had not been objectively reviewed by an external entity to reflect current public-health based models to address the broader spectrum of injury, OCEMS initiated an external trauma system review by the American College of Surgeons (ACS). Specifically, ACS was requested to address the underlying structure of the trauma system design and determine the adequacy of current trauma services or necessity for additional trauma centers.

Mid-2019, a multi-disciplinary review team consisting of Trauma Surgeons, Emergency Physicians, Trauma Program Managers and Technical Advisors conducted a comprehensive assessment of the Trauma System. This included an on-site review in which many stakeholders attended and participated, providing the evaluation team with valuable insights. Using the Health Resources and Services Administration (HRSA) *Model Trauma System Planning and Evaluation* guide and the template described in *Regional Trauma Systems*, the in-depth, independent analysis includes over fifty recommendations. The final ACS report was distributed to the EMS system and in sum, the consultants noted:

- Geographic and population coverage of the county is excellent.
- The distribution of trauma centers is well-matched to the population density.
- Simple geospatial (GIS-based) analysis suggests that over 99% of the county's injured population is within 30 minutes from point of injury to a Level I or Level II center by ground and over 50% are within 15 minutes.
- The current Orange County Trauma System has worked well for many years.
- The decision to continue the current model or to reconfigure the system must be made locally and potential impacts to existing trauma centers should be considered.

OCEMS reviewed the report, identified key findings and shared these with the Health Care Agency leadership. Based on the ACS Final Report analysis, current resource capabilities and knowledge of our local EMS and Trauma System, OCEMS finds it unnecessary to increase the number of trauma centers. The Trauma System Plan will be updated annually and the system re-evaluated every 3-5 years to validate appropriate trauma care access.

2014 ORANGE COUNTY EMERGENCY MEDICAL SERVICES PLAN ANNUAL UPDATE December 2019

EXECUTIVE SUMMARY (cont'd)

9-1-1 Emergency Ambulance Transportation Performance (Regions A-B-C-D-E)

OCEMS provides oversight and monitoring of performance-based contracts in five county regions to ensure that high quality 9-1-1 Emergency Ambulance medical care and transportation services are provided 24 hours per day, 7 days a week through physical site visits, ongoing interaction with field crews, Operations Managers, and data analysis via the Orange County Medical Emergency Data System (OC-MEDS). During the last contract year, we are pleased to report that:

- >1000 hours of community education & outreach events were offered by the ambulance providers
- Ambulance response times consistently exceeded the 90th percentile standard
- Over 51,000 patients were safely transported to local emergency departments

Intranasal Naloxone by Law Enforcement

OCEMS Policy #398.00: Intranasal Naloxone by Law Enforcement First Responders published June 1, 2015 describes criteria for law enforcement officer administration of naloxone hydrochloride in cases of suspected acute opioid overdose. A standard training program was developed by OCEMS and initially, all training was done by OCEMS staff. A limited 6-month pilot of intranasal naloxone administered by trained law enforcement officers resulted in actual live saving of 7 serious overdoses encountered in the field. The training curriculum has now been expanded county-wide and is done by law enforcement training officers who have taken a train-the trainer course with OCEMS staff who also monitor the training provided.

Nearly all Orange County law enforcement and related agencies have been approved (24) and over 200 patients have received naloxone by law enforcement and survived.

OCEMS continues our mission to plan, coordinate and oversee the highest quality prehospital and emergency medical care in response to individual needs and community crisis. Mutual cooperation, patient advocacy, advanced medical technology, electronic documentation and evidence-based data are major strengths. Despite financial challenges affecting all stakeholders, the county of Orange and system participants remain committed to the integrity, effectiveness and adherence to the EMS plan standards. The policies referenced within the plan are available on the OCEMS website at http://www.healthdisasteroc.org/ems.

Section 2 Updated System Assessment Forms

System Organization and Management

1.18 QA/QI

MINIMUM STANDARDS:

Each local EMS agency shall establish a quality assurance/quality improvement (QA/QI) program. This may include use of provider-based programs which are approved by the local EMS agency and which are coordinated with other system participants.

RECOMMENDED GUIDELINES:

Pre-hospital care providers should be encouraged to establish in-house procedures, which identify methods of improving the quality of care provided.

CURRENT STATUS: Meets minimum standard

NEED(S):

Standard is met. Objectives developed to enhance provider-level QA/QI processes.

OBJECTIVE(S):

- **1.18.3** Enhance ALS in-house QI programs
- **1.18.4** Institute BLS level QI plans

<u>August 2015 Update: IN PROGRESS</u>: Received 95% of ALS CQI Plans (11/12 EMT-P; 4/4 IFT-ALS/Air Ambulance Providers) and evaluating. External Fire Chiefs/EMS CQI group regularly meets.

<u>August 2016 Update: IN PROGRESS</u>: Received 100% of ALS CQI Plans. ALS/CQI Coordinator has evaluated and provided feedback to individual agencies and continues to share progress, best practices, etc. at external Fire Chiefs/EMS CQI group on a monthly basis.

June 2017 Update: IN PROGRESS: 100% of 911 ALS Providers have submitted full CQI plans. 11 of 12 911 ALS providers submitted updates in 2017. ALS/CQI Coordinator has reached out to the remaining provider, Orange County Fire Authority, to offer assistance in completing annual regulatory requirement. Standardized due dates for submission have been communicated to the Fire Chiefs EMS CQI Committee, e.g. updates for 2017 must be submitted to OCEMS by March 31, 2018. ALS/CQI Coordinator regularly attends external Fire Chiefs EMS CQI meetings.

October 2018 Update: IN PROGRESS All ALS providers have submitted their 2017 annual updates to their CQI plans. The ALS/CQI Coordinator continues to attend the Fire EMS CQI Meetings. This group has formalized several CQI review studies to drive further education for field providers. This group provides valuable input into review and revisions of field care.

December 2019: COMPLETED All ALS/BLS providers and Base Hospitals have submitted their CQI plans for three consecutive years and collaborate within the Fire EMS CQI Meetings on aligning indicators to drive education.

TIME FRAME FOR MEETING OBJECTIVE:

Г	1 Short-Range	Plan	(one	vear	or	lecc)	۱

System Organization and Management

1.24 ALS SYSTEMS

MINIMUM STANDARDS:

Advanced life support services shall be provided only as an approved part of a local EMS system and all ALS providers shall have written agreements with the local EMS agency.

RECOMMENDED GUIDELINES:

Each local EMS agency, based on state approval, should, when appropriate, develop exclusive operating areas for ALS providers.

CURRENT STATUS: Does not meet minimum standard

NEED(S):

Although all providers adhere to OCEMS medical control policies and procedures, there is a need to pursue agreements with ALS service providers.

OBJECTIVE:

1.24.1 Propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

<u>August 2015 Update: IN PROGRESS</u>: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agendize Ordinance revision

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agendize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2019 Update: COMPLETED: The Orange County ambulance ordinance has been amended but has not received final endorsement by the Board of Supervisors. ALS agreements are unnecessary as all non-county ALS providers (Cities) employed mobile intensive care paramedics under the "Wedsworth-Townsend Act." Further, the local EMS plan (after 1980) acknowledged that all paramedic services were provided by public agencies.

TIME FRAME FOR MEETING OBJECTIVE:

	Short-	Range Plai	ı (one	year	or	less))
--	--------	------------	--------	------	----	-------	---

System Organization and Management

1.27 PEDIATRIC SYSTEM PLAN

MINIMUM STANDARDS:

The local EMS agency shall develop a pediatric emergency medical and critical care system plan, based on community needs and utilization of appropriate resources, which determines: the optimal system design for pediatric emergency medical and critical care in the EMS area, and the process for assigning roles to system participants, including a process which allows all eligible facilities to apply.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Does not meet minimum standard

NEED(S):

Although pediatric emergency medical and critical care is provided within the county and all OCEMS designated emergency receiving centers are pediatric capable, a formal pediatric plan has not been integrated into the countywide EMS plan.

OBJECTIVE:

1.27.1 Conduct a comprehensive evaluation of pediatric transport volume to include primary mode of transport; destination; interfacility transport rates from emergency receiving centers higher level of care centers, including trauma; population distribution, etc.

<u>August 2015 Update: COMPLETED:</u> A health impact analysis of pediatric utilization with a focus on pediatric trauma was completed in December 2014 resulting in the addition of a level II pediatric trauma center into the Orange County EMS system.

August 2016 New Objective:

1.27.2 Conduct a pediatric readiness survey of all emergency receiving centers to assess progress and current readiness to provide emergency care for pediatrics; utilize survey results to determine if a potential re-design of the EMS transport system is indicated.

<u>August 2017 Update:</u> IN PROGRESS: A pediatric readiness survey was conducted to assess all emergency receiving centers readiness to provide emergency care for pediatrics. A follow up survey was conducted to assess emergency receiving centers commitment to receiving and providing care for pediatric emergencies. The survey results are being analyzed to determine if a potential re-design of the EMS transport system is indicated.

October 2018 Update: IN PROGRESS: A one year pilot project is being conducted with contact and transport criteria for identifying pediatric patients (age 14 and under) needing transport to designated Comprehensive Children's Emergency Receiving Centers (CCERC) in Orange County. The purpose is to identify the criteria for EMS personnel when a pediatric patient should be transported to the nearest CCERC and when contact should be made directly to that CCERC.

October 2019 Update: COMPLETED:_As a result of the pilot and its success, OCEMS authorized Children's Hospital of Orange County (CHOC) as a Base Hospital and updated the relevant policies associated with online medical direction and triage decisions for critically ill children.

TIME FRAME FOR MEETING OBJECTIVE:

	Short-Range	Dlan	(one weer or	lace)	
ப	Short-Range	Pian	tone vear or	IESS I	

System Organization and Management

1.28 EOA Plan

MINIMUM STANDARDS:

The local EMS agency shall develop and submit for State approval, a plan, based on community needs and utilization of appropriate resources, for granting of exclusive operating areas, that determines: a) the optimal system design for ambulance service and advanced life support services in the EMS area, and b) the process for assigning roles to system participants, including a competitive process for implementation of exclusive operating areas.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

OCEMS received direction from the Emergency Medical Services Authority (EMSA) that the competitive process in place allowing RFP awarding authority to OCFA for implementation of exclusive operating areas was not permissible based on the appellate court ruling in County of Butte v. California Emergency Medical Services Authority (2010) 187 cal.App.4th 1175. In sum, EMSA ruled that OCEMS cannot delegate to OCFA the authority to conduct RFP's and award emergency ambulance contracts under the Orange County EMS Plan.

Despite the challenges of amending pre-Butte decision practices, OCEMS was fortunate to have a functional system in place that allowed transition of the competitive process to OCEMS. It was our objective to simultaneously maintain current contractual compliance to the emergency medical system standards within each area, implement immediate procedures to ensure the continued exclusivity protections and conduct a competitive RFP.

OBJECTIVE(S):

1.28.1: Propose an EOA system re-design that formally establishes reconfiguration of boundaries and compliance standards with EOA procedures and periodic intervals to re-evaluate the design.

<u>August 2015 Update: COMPLETED</u>: Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015

1.28.2: Propose a major revision to Ambulance Ordinance No. 3517 to reflect EOA system re-design and compliance standards with EOA procedures.

<u>August 2015 Update: COMPLETED</u>: In coordination with EMCC sub-committee, OCEMS & the Ambulance Ordinance Task Group (AOTG) comprehensively revised Ordinance No. 3517; presented amendments to EMCC & scheduled first public reading at Board meeting September 2014. Consider revising goal.

Short-Range Plan	(one year	or less)

UPDATED SYSTEM ASSESSMENT FORMS Staffing/Training

2.01 ASSESSMENT OF NEEDS

MINIMUM STANDARDS:

The local EMS agency shall routinely assess personnel and training needs.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

Standard is met. Objectives developed to enhance provider-level educational programs.

OBJECTIVE:

2.01.1: Development of educational programs that include patient outcome data will strengthen the overall curriculum for all EMS providers. The integration of hospital patient outcome data into OC-MEDS will provide the final variable for determining ongoing curriculum needs.

<u>August 2015 Update: IN PROGRESS</u>: Completed two educational presentations at "No Fear" conferences which discussed outcome data. Continuing to test Patient Registry in the Alternate Destination project and preparing to implement Base Hospital test Patient Registry data entry.

<u>August 2016 Update: IN PROGRESS</u>: While the use of the OC-MEDS Patient Registry is proving the value of outcome information for determining the efficacy of prehospital patient care, OCEMS is committed to the development of Health Information Exchange (HIE) networks to more efficiently obtain and share relevant patient care information. OCEMS has partnered with our regional Health Information Organization (HIO) to facilitate the bi-directional data exchange which will result in the routine availability of patient outcome data.

<u>August 2017 Update: IN PROGRESS:</u> While significant progress has been made with the development of bi-directional Health Information Exchange (HIE) between EMS providers and receiving hospitals (including the receipt of outcome data), more EMS providers need to be added to the HIE and much work needs to be done to improve outcome data quality. OCEMS is working with our Regional HIE (OCPRHIO) and our software vendor to onboard additional EMS providers and implement technical improvements to ensure for the availability of current and relevant patient outcome data.

October 2018 Update: IN PROGRESS: OCEMS is continuing to work with system stakeholders to implement bidirectional Health Information Exchange (HIE) throughout the county and has provided several educational opportunities during the year to inform system stakeholders about the HIE project.

October 2019 Update: IN PROGRESS: No change

- ☐ Short-Range Plan (one year or less)
- ☑ Long-Range Plan (more than one year)

Response/Transportation

4.01 SERVICE AREA BOUNDARIES

MINIMUM STANDARDS:

The local EMS agency shall determine the boundaries of emergency medical transportation service areas.

RECOMMENDED GUIDELINES:

The local EMS agency should secure a county ordinance or similar mechanism for establishing emergency medical transport service areas (e.g., ambulance response zones).

CURRENT STATUS: Meets minimum standard

COORDINATION WITH OTHER EMS AGENCIES:

NEED(S):

OBJECTIVE:

4.01.1: Propose an EOA system re-design that formally establishes reconfiguration of boundaries and compliance standards with EOA procedures.

<u>August 2015 Update: COMPLETED</u>: Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015.

4.01.2 Propose a major revision to Ambulance Ordinance No. 3517 to reflect EOA system re-design and compliance standards with EOA procedures.

<u>August 2015 Update: COMPLETED</u>: In coordination with EMCC sub-committee, OCEMS & the Ambulance Ordinance Task Group (AOTG) comprehensively revised Ordinance No. 3517; presented amendments to EMCC & scheduled first public reading at Board meeting September.

- Short-Range Plan (one year or less)
- □ Long-Range Plan (more than one year)

Response/Transportation

4.02 MONITORING

MINIMUM STANDARDS:

The local EMS agency shall monitor emergency medical transportation services to ensure compliance with appropriate statutes, regulations, policies, and procedures.

RECOMMENDED GUIDELINES:

The local EMS agency should secure a county ordinance or similar mechanism for licensure of emergency medical transport services. These should be intended to promote compliance with overall system management and should, wherever possible, replace any other local ambulance regulatory programs within the EMS area.

CURRENT STATUS: Meets minimum standard

NEED(S):

The current Ambulance Ordinance is not meeting our local needs for optimal system coordination and requires major revision. This and other existing policies are fundamental authorities that will guide providers during and after the OCEMS competitive process. As stated in standard 1.28, this transition requires multiple steps that include but are not limited to, major revisions to Ambulance Ordinance 3517; inclusion of Policies & Procedures to define competitive process; major revisions to existing transport, provider and system policies, financial support to employ personnel resources for direct contractual performance monitoring; and immediate consideration of a regional system.

OBJECTIVE(S):

4.02.1: Propose a major revision to Ambulance Ordinance No. 3517 to reflect EOA system re-design and compliance standards with EOA procedures.

<u>August 2015 Update: COMPLETED</u>: In coordination with EMCC sub-committee, OCEMS & the Ambulance Ordinance Task Group (AOTG) comprehensively revised Ordinance No. 3517; presented amendments to EMCC & scheduled first public reading at Board meeting September.

4.02.2: Propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

September 2017 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agendize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agendize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2019 Update: COMPLETED: The Orange County ambulance ordinance has been amended but has not received final endorsement by the Board of Supervisors.

- ⊠ Short-Range Plan (one year or less)
- □ Long-Range Plan (more than one year)

Response/Transportation

4.18 TRANSPORT COMPLIANCE

MINIMUM STANDARDS:

The local EMS agency shall have a mechanism (e.g., an ordinance and/or written provider agreements) to ensure that EMS transportation agencies comply with applicable policies and procedures regarding system operations and clinical care.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

Written agreements with all EMS system providers, public and private, would optimize coordination of transported medical patients and standardize performance criteria systemwide.

OBJECTIVE(S):

4.18.1: Present to the EMS Authority an Orange County EOA Transition Plan that illustrates a phased approach to managing significant shifts from the current EOA design.

<u>August 2015 Update: COMPLETED</u>: Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015

4.18.2: By year end 2015, propose a major revision to Ambulance Ordinance No. 3517 to reflect EOA system redesign and compliance standards with EOA procedures.

<u>August 2015 Update: COMPLETED</u>: In coordination with EMCC sub-committee, OCEMS & the Ambulance Ordinance Task Group (AOTG) comprehensively revised Ordinance No. 3517; presented amendments to EMCC & scheduled first public reading at Board meeting September 2014.

4.18.3: Update applicable OCEMS P&P to include H&S, Title XX11 authorities.

<u>August 2015 Update: IN PROGRESS</u>: Reviewed & drafting revisions on multiple policies consistent with proposed ordinance amendments. Released OCEMS Medical Control policies #350.00 & #352.00 to ensure system operations and clinical care in the event county administered areas are deemed non-exclusive.

August 2016 Update: IN PROGRESS: Ongoing review and revision of multiple policies.

September 2017 Update: COMPLETED: All applicable policies reviewed and revised.

4.18.04: By year end 2015, propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agendize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2019 Update: COMPLETED: The Orange County ambulance ordinance has been amended but has not has not received final endorsement by the Board of Supervisors. ALS agreements are unnecessary as all non-county ALS providers (Cities) employed mobile intensive care paramedics under the "Wedsworth-Townsend Act." Further, the local EMS plan (after 1980) acknowledged that all paramedic services were provided by public agencies. Private agencies operate under local policy and procedures.

- ☐ Short-Range Plan (one year or less)
- ☑ Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS Response/Transportation

4.19 TRANSPORTATION PLAN

MINIMUM STANDARDS:

Any local EMS agency that desires to implement exclusive operating areas, pursuant to Section 1797.224, H&S Code, shall develop an EMS transportation plan which addresses: a) minimum standards for transportation services; b) optimal transportation system efficiency and effectiveness; and c) use of a competitive bid process to ensure system optimization.

RECOMMENDED GUIDELINES: None

CURRENT STATUS: Meets minimum standard

NEED(S):

OBJECTIVE(S):

4.19.1: Present to the Authority of an Orange County EOA Transition Plan that illustrates a phased approach to managing a substantial shift within the current EOA design.

<u>August 2015 Update: COMPLETED</u>: Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015

4.19.2: By year end 2015, establish an EOA transportation plan based on the emergency needs of all citizens, regardless of ability to pay that continuously adheres to medical standards of care and is in compliance with procedures to ensure state-action immunity from federal anti-trust claims. The plan will include elements required under standards 1.28, 4.01, 4.02, 4.10, 4.18, 4.19, 4.20, 4.21 and 4.22.

<u>August 2015 Update: IN PROGRESS</u>: Completed Exclusive Operating Area Transition Plan: Phase 1. Ongoing Phase 2 involves City-Administered Operating Areas that may request to enter into written agreements for prehospital emergency medical services including transportation or retain administrative rights by providing historical evidence of services. County Administered Exclusive Operating Area boundaries may be reconfigured dependent upon requests.

October 2018 Update: IN PROGRESS: - No requests from city-administered operating areas received.

October 2019 Update: COMPLETED: See response under 4.19.3.

4.19.3: By year end 2015, propose written agreements with transport providers, public and private, to promote compliance to system standards, medical control directives and EOA procedures.

August 2015 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agendize Ordinance revision.

October 2019 Update: COMPLETED: The Orange County ambulance has been amended but has not received final endorsement by the Board of Supervisors. ALS agreements are unnecessary as all non-county ALS providers (Cities) employed mobile intensive care paramedics under the "Wedsworth-Townsend Act." Further, the local EMS plan (after 1980) acknowledged that all paramedic services were provided by public agencies. Private agencies operate under local policy and procedures.

Response/Transportation

4.20 "GRANDFATHERING"

MINIMUM STANDARDS:

Any local EMS agency which desires to grant an exclusive operating permit without use of a competitive process shall document in its EMS transportation plan that its existing provider meets all of the requirements for non-competitive selection ("grandfathering") under Section 1797.224, H&SC.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

OBJECTIVE:

4.20.1: By year end 2015, establish an EOA transportation plan based on the emergency needs of all citizens, regardless of ability to pay that continuously adheres to medical standards of care and is in compliance with procedures to ensure state-action immunity from federal anti-trust claims. The plan will include elements required under standards 1.28, 4.01, 4.02, 4.10, 4.18, 4.19, 4.20, 4.21 and 4.22.

<u>August 2015 Update: IN PROGRESS</u>: Completed Exclusive Operating Area Transition Plan: Phase 1. Ongoing Phase 2 involves City-Administered Operating Areas that may request to enter into written agreements for prehospital emergency medical services including transportation or retain administrative rights by providing historical evidence of services. County Administered Exclusive Operating Area boundaries may be reconfigured dependent upon requests.

October 2018 Update: IN PROGRESS: No requests from city-administered operating areas received.

October 2019 Update: COMPLETED: The Orange County ambulance has been amended but has not received final endorsement by the Board of Supervisors. ALS agreements are unnecessary as all non-county ALS providers (Cities) employed mobile intensive care paramedics under the "Wedsworth-Townsend Act." Further, the local EMS plan (after 1980) acknowledged that all paramedic services were provided by public agencies.

TIME FRAME FOR MEETING OBJECTIVE:

7	Short-Range Plan	(one vear or	less)

Response/Transportation

4.21 EOA COMPLIANCE

MINIMUM STANDARDS:

The local EMS agency shall have a mechanism to ensure that EMS transportation and/or advanced life support agencies to whom exclusive operating permits have been granted, pursuant to Section 1797.224, H&SC, comply with applicable policies and procedures regarding system operations and patient care.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

Written agreements with all EMS system providers, public and private, are needed to optimize coordination of transported medical patients and standardize performance criteria systemwide.

OBJECTIVE:

4.21.1: By year end 2015, propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

<u>August 2015 Update: IN PROGRESS</u>: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agendize Ordinance revision.

September 2016 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agendize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agendize Ordinance revision. Response/Transportation

4.22 EOA EVALUATION

MINIMUM STANDARDS:

The local EMS agency shall periodically evaluate the design of exclusive operating areas.

RECOMMENDED GUIDELINES:

None.

CURRENT STATUS: Meets minimum standard

NEED(S):

As stated in standard 1.28, this evaluation requires multiple steps that include but are not limited to, major revisions to Ambulance Ordinance 3517; inclusion of Policies & Procedures to define competitive process; major revisions to existing transport, provider and system policies, financial support to employ personnel resources for direct contractual performance monitoring; and immediate consideration of a regional system.

OBJECTIVE:

4.22.1: By year end 2014, propose an EOA system re-design that formally establishes reconfiguration of boundaries, compliance standards with EOA procedures and periodic intervals to re-evaluate the design.

<u>August 2015 Update: COMPLETED</u>: Feb 2014 EMS Exclusive Operating Area Transition Plan proposed & approved July 2014; RFP#OC2014.01 included EOA re-configuration & concluded with contract award June 2015.

- ⊠ Short-Range Plan (one year or less)
- ☐ Long-Range Plan (more than one year)

Data Collection/System Evaluation

6.01 QA/QI PROGRAM

MINIMUM STANDARDS:

The local EMS agency shall establish an EMS quality assurance/quality improvement (QA/QI) program to evaluate the response to emergency medical incidents and the care provided to specific patients. The programs shall address the total EMS system, including all pre-hospital provider agencies, base hospitals, and receiving hospitals. It shall address compliance with policies, procedures, and protocols, and identification of preventable morbidity and mortality, and shall utilize state standards and guidelines. The program shall use provider based QA/QI programs and shall coordinate them with other providers.

RECOMMENDED GUIDELINES:

The local EMS agency should have the resources to evaluate response to, and the care provided to, specific patients.

CURRENT STATUS: Meets minimum standard

NEED(S):

OBJECTIVE:

6.01.1: By year end 2014, propose a conversion of the contracted CQI RN to a permanent EMS-budgeted full-time equivalent (FTE) position.

August 2015 Update: COMPLETED: Approved to add permanent FT OC-MEDS Coordinator FY15/16.

- Short-Range Plan (one year or less)
- ☐ Long-Range Plan (more than one year)

Data Collection/System Evaluation

6.02 PREHOSPITAL RECORDS

MINIMUM STANDARDS:

Pre-hospital records for all patient responses shall be completed and forwarded to appropriate agencies as defined by the local EMS agency.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard

NEED(S):

OBJECTIVE:

6.02.1: By year end 2015, integrate OC-MEDS documentation standards within licensing requirements. Specifically targeting, all non-emergency BLS transports originating within OC.

<u>August 2015 Update: IN PROGRESS</u>: Modified Policy 720.60 to include a provision requiring that all BLS (non-emergency) patient care and transportation be documented electronically and data submitted to OC-MEDS in NEMSIS compliant format by June 1, 2016.

<u>August 2016 Update: COMPLETED</u> – OCEMS Policies #300.30: OC-MEDS EMS Provider Patient Care Reporting & #300.32: OC-MEDS EMS Provider Data Submission Process revised to include requirements per AB1129.

- ☐ Short-Range Plan (one year or less)
- ☑ Long-Range Plan (more than one year)

Data Collection/System Evaluation

6.05 DATA MANAGEMENT SYSTEM

MINIMUM STANDARDS:

The local EMS agency shall establish a data management system that supports its system-wide planning and evaluation (including identification of high risk patient groups) and the QA/QI audit of the care provided to specific patients. It shall be based on state standards.

RECOMMENDED GUIDELINES:

The local EMS agency should establish an integrated data management system which includes system response and clinical (both pre-hospital and hospital) data.

The local EMS agency should use patient registries, tracer studies, and other monitoring systems to evaluate patient care at all stages of the system.

CURRENT STATUS: Meets minimum standard

COORDINATION WITH OTHER EMS AGENCIES:

NEEDS:

Standard is met. Objective developed to enhance data capture of specialty patients.

OBJECTIVE:

6.05.2: By year end 2014, implement the OC-MEDS patient registry module to begin capturing specialty patient data.

<u>August 2015 Update: IN PROGRESS</u>: STEMI and Stroke data collection forms and permission levels have been developed. Continue to refine processes and data elements to meet system needs. Currently receiving trauma data in NTDB format from four (4) trauma centers (OCG, MSN, UCI, LBM) via scheduled quarterly imports. CHOC is using the Patient Registry Trauma Incident Form as their Trauma Registry and performing direct data entry.

<u>August 2016 Update: IN PROGRESS:</u> Countywide Stroke Registry has been completed and is in pilot testing. Implementation is expected by early 2017. STEMI policies in development to support refined processes and data elements. STEMI Registry Pilot testing expected to begin by early to mid-2017.

<u>August 2017 Update: IN PROGRESS:</u> As of Q2 2017, the OC Stroke Registry has been fully implemented. OCEMS designated Stroke Centers have been trained how to the use system and are submitting Stroke patient data accordingly. OCEMS plans to implement a STEMI Registry, with projected implementation of Q1 or Q2 2018.

October 2018 Update: IN PROGRESS: All SNRCs are currently submitting stroke patient data through the OCMEDS Stroke Registry. We continue to refine our processes and discuss with stakeholders which data elements will meet system needs and not create undue burden on the stakeholders' ability to do data abstraction. Plans to implement an OC-MEDS STEMI Registry has been postponed and we will continue to receive the required data by hard copy or email.

October 2019 Update: IN PROGRESS: No Change from prior update.

TIME FRAME FOR MEETING OBJECTIVE:

☐ Short-Range Plan (one year or less)

ORANGE

Reporting Year: 2018 Number of primary Public Service Answering Points (PSAP) 20 19 primary PSAPs (15-City law enforcement; 1-county sheriff (OCSD); 3-state: CHP, CSUF, UCI; Disneyland) Number of secondary PSAPs <u>5</u> (Costa Mesa, LACoFD, Laguna Beach, MetroNet, OCFA) Number of dispatch centers directly dispatching ambulances <u>5</u> (Costa Mesa, LACoFD, Laguna Beach, MetroNet, OCFA) Number of EMS dispatch agencies utilizing EMD guidelines <u>4</u> (LACoFD, Laguna Beach, MetroNet, OCFA) Number of designated dispatch centers for EMS Aircraft 4 (LACoFD, MetroNet, OCFA, OCSD) OCSD + 15 Cities 6. Who is your primary dispatch agency for day-to-day emergencies? OCSD + 15 Cities 7. Who is your primary dispatch agency for a disaster? 8. Do you have an operational area disaster communication system? **X** Yes □ No Radio primary frequency Public Safety VHF, UHF, 800 MHz a. b. Other methods Telephone, fax, satellite phone, radio, amateur radio Can all medical response units communicate on the same disaster **X** Yes □ No c. communications system? d. Do you participate in the Operational Area Satellite Information System X Yes □ No (OASIS)? Do you have a plan to utilize the Radio Amateur Civil Emergency Services $\underline{X Yes} \square No$ e. (RACES) as a back-up communication system? 1) Within the operational area? X Yes □ No 2) Between operation area and the region and/or state? $\underline{X Yes} \square No$

TABLE 5: RESPONSE/TRANSPORTATION

Reporting Year: 2018

Note: Table 5 is to be reported by agency.

Early Defibrillation Providers (BLS Ambulance)

1. Number of EMT-Defibrillation providers 23

SYSTEM STANDARD RESPONSE TIMES (90TH PERCENTILE)

Enter the response times in the appropriate boxes:

	METRO/URBAN	SUBURBAN/ RURAL	WILDERNESS	SYSTEMWIDE
BLS and CPR capable first responder	3 – 5 minutes	N/A	N/A	3 – 5 minutes
Early defibrillation responder	3 – 5 minutes	N/A	N/A	3 – 5 minutes
Advanced life support responder	5 – 7 minutes	N/A	N/A	5 – 7 minutes
Transport Ambulance	< 10 minutes	N/A	N/A	< 10 minutes

TABLE 6: FACILITIES/CRITICAL CARE
Reporting Year: FY2018/19
NOTE: Table 6 is to be reported by agency.

Trauma

Trauma Patients:	
1. Number of patients meeting trauma triage criteria	7,478
2. Number of major trauma victims transported directly to a trauma center by ambulance	7,052
3. Number of major trauma patients transferred to a trauma center	<u>426</u>
4. Number of patients meeting triage criteria who weren't treated at a trauma center	<u>0</u>
Emergency Departments	
Total number of emergency departments	<u>25</u>
1. Number of referral emergency services	<u>0</u>
2. Number of standby emergency services	<u>0</u> <u>0</u>
3. Number of basic emergency services	<u>24</u>
4. Number of comprehensive emergency services	<u>1</u>
Receiving Hospitals	
1. Number of receiving hospitals with written agreements	<u>25</u>
2. Number of base hospitals with written agreements	7

TABLE 7: DISASTER MEDICAL

Reporting Year: 2019
County: ORANGE

NOTE: Table 7 is to be answered for each county.

SYSTEM RESOURCES

1.	a. Where are your CCPs located? Schools, senior centers, fire stations	
	b. How are they staffed? <u>Local medical professionals, city personnel, fire personnel, National</u> c. Do you have a supply system for supporting them for 72 hours?	<u>I Guard (later)</u> X Yes
2.	CISD Do you have a CISD provider with 24 hour capability?	X Yes □ No
3.	Medical Response Team a. Do you have any team medical response capability? b. For each team, are they incorporated into your local response plan? c. Are they available for statewide response? d. Are they part of a formal out-of-state response system?	X Yes □ No X Yes □ No X Yes □ No X Yes □ No
4.	Hazardous Materials a. Do you have any HazMat trained medical response teams? b. At what HazMat level are they trained? "A"; technician, specialist, first responde c. Do you have the ability to do decontamination in an emergency room? d. Do you have the ability to do decontamination in the field?	<u>X Yes</u> □ No er <u>X Yes</u> □ No <u>X Yes</u> □ No
OP	ERATIONS	
1.	Are you using a Standardized Emergency Management System (SEMS) that incorporates a form of Incident Command System (ICS) structure?	X Yes □ No
2.	What is the maximum number of local jurisdiction EOCs you will need to interact with in a disaster?	<u>73</u>
3.	Have you tested your MCI Plan this year in a: a. real event? b. exercise?	X Yes □ No X Yes □ No

TABLE 7: DISASTER MEDICAL (cont.)

4.	List all counties with which you have a written medical mutual aid agreement:							
	Regions I (San Luis Obispo, Santa Barbara, Ventura, Los Angeles) and VI (Mono, Inyo, San							
	Bernardino, Riverside, San Diego, Imperial) Inter-Region Cooperative Agreement	for Emergency						
	Medical Health Disaster Assistance							
5.	Do you have formal agreements with hospitals in your operational area to participate in disaster planning and response?	X Yes □ No						
6.	Do you have a formal agreements with community clinics in your operational areas to participate in disaster planning and response?	X Yes □ No						
7.	Are you part of a multi-county EMS system for disaster response?	☐ Yes X No						
8.	Are you a separate department or agency?	☐ Yes X No						
9.	If not, to whom do you report? <u>Director, Orange County Health Care Agency</u>							
8.	If your agency is not in the Health Department, do you have a plan to coordinate public health and environmental health issues with the Health Department?	N/A

EMS PLAN AMBULANCE ZONE SUMMARY FORM

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name: Orange County EMS

Area or Subarea (Zone) Name or Title: Region A (Placentia, Yorba Linda)

Name of Current Provider(s):

Include company name(s) and length of operation (uninterrupted) in specified area or subarea.

Emergency Ambulance Service, Inc.

Area or Subarea (Zone) Geographic Description:

City boundaries of Placentia, Yorba Linda and Unincorporated/County Islands: Brea Unincorporated, Tonner Canyon, Chino Hills State Park, Country Club, Fairlynn

Statement of Exclusivity (Exclusive or Non-Exclusive [HS 1797.6]):

Include intent of local EMS agency and board action.

Exclusive

Type of Exclusivity ("Emergency Ambulance," "ALS," or "LALS" [HS 1797.85]):

Include type of exclusivity (Emergency Ambulance, ALS, LALS, or combination) and operational definition of exclusivity (e.g., 911 calls only, all emergencies, all calls requiring emergency ambulance service, etc.).

Emergency Ambulance, 9-1-1 Emergency Response

Method to achieve exclusivity, if applicable (HS 1797.224):

If grandfathered, pertinent facts concerning changes in scope and manner of service. Description of current provider including brief statement of uninterrupted service with no changes to scope and manner of service to zone. Include chronology of all services entering or leaving zone, name or ownership changes, service level changes, zone area modifications, or other changes to arrangements for service.

 $If \ \underline{competitively\text{-}determined}, \ method \ of \ competition, \ intervals, \ and \ selection \ process.$ Attach $\ copy/draft$ of last competitive process used to select provider or providers.

EMS PLAN AMBULANCE ZONE SUMMARY FORM

In order to evaluate the nature of each area or subarea, the following information should be compiled for each zone individually. Please include a separate form for each exclusive and/or nonexclusive ambulance zone.

Local EMS Agency or County Name: Orange County EMS

Area or Subarea (Zone) Name or Title: Region B (Cypress, La Palma, Los Alamitos, Seal Beach, Stanton)

Name of Current Provider(s):

Include company name(s) and length of operation (uninterrupted) in specified area or subarea.

Care Ambulance Service, Inc.

UPDATED SYSTEM ASSESSMENT FORMS System Organization and Management

1.24 ALS SYSTEMS

MINIMUM STANDARDS:

Advanced life support services shall be provided only as an approved part of a local EMS system and all ALS providers shall have written agreements with the local EMS agency.

RECOMMENDED GUIDELINES:

Each local EMS agency, based on state approval, should, when appropriate, develop exclusive operating areas for ALS providers.

CURRENT STATUS: Per EMSA, does not meet minimum standard.

NEED(S):

All ALS providers adhere to OCEMS medical control policies and procedures. There is a need to clarify the need to establish ALS agreements for provider agencies that performed ALS prior to the enactment of the EMS Act.

OBJECTIVE:

1.24.1 Propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

<u>August 2015 Update: IN PROGRESS</u>: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agenize Ordinance revision.

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. The ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. OCEMS continues to work with HCA Administration to re-agenize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2019 Update: COMPLETED: The Orange County ambulance ordinance has been amended but has not received final endorsement by the Board of Supervisors. ALS agreements are unnecessary as all non-county ALS providers (Cities) employed mobile intensive care paramedics under the "Wedsworth-Townsend Act." Further, the local EMS plan (after 1980) acknowledged that all paramedic services were provided by public agencies.

<u>August 2023 Update: IN PROGRESS</u>: On 2/2/23, provided additional historical documentation of public ALS providers in service prior to 1980 (1978 EMS Plan). Awaiting EMSA response.

<u>August 2024 Update COMPLETED</u>: Historical documentation of public ALS providers in service prior to 1980 within 1978 EMS Plan (See page 12). All Orange County ALS public/fire providers are authorized as a provider within the organized EMS system, follow local EMS medical control directives & participate in QI activities.

TIME FRAME FOR MEETING OBJECTIVE:

	Short-	Range	Plan	(one	year	or	less))

UPDATED SYSTEM ASSESSMENT FORMS Staffing/Training

2.01 ASSESSMENT OF NEEDS

MINIMUM STANDARDS:

The local EMS agency shall routinely assess personnel and training needs.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard.

NEED(S):

Standard is met. Objectives developed to enhance provider-level educational programs.

OBJECTIVE:

2.01.1: Development of educational programs that include patient outcome data will strengthen the overall curriculum for all EMS providers. The integration of hospital patient outcome data into OC-MEDS will provide the final variable for determining ongoing curriculum needs.

<u>August 2015 Update: IN PROGRESS</u>: Completed two educational presentations at "No Fear" conferences which discussed outcome data. Continuing to test Patient Registry in the Alternate Destination project and preparing to implement Base Hospital test Patient Registry data entry.

<u>August 2016 Update: IN PROGRESS</u>: While the use of the OC-MEDS Patient Registry is proving the value of outcome information for determining the efficacy of prehospital patient care, OCEMS is committed to the development of Health Information Exchange (HIE) networks to obtain and share relevant patient care information more efficiently. OCEMS has partnered with our regional Health Information Organization (HIO) to facilitate the bi-directional data exchange which will result in the routine availability of patient outcome data.

August 2017 Update: IN PROGRESS: While significant progress has been made with the development of bi-directional Health Information Exchange (HIE) between EMS providers & receiving hospitals (including receipt of outcome data), more EMS providers need to be added to the HIE & much work needs to be done to improve outcome data quality. OCEMS is working with our Regional HIE (OCPRHIO) & our software vendor to onboard additional EMS providers and implement technical improvements to ensure for the availability of current & relevant patient outcome data.

October 2018 Update: IN PROGRESS: OCEMS is continuing to work with system stakeholders to implement bi-directional Health Information Exchange (HIE) throughout the county & has provided several educational opportunities during the year to inform system stakeholders about the HIE project.

October 2019 Update: IN PROGRESS: No change

October 2020 Update: Submitted proposal utilizing Epidemiology & Laboratory Capacity (ELC) funding for an EMS Bi-Directional Data Exchange Project to create technical linkages between EMS providers & designated emergency receiving centers (ERCs). OCPRHIO no longer involved.

<u>November 2021 Update</u>: Implemented Bi-Directional Data Exchange Project to enable more real time hospital data. ADT Software/EMS Health Information Hub will establish direct bi-directional data exchange between EMS providers & each designated emergency receiving center (ERC).

<u>August 2022 Update:</u> Enhancements to existing EMS data system modules (Health Information Hub) & EMS reporting & analytics software to allow aggregated patient outcome dashboards completed. Continue to engage with ERCs to coordinate agreements, security assessments, VPN connections & configuration/testing.

<u>August 2023 Update</u>: Initial beta testing completed with one provider and one ERC & starting to expand to others. All ERCs onboard with varying levels of progress.

<u>August 2024 Update: COMPLETED</u> Bi-Directional Data Exchange project successfully implemented with 21 out of 24 local ERCs participating and submitting outcome data in near real time. More information about the project can be found on the OCEMS website at: https://www.ochealthinfo.com/ems/OC-MEDS/HIH

TIME FRAME FOR MEETING OBJECTIVE:

- ☐ Short-Range Plan (one year or less)
- □ Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS Response/Transportation

4.21 EOA COMPLIANCE

MINIMUM STANDARDS:

The local EMS agency shall have a mechanism to ensure that EMS transportation and/or advanced life support agencies to whom exclusive operating permits have been granted, pursuant to Section 1797.224, H&SC, comply with applicable policies and procedures regarding system operations and patient care.

RECOMMENDED GUIDELINES: None.

CURRENT STATUS: Meets minimum standard.

NEED(S):

Written agreements with all EMS system providers, public and private, are needed to optimize coordination of transported medical patients and standardize performance criteria systemwide.

OBJECTIVE:

4.21.1: By year end 2015, propose written agreements with transport providers, public and private to promote compliance to system standards, medical control directives and EOA procedures.

<u>August 2015 Update: IN PROGRESS</u>: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agenize Ordinance revision.

September 2016 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agenize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

October 2018 Update: IN PROGRESS: The authority to propose written agreements resides within Health & Safety Code, Title XXII and local Ambulance Ordinance No. 3517 & OCEMS Policy & Procedures. Ability to initiate written agreements is dependent upon Board action of proposed Ordinance amendments. Continuing to work with HCA Administration to re-agenize Ordinance revision. A law enforcement agency was approved as an OCEMS ALS Provider and completed an Agreement to Provide Services as an ALS provider (see Table 8: OCSD).

<u>2020 - August 2023 Update: IN PROGRESS</u>: On 2/2/23, provided additional historical documentation of public ALS providers in service prior to 1980 (1978 EMS Plan). Awaiting EMSA response.

<u>August 2024 Update COMPLETED</u>: Historical documentation of public ALS providers in service prior to 1980 within 1978 EMS Plan (See page 12). All Orange County ALS public/fire providers are authorized as a provider within the organized EMS system, follow local EMS medical control directives & participate in QI activities.

TIME FRAME FOR MEETING OBJECTIVE:

- ☐ Short-Range Plan (one year or less)
- □ Long-Range Plan (more than one year)

UPDATED SYSTEM ASSESSMENT FORMS

Data Collection/System Evaluation

6.05 DATA MANAGEMENT SYSTEM

MINIMUM STANDARDS:

The local EMS agency shall establish a data management system that supports its system-wide planning and evaluation (including identification of high-risk patient groups) and the QA/QI audit of the care provided to specific patients. It shall be based on state standards.

RECOMMENDED GUIDELINES:

The local EMS agency should establish an integrated data management system which includes system response and clinical (both pre-hospital and hospital) data.

The local EMS agency should use patient registries, tracer studies, and other monitoring systems to evaluate patient care at all stages of the system.

CURRENT STATUS: Meets minimum standard.

COORDINATION WITH OTHER EMS AGENCIES:

NEEDS:

Standard is met. Objective developed to enhance data capture of specialty patients.

OBJECTIVE:

6.05.2: By year end 2014, implement the OC-MEDS patient registry module to begin capturing specialty patient data.

<u>August 2015 Update: IN PROGRESS</u>: STEMI and Stroke data collection forms and permission levels have been developed. Continue to refine processes and data elements to meet system needs. Currently receiving trauma data in NTDB format from four (4) trauma centers (OCG, MSN, UCI, LBM) via scheduled quarterly imports. CHOC is using the Patient Registry Trauma Incident Form as their Trauma Registry and performing direct data entry.

<u>August 2016 Update: IN PROGRESS:</u> Countywide Stroke Registry has been completed and is in pilot testing. Implementation is expected by early 2017. STEMI policies in development to support refined processes and data elements. STEMI Registry Pilot testing expected to begin by early to mid-2017.

<u>August 2017 Update: IN PROGRESS:</u> As of Q2 2017, the OC Stroke Registry has been fully implemented. OCEMS designated Stroke Centers have been trained how to the use system and are submitting Stroke patient data accordingly. OCEMS plans to implement a STEMI Registry, with projected implementation of Q1 or Q2 2018.

October 2018 Update: IN PROGRESS: All SNRCs are currently submitting stroke patient data through the OC-MEDS Stroke Registry. We continue to refine our processes and discuss with stakeholders which data elements will meet system needs and not create undue burden on the stakeholders' ability to do data abstraction. Plans to implement an OC-MEDS STEMI Registry has been postponed and we will continue to receive the required data by hard copy or email.

October 2019 Update: IN PROGRESS: No Change from prior update.

2020-2023 Update: IN PROGRESS: No Change from prior update.

<u>August 2024 Update: IN PROGRESS:</u> Initiated implementation of Bi-Directional exchange for basic EMS data to collect & share outcome data at all stages of the system. Implementation of STEMI Registry remains pending.

TIME FRAME FOR MEETING OBJECTIVE:

- ☐ Short-Range Plan (one year or less)
- □ Long-Range Plan (more than one year)

Reporting Year: 2024 (licensing data from 2023)
